Mount Pleasant

We regret the non-appearance of a lengthy article sent you a few weeks ago, but as the holiday time has been on for some time past, we consoled ourselves with the thought that your "devil" had gone on a fishing excursion from which we expected you would have had a good fish story that would outdo our correspondence. As none has entered your columns it is surmised that the boat, fish and all has gone down, and we are left in the dark concerning the fate of your "devil." If possible throw a ray of light on this important matter.

Your issue of the 23rd June contained a very important item announcing the safe arrival of Mrs. Wm. Marsb to her home at "Elmslea" from Peterboro. We were glad to hear that no accident happened her while returning home, as street car conveyance is not the safest means of travel. When we get air ships a more direct route can be taken with less danger to the travelling public. Those distressing casualties may be the means of deterring Miss Ella Marsh from the fulfilling of her long ago promise of visiting the home of her grandparents.

The introduction of those turbine wheels may cause a revolution in the safety of travel along with those mighty flyers through the air. The hum of the milk wagon in the morning equals the noise of the street car or the rattle of the vehicle on the brick pavements disturbing our slumbers.

One of the two new arrivals here feels the want of its foster mother. Farmers are highly pleased with this fine growing weather.

Gentlemen,—I can strongly recommend Yorkshire Stock Food for horses, and cattle out of condition. I have recommended it in my practice for twenty years and consider it is the premier stock food in the market.

Gentlemen,—We have used Yorkshire Stock Food for years and know from experience that it is far superior to any other stock food in the market. It is a grand food for stock of any kind especially cattle and hogs. We feed it regularly. Farmers in our locality all endorse it.
