It tells further how you can secure a Chatham Fanning Mill, use it to your profit, and pay for it later on. Write for this book to-day, without fail. It will come back by return mail. ## 100,000 People.

There are a lot of people who have realized this year what modern bicycling is. There are also at least 100,000 who think they know, but who really do not know, what bicycling means to-day.

These people rode wheels five or ten years ago, when bicycling

was in its infancy. They stopped because they thought it too hard work, that the bicycle was hard on the arms, or was uncomfortable to ride on uneven roads, or was unreliable. It's a different proposition to-day.

The fact of the matter is that the bicycle is as far ahead of its predecessor of 1895 in point of safety, reliability, comfort and easy riding as a Pullman is over a freight caboose.

**THE COASTER BRAKE** has cut out one-quarter of the pedalling, and has made even mountain descents perfectly safe.

**THE CUSHION FRAME** has made all roads smooth by absorbing the vibration. It adds besides luxurious comfort.

**THE SILLS HANDLE BAR** takes the strain off the arms and absorbs the jarring of the front wheel.
