

VEGETABLE GROWERS

The officers of the Ontario Vegetable Growers' Association have instructed the secretary to make arrangements for a committee representing the vegetable growers of the Province to appear before the Tariff Commission when it meets in Toronto, to give evidence on behalf of the vegetable growers. Every year great quantities of vegetables are shipped to the leading cities in Canada from the United States, and often sold at prices below the cost of production at the centres where they are disposed of. The United States tariff prevents Canadian growers shipping their vegetables to the leading cities in the United States when their markets are favorable.

The vegetable growers feel that they have a grievance, and that something should be done to improve existing conditions. As there are thousands of vegetable growers in the Province interested in this matter, the Ontario Vegetable Growers' Association intends to present as strong a case as possible before the Commission. It is probable that a lawyer will be engaged by the growers to present their case. The secretary of the Association, Mr. H. B. Cowan, of the Parliament Buildings, Toronto, will be pleased to hear from vegetable growers in any part of the Province who would like to furnish the committee with information that should be laid before the Commission.

Are Your Lungs Worth 25c?

Then why do you cough all day? White Pine and Tar will relieve you the first day. It will stop that cough in a few days more.

We know all about it because we have sold it for years, and we know just what is in it. It is not a cure-all; it's just a Cough Cure, and a good one at that. It's made to cure. That is why we sell so much of it. It's not a patent medicine either. We keep patent medicines, but we do not recommend them. We do recommend White Pine and Tar, and we believe in it so much that we say

"Your Money Back if You Want It."

After you use it once you will believe in it too. It will cost you 25 cents to try it. Are your lungs worth 25 cents?
