

RESCUED FROM THE DEADLY CLUTCHES

ONE MORE CURE OF BRIGHT'S DISEASE BY DODD'S KIDNEY PILLS.

Mr. Theodore Young, of Smith's Falls was Beyond the Doctor's Aid—Now He's Well and Strong.

Smith's Falls, Ont., Oct. 16—(Special).—Mr. Theodore Young, a well-known citizen of this place, is one of the many Canadians who have been rescued from the clutches of the much dreaded Bright's Disease by Dodd's Kidney Pills.

"For two years," says Mr. Young, in relating his experience, "I was afflicted with Bright's Disease. The doctors told me I could get no relief. My urine was very dark and I lost considerable blood, making me so weak I could scarcely stand. I also used many medicines without getting relief.

"Hearing of wonderful cures by Dodd's Kidney Pills led me to try them, and after using the first box I found great relief. After using four boxes I was able to go to work, which I had been unable to do for some time. I recommend Dodd's Kidney Pills to all who are afflicted as I was."

Dodd's Kidney Pills always cure Bright's Disease, the most advanced stage of Kidney Disease. How much more easily will they cure the earlier stages of Kidney Disease.

KING AND AN ACROBAT.

His Majesty's Kind Remembrance of a Circus Veteran.

An acrobat's life is a hard one, and few live to a great age. Henry Johnson, of Grantham, England, is an exception, for he was born on Christmas morning in 1805, and in a few months will complete his ninety-ninth year. Only last week this fact was brought to the knowledge of the King by the vicar of Spittlegate, Grantham, who has received the following reply from Buckingham Palace:

Dear Sir,—I have had the honor of submitting your letter to the King, together with the enclosure which accompanied it. I am commanded by his Majesty to thank you for having brought the case of Henry Johnson to his notice, and he will be glad if you will congratulate him from the King, on having attained so great an age, together with the expression of his Majesty's hope that Johnson will yet live for many years to come.—Yours faithfully, KNOLLYS.

After being eight years with Sangor's Circus, Johnson went into partnership with a celebrated Chinese juggler, Mullaiba, and together they travelled the country. In 1830 they were summoned to Buckingham Palace to perform before King William IV., who was evidently much entertained, for he gave them each £50 and a royal license to perform in any market-place or town. Johnson also appeared before the late Queen Victoria and her mother, the Duchess of Kent, and when the King was Prince of Wales, he gave a performance at Sandringham.

ON THE SAFE SIDE.

"The hotel is so crowded, sir, that the best we can do is to put you in the same room with the proprietor."

"That will be all right; just put my valuables in the safe."

COFFEE NEURALGIA.

Leaves When You Quit and Use Postum.

A lady who unconsciously drifted into nervous prostration brought on by coffee, says:

"I have been a coffee drinker all my life, and used it regularly, three times a day.

"A year or two ago I became subject to nervous neuralgia, attacks of nervous headache and general nervous prostration which not only incapacitated me for doing my household work, but frequently made it necessary for me to remain in a dark room for two or three days at a time.

"I employed several good doctors, one after the other, but none of them was able to give me permanent relief.

"Eight months ago a friend suggested that perhaps coffee was the cause of my troubles and that I try Postum Food Coffee and give up the old kind. I am glad I took her advice, for my health has been entirely restored. I have no more neuralgia, nor have I had one solitary headache in all these eight months. No more of my days are wasted in solitary confinement in a dark room. I do all my own work with ease. The flesh that I lost during the years of my nervous prostration, has come back to me during these months, and I am once more a happy, healthy woman. I enclose a list of names of friends who can vouch for the truth of the statement." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Ter days' trial leaving off coffee and using Postum is sufficient. All grocers.

BRITISH POTATO BLIGHT.

Plague Affects Many of Best Districts in England.

The potato blight, which has caused immense losses to growers in the fen district of England, has now made itself evident in other parts of the country.

In addition to the thousands of acres which have been affected in Lincolnshire, Huntingdonshire and Cambridgeshire, but chiefly around Ramsey Hunts, it is now reported that the disease is devastating the crops in Berkshire and Buckinghamshire. A grower near Maidstone, who had a most promising crop of about ten tons to the acre, has found the blight in every root he has examined. Although it is too early as yet to determine whether the consumer will suffer to any considerable extent, owing to the immense quantities of foreign potatoes available for the English market, the disaster which the growers have suffered has overtaken several of the dealers at Covent Garden.

In the Windsor and Slough districts within the last few days farmers were offering what appeared to be thoroughly sound potatoes at £1 a ton, upon condition that the potatoes were to be given to pigs.

