Heating stoves of all kinds, coal and wood. C. & E. Mason.

Mr. Wm. Hutchinson showed us yesterday a branch heavily laden with blackberries of delicious flavor. The 5th of October is late in the season for picking this kind of fruit.

Much curious information is embodied in an article entitled "What the People read in China," which is contributed to the October number of the Review of Reviews by Mr. Chang Yow Tong. The article forms one of a series dealing with the current reading habits of foreign nationalities that is now running in the Review of Reviews.

Parents should keep an eye on their children as several of the youngsters have a habit of getting on Metropolitan cars, and playing about the switch near the waiting-room. It is to be hoped that no serious accident will occur, but there have been a number of narrow escapes. The car hands should also be strict, and not allow the children to take privileges around the cars.

We have received a recent copy of the Stockton Evening Mail which contains an interesting description of the new San Joaquin Valley Bank into which the office force has just moved. A photograph giving a front view shows that the magnificent structure is four stories high, and is built of sandstone and granite. Hon. J. M. Welsh, formerly of Thornhill, was president of the bank when he died a few months ago, and Mr. R. B. Teefy, son of our esteemed postmaster, is head cashier in the institution.

### SPECIAL OFFER.

### PLEASE SETTLE.

We are enclosing, in THE LIBERAL this week, a large number of accounts for subscriptions. As this is a time of year when bills for coal, taxes, insurance and many other things must be paid we trust that those who receive their accounts will settle promptly either by a remittance or by calling at the office. Do not wait for a second reminder that you are in arrears.

### "THE PRINCESS AT WORK."

The above is the title of the new premium picture to be given with that great paper, the Family Herald and Weekly Star of Montreal, this season. It is said to be a gem, by far the most expensive and beautiful they have ever issued. All who pay a year's subscription (one dollar) to the Family Herald and Weekly Star, get a copy of the picture free. Family Herald subscribers are this year in greater luck than ever. "The Princess at Work" alone is worth a good deal more than what is asked for the year's subscription and the picture.

We must sell, people must buy, and we must be satisfied with small profits. Atkinson & Switzer.

Eighty pupils are in attendance at the High School.

The house and lot on Richmond Street belonging to the estate of the late Mrs. Stockdale was sold by auction yesterday, by Mr. J. T. Saigeon. Mr. Frank E. Sims was the buyer.

### A PROGRESS NUMBER.

While the regular features are not neglected, the October Canadian Magazine is a Progress Number. A perusal of the articles specially bearing on the great advances made by Canada in recent years will rekindle enthusiasm in the breast of every patriotic reader. The facts are based upon the records of the thirty-seven years since Confederation, with special reference to the growth during the census period 1891-1901. As the census volumes are not yet issued, this is the first broad view of its results which has yet been given to the public. Bella Coola, the Norwegian colony in British Columbia is taken as typical of the Western Settlements and its history will be found most interesting. "The Progress of Higher Education for Women," by Hilda D. Oakeley is a splendid feature. Mr. Archibald Blue compares the profits made by farmers with those made by the manufacturers, while A. L. McCredie contrasts the earning power of the farmer with that of the fisherman. Among the general features of the issue are Mr. Bradley's beautiful description of "The Death of Wolfe;" Mr. Wicher's illuminating picture of Japanese social and religious life; Mr. Ewan's illustrated summary of Current events abroad; and short stories by Guy de Maupassant, William Holloway and Eloise Day. The coloured folding map and coloured frontispiece add much to the value of this 140th issue of the Canadian Magazine.
