

The Liberal.

RICHMOND HILL, August 17, 1905

Mr. Andrew Carnegie, the American millionaire, who has doubtless seen much of the world with its snares and temptations and knows whereof he speaks, has given to the press a statement which is as forceful as it is true. Referring to the drink habit Mr. Carnegie says:—

"The first and most seductive peril, and the destroyer of most young men, is the drinking of liquor. I am no temperance lecturer in disguise, but a man who knows and tells you what observation has proved to him; and I say to you that you are more likely to fail in your career from acquiring the habit of drinking liquor than from any or all the other temptations likely to assail you. You may yield to almost any other temptation and reform—may brace up, and, if not recover lost ground, at least remain in the race, and secure and maintain a respectable position. But from the insane thirst for liquor escape is almost impossible. I have known but few exceptions to this rule."

The local option law prohibiting the sale of intoxicating liquors is in force in forty-six townships, two towns and one city (Sault Ste. Marie.) In the other municipalities of the Province 2,577 tavern licenses are issued. The municipal revenue from this source is \$257,866, of which \$148,902 is imposed by law of the council in excess of the statutory duties in 348 municipalities. Councils are not only authorized to increase the license fee, but may by by-law limit the number of licenses to be issued. With the active co-operation of municipal and provincial authorities the liquor traffic may be controlled and limited to the actual requirements of a community.

Mrs. Massey, wife of the late W. E. H. Massey, has donated a legacy of \$10,000 for the establishing and endowing of a Rest Home in connection with the Deaconess Home and Training School. This Home is situated on Dentonia Park Farm, about six miles from Toronto. It seems that the work in the Deaconess Home is so arduous that many of the young women break down in it, and a change of environment and occupation in some cases is absolutely necessary. It is hoped that in the Rest Home many a bright earnest young woman will have her health restored, and thereby be enabled to give added years of service in a good cause, a labor of love.

An exchange has the following:— "Toronto policemen are busy just now gathering in the foul-mouthed citizens whose idea of fun is to get on the street or other public place and express themselves profanely. Magistrate Denison is making the punishment fit the crime in most cases, so that it seems probable that the present campaign will have the effect of diminishing the number of "cuss words" that sometimes make the Toronto atmosphere horrible."

Few things are more disgusting than to be compelled to listen to coarse and blasphemous language. Those who endeavor to check the foolish habit are to be commended.

In Toronto Junction, Tuesday evening Mr. Maclean told his hearers why he did not oppose the salary bill on the floor of Parliament. Here are the reasons as reported in yesterday's World:—"I did not for more than one reason. The thing was all cut and dried by party caucus, by joint-party conference, by agreement, and any protest of mine in the house would have failed, would have aroused a fury of which many of you have no idea."

As everybody knows Mr. Maclean is a timid man. He was afraid of those wicked politicians at Ottawa, but his courage returned as soon as he set foot in South York.

Mr. W. F. Maclean, M. P. for South York, addressed his constituents in Toronto Junction Tuesday evening and maintained, as he did at Wexford, that Liberals and Conservatives were induced to vote for the coercion of the two new provinces on the promise of an increased indemnity. At the close of the meeting a resolution was carried approving of Mr. Maclean's course in the House of Commons.

The Daily Star of Monday says:—"The Temeraire must not forget that the eyes of Canada are on her. Also a stack of money."

We are anxious to see the Canadian boat win the race. We have lost no sleep over the "stack of money." Boat racing as a sport should be encouraged. Betting should be discouraged.

Careful estimate at Winnipeg of the harvest hands required in the Canadian West places the number at ten thousand, half of whom will be required in the Territories. The wheat crop is placed at from 75,000,000 to 100,000,000 bushels.

You'll find here a full stock of best Fruit Jars in pint, quart and half-gallon sizes, Vinegars, XXX White Wine, XXX White Grape, XXX Fruit and English Malt, and the best pure Spices at right prices.—Atkinson & Switzer.

The perils of the editor are numerous and frequent. Here is an instance as related by one of our most esteemed exchanges: "I want an explanation and apology, sir," said the caller. "In your paper this morning you had an account of the wedding at the Smithy's last night, and you spoke of the jay that attended the happy pair as they went to the altar. Now, sir, I'm the—" "Gracious heaven!" gasped the editor, "I wrote it 'joy!' and he rushed into his closet for more perfect security."

Are Your Lungs Worth 25c?

Then why do you cough all day? White Pine and Tar will relieve you the first day. It will stop that cough in a few days more.

We know all about it because we have sold it for years, and we know just what is in it. It is not a cure-all; it's just a Cough Cure, and a good one at that. It's made to cure. That is why we sell so much of it. It's not a patent medicine either. We keep patent medicines, but we do not recommend them. We do recommend White Pine and Tar, and we believe in it so much that we say

"Your Money Back if You Want It."

After you use it once you will believe in it too. It will cost you 25 cents to try it. Are your lungs worth 25 cents?