Throughout Berks and Bucks there will be a rush to sell as soon as it is learned that the disease has appeared in the Slough and Windsor districts. Some of the best seedling tubers in the world are grown in the two counties. At Reading there are seed grounds famous not only throughout Great Britain, but also in the colonies.

In North Devon the potato blight is causing considerable loss. On many farms more than half of the crop is affected, and in the districts where the soil is clayey it will not pay to harvest the few that are not diseased.

The Irish potato crop, however, is fulfilling all expectations, and promises to yield abundantly, except in a few districts where recent rains have injured it. The blight has also made its appearance in several districts, but in the majority of places the crop is now so matured as to be well able to resist the disease.

UNAVOIDABLE.

"Tommy, why is it that you are always fighting with little Willie Buskirk?"

"'Cause he can't run as fast as me, 'n' I can lick him."

Parents buy Mother Graves' Worm Exterminator because they know it is a safe medicine for their children and an effective expeller of worms.

Willie—"Ma, can people leave parts of themselves in different places?"

Ma—"No; don't be ridiculous."

Willie—"Well, Mr. Jiggs said he was going to the Tyrol for his lungs."

WEAK WATERY BLOOD causes much trouble. That tired feeling and many more symptoms follow in its wake. Try "Ferrovin." It is the best tonic to make you strong and well. All druggists sell it.

The reason folks can't take a love story for their guide is that it generally ends just before the trouble begins.

Cholera morbus, cramps and kindred complaints annually make their appearance at the same time as the hot weather, green fruit, cucumbers, melons, etc., and many persons are debarred from eating these tempting things, but they need not abstain if they have Dr. J. T. Kellogg's Dysentery Cordial and take a few drops in water. It cures the cramps and cholera in a remarkable manner and is sure to check every disturbance of the bowels.

HOW TO SIT AT WORK.

Sit quite back in your chair, the body loose above the waist, then the bending a little forward when writing is not injurious; for reading or needlework it is not necessary. This pose will soon be found far less fatiguing than the "bunching" up and stooping forward, and the improvement in shape and carriage of the figure will approximate the dignified bearing of our great-grandmothers, who were all trained to sit in this way. It is not for a moment suggested that one should ever "lounges," simply that a sitting position for any length of time should be on the foregoing lines.

THE CASTOR OIL PLANT.

