"How to Make Dollars out of Wind"

is a truthful book of facts and instructive information that is invaluable to the student of intensive farming. It tells how others pick up hundreds of dollars on their places more by forethought and care than by work, and gives names and letters of parties who have found a little breeze to be a good money-maker. It tells further how you can secure a Chatham Fanning Mill, use it to your profit, and pay for it later on. Write for this book to-day, without fail. It will come back by return mail. It is Back to Bicycles....

It should be back to Bicycles with everyone who ever rode a wheel—for these particular wheels this year are so far ahead of their predecessors that it would be realizing new pleasures and new and luxurious comforts in the joy of living to ride any of them.

Hon. J. T. Doyle, L.L.M., Secretary of the U. S. Civil Service, Washington, puts the matter in a nutshell regarding bicycles generally, when he says: "Of the things that help to make life more good and agreeable and extend the range of its activities, the Bicycle is among the foremost. It quadruples the area that one may move in and makes it quick and pleasant to 'get there.'"

The Hon. J. T. Doyle could speak particularly of the new wheel—the wheel that is equipped with the Hygienic Cushion Frame, the new Morrow Coaster Brake and the Sills Handle Bar—improvements that makes wheeling an entirely different proposition from that of four years ago.

No breakdowns—every road a smooth road—more speed and less work—no jarring or vibration—better material—better workmanship.

CLEVELAND

This is the exclusive wheel that has the big modern improvements—Cushion Frame, Coaster Brake, Sills Handle Bars. Above all, are made right and of the right material—and don't cost any more than the other kind.

By riding one of these wheels you save money in car fare—save time—get the best exercise on the catalogue—and get all the joy and all the comfort there is in modern wheeling.
