THE DELINEATOR

For February, with a beautiful art cover and a varied table of contents, is a most attractive number. As a special feature, Lionel S. Mapleson gives an account of Grand Opera on its travels, a paper that is full of humor as well as of genuine interest and is strikingly illustrated. The romance of Chopin and the beautiful Countess Delphine Potocka is charmingly related by Gustav Knobbe in the "Composers' Series," and in an interesting paper Alan Sutherland tells something of the origin and romance of that matchless hymn of Henry Francis Lyte, "Abide With Me." There are also good stories by Mary Stewart Cutting, Anne O'Hagan and Owen Oliver, in addition to the children's corner, which includes one of L. Frank Baum's "Animal Fairy Tales" and a "Son of Riley Rabbit" story by Grace MacGowan Cooke. Some of the early spring styles are shown, and of further interest to women is the chapter on "The Making of a Housewife," containing a world of suggestion. The department "Good Looks," which discusses the forehead, and Mrs. Theodore W. Binney's contribution on "The Mistakes of Mothers," are other items especially helpful.

JANUARY CANADIAN MAGAZINE

The Canadian Magazine starts the New Year with a new serial story, the scenes of which are laid in the war of 1812. It is entitled "The Builders," a most apt title for a story which deals with the struggles of those who helped with the foundations of Canada. The author is a Canadian, a resident of Toronto. The other features of the January number are also worthy of consideration. G. M. L. Brown, a Canadian traveller, writes interestingly of Curacao, one of the most important of the smaller West Indian Islands. The editor reviews the new life of Sir John Beverley Robinson, and this contribution is accompanied by an unpublished picture of the late Chief Justice, and an unpublished pencil-sketch of Government House, Peterborough, built in 1826. Dr. Drummond contributes one of his famous habitant poems. Cy Warman's satire "Dog Eat Dog" will interest the people of the West who have recently suffered from a lumber combine. Professor Cappon's article on "Robert's and the Influences of His Time" is the first of a series of four on the same subject. There are the usual short stories, poems and departments—each depicting some phase of our national life. The national tone, which has given distinctiveness to this publication, was never more in evidence than in this issue.

No Difference.

No distinction is made as to the kind of Piles that Dr. Leonhardt's Hem-Roid cures.

The names Internal, External, Bleeding, Blind, Itching, Suppurating, etc., are simply names of the different stages through which every case will pass if it continues long enough.

Piles are caused by congestion or stagnation of blood in the lower bowel and it takes an internal remedy to remove the cause.

Dr. Leonhardt's Hem-Roid is a tablet taken internally.

It is a permanent cure, and no case of Piles has ever been found that it failed to cure. Money back if it does.

A guarantee with every package. Price \$1.00 at any druggist's, or the Wilson-Fyle Co., Limited, Niagara Falls, Ont.

Our Position in Education.

"Education is not perfect in this or in any other country, nor never will be perfect in accordance with the ideas of some people; but we know where we stand," said Premier Ross at the Toronto banquet. "We took the first position at the World's Fair, and we take the first position in the estimation of visitors from abroad who examine our schools. The products of our schools and universities take first positions with the products of other universities. (Applause.) You had an example here in Toronto the other day in the person of Dr. Osler, who has been transferred to first place among the positions of Great Britain. (Renewed applause.)"