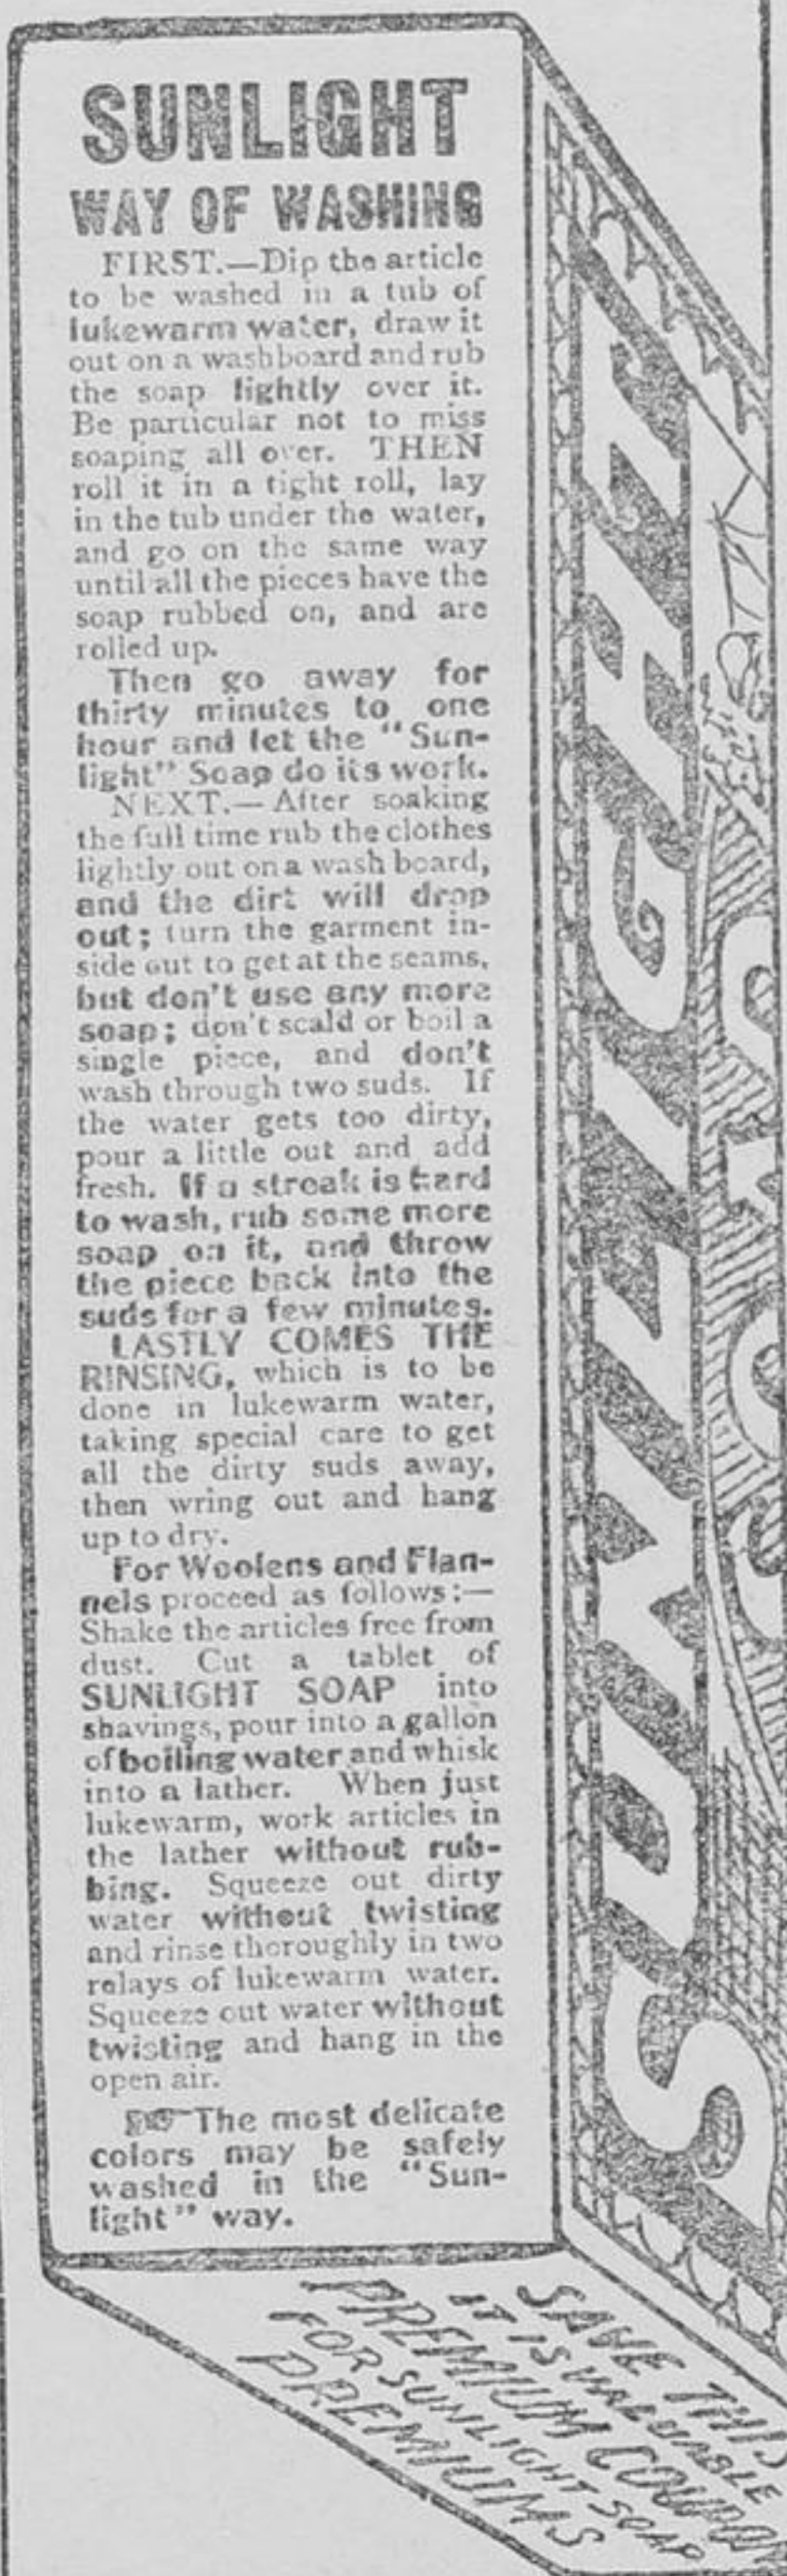

No bird, beast, or creeping thing will touch a castor oil plant. It seems to be rank poison to all animals. Even a goat will stave before biting off a leaf, and a horse will sniff at it and turn up his upper lip as though it had the most detestable odor on the face of the earth. Locusts will pass it by, though they may eat every other green thing in sight, and there is no surer way to drive moles away from a lawn than to plant a few castor beans here and there.

