RICHMOND HILL, August 4, 1904

Mr. John Miller, Deputy Minister of Education for Ontario, read a paper on the educational system of this Province at the Dominion Educational association in Winnipeg a week ago. He discussed the excellencies and defects of our system, and pleaded for larger views and higher ideals in all educational work.

Relative to the recent friction between England and Russia over the seizure of the British ships, and the promise given by Russia that it would not occur again, an exchange says: "The Russian bear is just now waking up the old British lion. What will he do when the lion begins to growl in earnest?" Such squibs are apt to be irritating, and should not be indulged in. The Russian Government apparently submitted gracefully to England's demands, and it is hoped the possible trouble between the two countries has passed.

The markham Sun referred last week to the painful fact that in Markham there is at present, "a perfect epidemic of swearing among the small boys of the town." The Sun refers to numerous exhibitions of profanity at ball games, and what is to be regretted, holds that the grown up men are largely to blame for the conduct of the boys. The Sun's contention is that many of the male adult population indulge in similar language, and that the boys are merely imitators. We are inclined to think The Sun is right. If the grown up men in Markham or any other village would set a good example themselves and check coarse or profane remarks whenever they hear them there would not be so much to complain about in the boys. The average man is too much inclined to close his ears and turn his back when disagreeable work is to be done. Boys may often be benefitted by a rebuke or a kind word in season.

Among the many excellent speeches delivered in the House of Commons on the Government side, bearing on the budget, that of Mr. Arch. Campbell, M. P., for West York, is one of the best. Mr. Campbell referred to the general prosperity of the country, and showed that the trade increased under Conservative rule at the rate of \$3,500,000 per year, but that the increase under the Liberal administration had been at the rate of \$32,000,000 a year. Mr. Campbell touched on the former American quarantine of Canadian cattle, the system of cold storage introduced by the Liberal Government, the proposed revision of the tariff next session, and several other items in the Government programme. The Address which is issued in pamphlet form, is well worthy of careful perusal.

Tuesday's edition of the Mail and Empire contained a fair sample of the rubbish dished up to its readers day after day on the Dundonald affair. The Mail's idea is to show that Sir Wilfrid Laurier takes a pride in belittling Scotchmen in this country. The Mail likes no better pastime than to stir up a race cry, though that paper should have learned by experience that it suffers every time by experiment. The broad-minded Scotchmen of Canada will take no stock in such paragraphs as the following:—"On hearing such a distinguished man as Lord Dundonald stigmatized as a "foreigner" by the premier of Canada, the first impulse of most fair-minded men who

read Sir Wilfrid's words was to resent them. Then second was to mentally review some of those passages in Canadian history in which the Scotch have played a particularly notable part."

The Mail then gives a number of worthy enterprises in which Scotchmen have taken a prominent part. Of course the mean part is the endeavor on the part of The Mail and Empire to show that Sir Wilfrid Laurier does not give the Scottish race credit where credit is due.

Farming For Profit...

Every Farmer should keep these three words constantly in mind and conduct his farm on strict business principles. Guess work and haphazard methods are no longer used by successful and up-to-date farmers.

By reading THE WEEKLY SUN, the Farmer's Business Paper, you will get the very latest and most accurate information regarding your business.

THE SUN's market reports are worth many times the subscription price to you.

Every Farmer in Canada should realize the full value of the service THE SUN has rendered him in a public way. It was due to the action of THE SUN in giving voice to the opinions of the farmers that the law relating to cattle guards, drainage across railways, and farm fires caused by railway locomotives has been amended.

We will send THE WEEKLY SUN from now to 1st January, 1905, in combination with THE LIBERAL.

MEN'S DISEASES

There is seldom a day that we are not consulted in regard to a condition that, if we were to have seen it in its early stages, the sufferer would have been relieved, cured and saved considerable expense. This we consider is due to lack of knowledge on the part of the doctor who has previously treated the case; therefore, we say to you, if you are suffering from any disease or condition peculiar to men, or if you have been a victim and been disappointed in not getting a permanent cure elsewhere, we would ask that you come to our office for personal examination or write us for a Question Blank for Home Treatment. We will explain to you OUR SYSTEM OF TREATMENT, which we have originated and developed after our whole life's experience in the treatment of special diseases of men. We will give you, FREE OF CHARGE, an honest and scientific opinion of your case. If we find you are incurable we will honestly tell you so. If we find your case curable we will give you a written guarantee to cure you or refund you your money.

—YOU CAN PAY WHEN CURED—

We cure NERVOUS DEBILITY, VARICOCELE, STRICTURES, BLOOD and SKIN diseases, PROSTATIC troubles, BLADDER, KIDNEY and URINARY diseases.

Its Just Like This

You would not think him to be a very sensible man who would spend a thousand dollars for a magnificent, pure blooded, thoroughbred horse and then try to economize by feeding it on musty hay, foul water and other inferior and health destroying foods.

Neither is it sensible for a man to invest his money in a splendid, up-to-date outfit of harvesting or other farm machinery and then try to economize by using cheap, low priced and inferior Lubricating Oils.

In Cylinder, Machine and Separator Oils. Innumerable tests, careful study, and a thorough knowledge of the composition of lubricating materials, have enabled us to select the very best obtainable quality. We have made right prices by gallon or barrel.
