"How to Make Dollars out of Wind"

is a truthful book of facts and instructive information that is invaluable to the student of intensive farming. It tells how others pick up hundreds of dollars on their places more by forethought and care than by work, and gives names and letters of parties who have found a little breeze to be a good money-maker. It tells further how you can secure a Chatham Fanning Mill, use it to your profit, and pay for it later on. Write for this book to-day, without fail. It will come back by return mail. Cushion Frame Bicycles....

There is no "just as good" Bicycle when the Cushion Frame is being considered—it is exclusive. It is absolutely the only perfectly up-to-date wheel made to-day.

The Hygienic Cushion Frame is an ingenious device in the form of an air cushion part of the frame and situated immediately under the seat. A three-plate spring of flat, tested steel also connects the lower portion of the frame near the sprocket and acts in conjunction with the upper cushion.

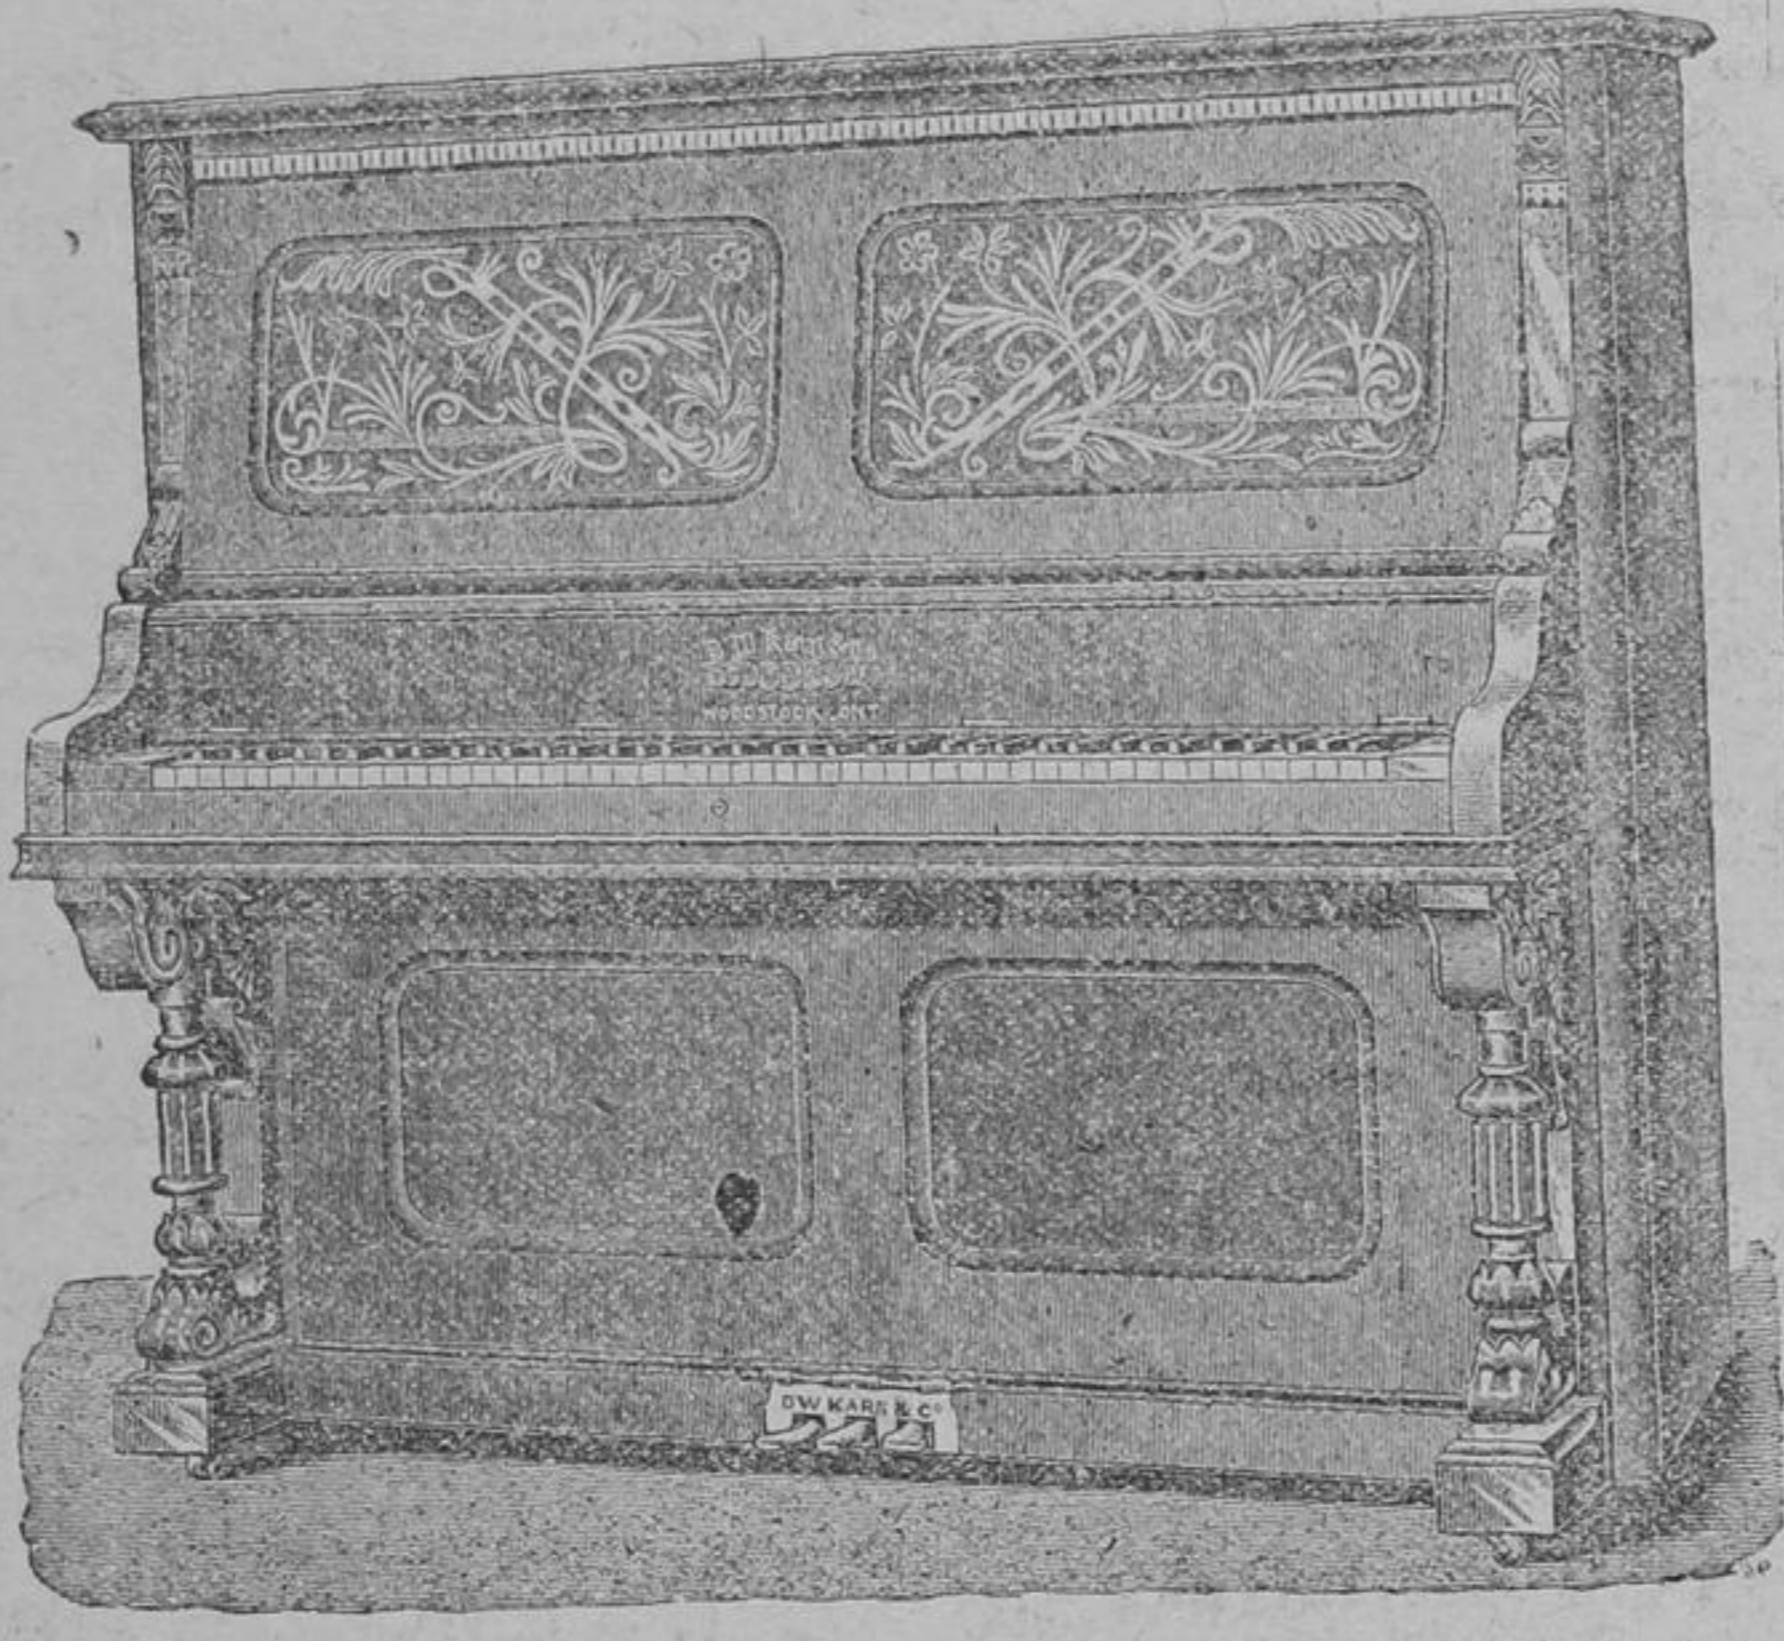

In the city it makes wheeling doubly pleasant. In the country where roads are of uncertain surface it deprives long distance tours of their tiresome features, which are mostly caused by the continual jarring of the rigid frame.

To realize all the healthy pleasure and all the comfort there is in modern wheeling one should have a bicycle equipped with a Hygienic Cushion Frame, Morrow Coaster Brake and Sill's Hygienic Handle Bars.

Imperial Bicycles

have all these comfort-giving qualities, and besides they are made with the help of automatic machinery from tested material. Every section and part of these bicycles is subjected to close examination before being assembled.

Remember, that unless your bicycle is stamped Hygienic on the rear cushion, and has the flat three-plate spring at the bottom bracket, it is not the genuine Hygienic Cushion Frame.
