

## GIVES TWO REAL GOOD REASONS

FOR BELIEVING DODD'S KIDNEY PILLS CURE ALL KIDNEY AILMENTS.

Cured His Backache of Twenty-five Years Standing and Satisfied Everyone He Recommended Them to.

Economy Point, N. S., May 15—(Special).—Geo. S. McLaughlin, of this place, gives two splendid reasons for his belief that Dodd's Kidney Pills are the one remedy for kidney ailments. Here are the two reasons in his own words:

"I was troubled with lame back for 25 years or more, sometimes so severe that I could not turn myself in bed. One box of Dodd's Kidney Pills cured me, and I have had no return of the trouble since."

"I have recommended Dodd's Kidney Pills to a number of persons who had kidney trouble. All who have used them have been benefited or cured."

Dodd's Kidney Pills not only relieve all kidney diseases, from backache to Bright's Disease, but they absolutely cure them. But sometimes where one or two boxes relieves it takes more to make a complete cure.

### COLD FEET AND INDIGESTION.

Coldness of feet and limbs is almost invariably an evidence of indigestion. The coldness is not due to weakness of the heart or feebleness of circulation, as is generally supposed, but to the contraction of small arteries, preventing blood from entering the parts. There is generally an irritation of the abdominal sympathetic nerve centres which control the circulation of the lower extremities. This difficulty is not to be removed by exercise or by any special application to the limbs, but by removal of the causes of the irritation. This may be a prolapsed stomach or chronic indigestion. Hot and cold foot baths are valuable. These act, not simply on the feet and limbs, but reflex action affect beneficially the abdominal sympathetic centres, which are in a diseased condition.

Rubbing of the feet and legs is also an excellent method of overcoming spasm of the blood vessels, thus preserving the normal circulation. The rubbing should be from the feet towards the body. The surface should be well lubricated with vasoline. To avoid irritation of the skin care should also be taken to clothe limbs very warmly. In many cases this is necessary, even in the summer season.

Stern Parent—"Young man, I saw you kissing my daughter as I passed the parlor door, and I want you to know that I don't like it. What have you to say about it?" Young Man—"All I've got to say is that you evidently don't know a good thing when you see it."

It is usually the coward who does the most talking about discretion being the better part of valour.

### COFFEE HEART.

Very Plain in Some People.

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises.

A gentleman in Brooklyn describes his experience, as follows:

"I became satisfied some months ago that I owed the palpitation of the heart, from which I suffered almost daily, to the use of coffee, (I had been a coffee drinker for 30 years) but I found it very hard to give up the beverage."

"I realized that I must give up the harmful indulgence in coffee but I felt the necessity for a hot table drink, and as tea is not to my liking, I was at a loss for awhile, what to do."

"One day I ran across a very sensible and straightforward presentation of the claims of Postum Food Coffee, and was so impressed thereby that I concluded to give it a trial. My experience with it was unsatisfactory till I learned how it ought to be prepared—by thorough boiling for not less than 15 or 20 minutes. After I learned that lesson there was no trouble. Postum Food Coffee proved to be a most palatable and satisfactory hot beverage, and I have used it ever since."

"The effect on my health has been most salutary. It has completely cured the heart palpitation from which I used to suffer so much, particularly after breakfast, and I never have a return of it except when I dine or lunch away from home and am compelled to drink the old kind of coffee because Postum is not served. I find that Postum Food Coffee cheers and invigorates while it produces no harmful stimulation."

Name given by Postum Co., Battle Creek, Mich.

There's a reason. Ten days' trial proves an eye opener to many.

### THE CHARMS OF TIBET.

Sir Frank Younghusband, the leader of the recent British expedition to Lassa, the sacred city of Tibet, brushes away, in an address, the delusion that Tibet is a rainless country. After marching over the elevated plateau in the face of bitter winds and blizzards, the expedition reached the valley of Gyantse, where willows and poplars were bursting into foliage before the middle of April, and the banks of the river were covered with masses of purple iris plants. On resuming the march for Lassa, July 14th, heavy rain fell, and frequent rains were experienced until September, and the size of the rivers showed that this part of Tibet has a good rainfall. Lassa was found lying in a "lovely valley covered with trees, rich with cultivation, and watered by a river as broad as the Thames at Westminster," and "hidden away by range after range of snowy mountains."

### A MODEL PUBLICAN.

The death occurred recently of Mr. Sam. Hey, the landlord of a public-house in the Gillington district of Bradford, England, whose boast was that, though he had kept one house for thirty years, a drunken man had never been seen inside it. He knew all the "wage days" in his locality, and if any working man came in on that day, and asked for liquor, Mr. Hey would say, "You can have one drink; then you must go home and give your wife your wages. You may then come back and have another, when you have washed yourself and brushed up." He allowed no bad language in the house.

**Bright's Disease—Insidious! deceptively relentless!** has foiled hundreds of trials by medical science to stem the tide of its ravages—and not until South American Kidney Cure proved beyond a doubt its power to turn back the tide, was there a gleam of anything but despair for the victim of this dread form of kidney disease.—54

### MURDERERS GET FREE.

Strange Sequel to a Murder Trial at Melbourne, Australia.

The sequel to a remarkable murder trial at Melbourne is brought by a recent Australian mail. An astonishing feature of the story is that a self-confessed murderess stands at present beyond the reach of the law.

Rose Hubbard, a handsome young woman, twenty years of age, was accused of poisoning her mother, with whom she and her step-father lived in Melbourne. The defence was that the stepfather, a man of sixty-five, named Robins, was the real criminal. After an exacting quarrel the girl was acquitted and discharged.

In conversation with a detective a short time afterwards the girl admitted that she had murdered her mother, and gave as her motive the fact that she had fallen in love with her stepfather, and was bitterly jealous of her mother.

Subsequently, accompanied by the man Robins, she went to the police station and made the following statutory declaration:—

"I, Rose Hubbard, of Percy street, Kersington, Melbourne, solemnly and sincerely declare that I remember making a statement to the police in jail accusing Robins of murdering my mother. That is absolutely untrue."

"My reason for making that statement was to save myself from being convicted. I now admit giving my mother quicksilver and arsenic at intervals, as she often struck me and was jealous of me."

"I was sorry for what I did to my mother, but she annoyed me and called me such terrible names that I was determined to do it to her. I am making this statement to clear an innocent person."

The police have satisfied themselves that the confession is true, but in face of the verdict of not guilty they are unable to take any steps against the murderess.

They cannot move forward who will not say farewell to some things.

### SAXON SKELETONS FOUND.

While digging for the purpose of erecting a children's swing at High House, Winchester, England, workmen have laid bare five or six human skeletons in good preservation. One was that of a man of gigantic stature, and on the ribs was found a Saxon spearhead. In another hole was the skeleton of a man equally tall, and here was found another spear-head, as well as the remains of a belt-fastening. In another place was a fine silver ring of splendid workmanship. The site is one on which Saxon and early Norman political offenders were executed. Stigand, an Archbishop of Canterbury, being one who suffered there.