TO SECURE PROPER REST.

If only women could relax they would rest more in ten minutes than in hours of so-called resting with tense muscles. Often, after lying down for an hour, a woman will get up saying that she feels more tired than before. No wonder; her muscles were unrelaxed. Rest without relaxation is impossible. Let the bed, couch, or chair bear the whole weight of the body. Imagine that you have not the power to lift a limb. Loosen the tension both of mind and body, and in a short time you will feel renewed strength.

Something More Than a Purgative.—To purge is the only effect of many pills now on the market. Parmelee's Vegetable Pills are more than a purgative. They strengthen the stomach, where other pills weaken it. They cleanse the blood by regulating the liver and kidneys, and they stimulate where other pill compounds depress. Nothing of an injurious nature, used for purgative powers, enters into their composition.

Most of our time is spent in getting used to the things we didn't expect.

A man naturally shrinks from a ceremonious wedding. No man relished finding out how mere he is, and still less does he relish having it published to the world.

Where can I get some of Holloway's Corn Cure? I was entirely cured of my corns by this remedy and I wish some more of it for my friends. So writes Mr. J. W. Brown, Chicago.

"I manage to keep my boarders longer than you do," said the first landlady. "Oh, I don't know," rejoined the other. "You keep them so thin that they look longer than they really are."

SCALD HEAD is a disgusting and obstinate disease, frequent in children. Treatment: Perfect cleanliness and a generous application of Weaver's Cerate. Mothers will be glad to learn this.

Wife—"Was that man ever a farmer?" Husband—"No." Wife—"But he's always talking about the delights of living in the country." Husband—"Exactly. That's what shows he never was a farmer."

For the Overworked.—What are the causes of despondency and melancholy? A disordered liver is one cause and a prime one. A disordered liver means a disordered stomach, and a disordered stomach means disturbance of the nervous system. This brings the whole body into subjection and the victim feels sick all over. Parmelee's Vegetable Pills are a recognized remedy in this state and relief will follow their use.

A father going into his stable one day found his little son, with a slate and pencil in his hand, astride one of the horses. "Why, Harry," he exclaimed, "what are you doing?" "Writing a composition," was the reply. "Well, why don't you write it in the house?" asked the father. "Because," answered the little fellow, "the master told me to write a composition on a horse."

To Starve is a Fallacy.—The dictum to stop eating because you have indigestion has long since been exploded. Dr. Von Stan's Pineapple Tablets introduced a new era in the treatment of stomach troubles. It has proved that one may eat his fill of anything and everything he relishes, and one tablet taken after the meal will aid the stomach in doing its work. 60 in a box, 35 cents.—24

WOMEN FOOTPADS IN PARIS.

Do Not Limit Attention to Own Sex, But Rob Men.

A large number of female footpads, whose thefts are accompanied by violent assaults, have appeared recently in the police courts of Paris, France. These women do not confine their attentions to their own sex. Men also have been attacked and robbed.

Two audacious robberies were committed in the Boulevard Bineau the other night. One of the victims was a lady's maid named Jeanne Pellier, aged 22. Two young women stopped her and ordered her to turn out her pockets.

One of them dealt her a violent blow on the mouth, and then she was held down on the ground by both. Her watch and purse were taken, and she was left in a doorway after being kicked and otherwise roughly handled.

In the other case Juliette Brochard, a milliner, was also attacked by two women. Her cries for help, however, brought a number of police to the scene, and the girls' assailants, two women named Dupare and Lacorse, both aged 20, were arrested.

Death or Lunacy seemed the only alternative for a well-known and highly respected lady of Wingham, Ont., who had travelled over two continents in a vain search for a cure for nervous debility and dyspepsia. A friend recommended South American Nerve. One bottle helped, six bottles cured, and her own written testimony closes with these words: "It has saved my life."—20

"Now, let's see about this portrait you're to make of my wife," said Nuritch. "Water-colors rub out easy, don't they?" "Oh, yes," replied D'Auber; "it must be in oil." "Wait a minute. Just make the head and neck in oil and the dress in water-color. Then it'll be easy to bring it up to date every time the style changes."
