**Vegetable Growers Organizing**

The officers of the recently formed Ontario Vegetable Growers' Association purpose organizing branches of the Association in connection with the leading cities and towns of the Province. Organizers will be sent out during this month to towns and cities with the object of forming branch associations. These organizers will be members of the Association who are leading market gardeners in the vicinity of Toronto and Hamilton.  
 The Association will receive a Government grant this year of \$800. It purposes using this money to hold a large convention for vegetable growers at the time of the Horticultural Exhibition in Toronto next November, and also offering prizes for a large vegetable exhibit at this show. The prize list for the show has been already completed.  
 The constitution of the Association provides for the formation of branch Associations. The vegetable growers in the vicinity of any town or city may organize a branch Association, for which the membership fee is \$1.00. The presidents of these branch Associations become directors of the Provincial Association and have their expenses paid while attending meetings of its executive. The branch Associations are expected to pay the Provincial Association 40 cents for each of their members, which makes all members of the local Association members of the Provincial Association. The Provincial Association sends all its members copies of the annual report of its convention, a monthly magazine, which is the official organ of the Association, and other printed matter. Vegetable growers who would like to see one of these branch Associations formed in their vicinity are invited to write to H. B. Cowan, Department of Agriculture, Toronto, who is the secretary of the Ontario Vegetable Growers' Association.

On Sunday last a bus load of Salvation Army people visited the railway camps and held services for the benefit of the men. At Gormley camp the meeting was held in a pleasant, well-shaded place on the farm of Mr. Doner. About a hundred people were present. It was an inspiring and impressive service and judging by the quietness and solemnity of the audience it was highly appreciated. From there they proceeded to Vandorf Camp for evening service. We understand these worthy workers hailed from Aurora.

**News Notes.**

Danford Roche & Co., dry goods merchants, have assigned.  
 Newmarket had a Flower Show yesterday in the Skating Rink, followed by a concert in the evening.  
 The Allan Line's new turbiner, the Virginian, has broken all records for the passage between Merville and Rimouski, by making the trip in five days, twenty hours.  
 The city of Toronto will carry to the courts the question of whether the Metropolitan Railway has exclusive rights on Yonge street, north of the C. P. R. tracks.  
 Two little girls, Annie and Irene O'Connor, of Hamilton, who were staying at Grimsby Park, had their row boat shoved out from the wharf by a number of foolish boys, and were at the mercy of the waves in Lake Ontario for over twenty-four hours. They were picked up the following day by the steamer Lakeside.

**ACROSS COUNTRY.**

The signs of the times point to an enormous increase of intelligent public interest in health: to a new generation with purer, stronger blood and therefore more active, braver brains and body. No physically robust, healthy person ever succumbed to grip, consumption, malaria or any other germ disease. But with a weakened system we all have to fight the germs of disease. Our blood is often in a fertile condition for the growth of bacteria—the germs of disease—because our stomach is disordered or our liver is torpid—in either case our blood does not get the proper nourishment. A stagnation of the blood and an accumulation of poisons which furnishes a weak spot for bacteria to enter.

To enrich the blood and increase the red blood corpuscles, Dr. Pierce years ago found a vegetable compound, which he called Dr. Pierce's Golden Medical Discovery, that would quickly cure the bad symptoms by increasing the red blood corpuscles and thereby feeding the nerves on rich blood. This "Medical Discovery" also acts upon the digestion and assimilation of food, so that the blood gets its proper elements from the products of digestion. Feed the lungs, stomach and heart on rich red blood and you have surely a healthy body which will throw off the germs of disease which lurk everywhere. Get as near nature's way as you can. A medicine made entirely from botanical extracts and which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains neither alcohol nor narcotics.

**Cement Stone**

The building material which is coming into favor is concrete made in imitation of cut stone, which will be found much superior to any other material for building purposes for the following reasons:  
 First—Cement blocks are made of the most durable material.  
 Second—The blocks being made hollow, houses are not damp like those constructed of solid concrete, as the hollows in the blocks overlap, thus making a dead air space all around, of several inches, depending on the thickness of wall which can be made either 8, 9, 10 or 12 inches in thickness.  
 Third—The face being made in exact imitation of cut stone they make the prettiest building imaginable.  
 Fourth—They can be built for about one third less than solid brick.  
 These blocks can be used with equal success and beauty in any place either for houses or barns, verandah pillars, chimneys, etc. For further information inquire or write to
