James Goodman, no dog \$ 1 00
Charles Shaw, no dog 1 00
—\$ 2 00
—Carried.

Council then adjourned *sine die*.

Samples of Choice Grain for the Improvement of Seed.
To the Editor of THE LIBERAL
DEAR SIR.—By instruction of the Hon. Minister of Agriculture another distribution will be made this season of samples of the most productive sorts of grain to Canadian farmers for the improvement of seed. The stock for distribution is of the very best and has been secured mainly from the excellent crops recently had at the branch Experimental Farm at Indian Head in the North-west Territories. The distribution this spring will consist of samples of oats, spring wheat, barley, Indian corn and potatoes. The quantity of oats to be sent this year will be 4 lbs., and of wheat or barley 5 lbs., sufficient in each case to sow one-twentieth of an acre. The samples of Indian corn and potatoes will weigh 3 lbs. as heretofore. A quantity of each of the following varieties has been secured for this distribution:
Oats—Banner, Wide-Awake, Improved Ligorvo, Waverley, Goldfinder, Abundance and Thousand Dollar.
Wheat—Preston, Red Fife, Percy,

Stanley, Huron, Laurel and White Fife.
Barley—Six-rowed—Mensury, Odesa, Mansfield, Claude and Royal. Two-rowed—Sidney, Invincible, Standwell and Canadian Thorpe.
Potatoes—Carman No. 1, Early White Prize, Canadian Beauty, Uncle Sam, American Wonder, Bovee, Early Andes and Late Puritan.

Every farmer may apply, but only one sample can be sent to each applicant, hence if an individual receives a sample of oats he cannot also receive one of wheat, barley or potatoes, and applications for more than one sample for one household cannot be entertained. These samples will be sent free of charge through the mail.
Applications should be addressed to the Director of Experimental Farms, Ottawa, and may be sent in any time before the 1st of March, after which the lists will be closed, so that all the samples asked for may be sent out in good time for sowing. Parties writing should mention the sort or variety they would prefer, with a second sort as an alternative, and should the available stock of both these varieties be exhausted, some other good sort will be sent instead. Those applying for Indian corn or potatoes will please bear in mind that the corn is not available for distribution until March or April, and that potatoes cannot be mailed from here until danger from frost in transit is over.
WM. SAUNDERS,
Director Experimental Farms,
Ottawa, Dec. 1, 1904.

TYPHOID GERMS.

The microscope shows that in the blood of every person suffering from typhoid the little germs can be found as shown above. They are supposed to get into the water or milk we drink. The germs multiply so that one germ is capable of producing about one hundred trillion germs in twenty-four hours. That is why if they ever get into the water supply of a town they multiply so fast that nearly everybody drinking the water comes down with the disease. There are exceptions, however, and they are the persons whose health is perfect, whose blood is pure, and whose body they are thrown off with the other poisons. Recent Chicago statistics show that one-eighth of all the deaths in the past two years in that city have resulted from pneumonia.

The best advice we can give is to put the body into a perfectly sound, healthy condition. Be assured that you have rich, red blood and an active liver.
Many years ago Dr. R. V. Pierce, who is consulting surgeon to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., found certain herbs and roots which, when made into an alternative extract (without the use of alcohol), seemed to be the very best means of putting the stomach, blood and vital organs into proper condition.
This seemed to him as close to nature's way of treating disease as it was possible to go. For over a third of a century Dr. Pierce's Golden Medical Discovery has had a wonderful sale and the cures resulting from its use are numbered by thousands. It is a tissue-builder, better than cod liver oil because it does not sicken the stomach, or offend the taste. It strengthens or renews the assimilative or digestive processes in the stomach and puts on healthy flesh when the weight of the invalid is reduced below the normal.
Accept no substitute for "Golden Medical Discovery." Nothing else is "just as good."
Dr. Pierce's Pellets cure biliousness.

The Kennedy Shorthand School

The necessity of the day is specialization. Skill in one line wins out where scattered ability counts for nothing. Young people find stenography the quickest and surest means of advancement to best positions.
Last week we had calls from three prominent railway officials for private secretaries at good salaries. This was in railway work alone. We had no one to send.
Young men, this is worth looking into. Write for free booklets and particulars. New term opens Jan. 3.

9 Adelaide St. E. Toronto, Ont.
