

**DEAFNESS NO HINDRANCE.**

Sixty-two Per Cent. of Railway Men Dull of Hearing.

Absolutely normal hearing on the part of railway servants is unnecessary timid travelers will be surprised to learn.

This is the conclusion of an English expert, the result of whose researches is given in the current number of the London Lancet. It is the more comforting, in view of the fact that in the opinion of the expert the demand for normal hearing could not be met, and that if the demand were complied with 62 per cent. of the workers he examined would have to be dismissed.

Still he makes some concession to the timorous. The "possible drawbacks" due to defective hearing ought easily to be counteracted by the use of optical signals. For example, the guard might be obliged when he whistles notifying departure to give a signal in daylight with his hand and after nightfall with a lantern.

An inheritance of weak lungs is a serious handicap, but Allen's Lung Balm taken at the first signs of a cough will ensure immunity from this dangerous defect. Don't trifle with unknown cure-alls.

They Cleanse the System Thoroughly. Parnelle's Vegetable Pills clear the stomach and bowels of bilious matter, cause the excretory vessels to throw off impurities from the blood into the bowels and expel the deleterious mass from the body. They do this without pain or inconvenience to the patient, who speedily realizes their good offices as soon as they begin to take effect. They have strong recommendations from all kinds of people.

A bachelor says that "ladies are like watches—pretty enough to look at; sweet faces and delicate hands; but somehow difficult to 'regulate' after they are set a-going."

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

Stop the Pain but Destroy the stomach—This is sadly too often the case. So many nauseous ostriches purporting to cure, in the end do the patient immensely more harm than good. Dr. Von Stan's Pineapple Tablets are a purely vegetable pepsin preparation, as harmless as milk. One after eating prevents any disorder of the digestive organs. 60 in a box, 35 cents.—40

**INNOCENT MAN IN PRISON.**

Receiver of Stolen Goods Makes Confession.

John Doyle, who described himself as a general dealer, was charged at Marylebone, London, on his own confession, with being concerned in the theft of a watch and chain in March last, for which another man is now undergoing a sentence of 18 months' imprisonment.

Doyle said that the theft was actually committed by a man named Grant, who has been convicted for the crime, and that he, Doyle, received the watch and sold it. Recently he learned that Grant had been convicted, and that another man, Richard Flynn, had also been convicted as an accessory, although he had nothing to do with the theft.

In his confession Doyle described the circumstances of the theft, and said that he had been traveling about the country, and had not heard of the conviction of Grant and Flynn until a few days ago.

Doyle was remanded, Mr. Plowden remarking that his confession was very creditable to him and ought to be taken into account at his trial.

**FROM TEXAS.**

Some Coffee From the Lone Star State.

From a beautiful farm down in Texas, where gushing springs unite to form babbling brooks that wind their sparkling way through flowery meads, comes a note of gratitude for delivery from the coffee habit.

"When my baby boy came to me five years ago, I began to drink Postum Food Coffee, having a feeling that it would be better for him and me than the old kind of drug-laden coffee. I was not disappointed in it, for it enabled me, a small delicate woman, to nurse a bouncing healthy baby 14 months.

"I have since continued the use of Postum, for I have grown fond of it, and have discovered to my joy that it has entirely relieved me of a bilious habit which used to prostrate me two or three times a year, causing much discomfort to my family and suffering to myself.

"My brother-in-law was cured of chronic constipation by leaving off the old kind of coffee and using Postum. He has become even more fond of it than he was of the old coffee.

"In fact the entire family, from the latest arrival, (a 2-year old who always calls for his 'potie' first thing in the morning) up to the head of the house, think there is no drink so good or so wholesome as Postum." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Well-Being," in pkgs.

**THE SUNLIGHT WAY**

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way (follow directions).

Hard rubbing and boiling are things of the past in homes where Sunlight Soap is used as directed.

Sunlight Soap will not injure even the delicate fabric or the hands, and the clothes will be perfectly white, woolens soft and fluffy.

The reason for this is because Sunlight Soap is absolutely pure, contains no injurious chemicals—indeed, nothing but the active, cleansing, dirt-removing properties of soap that is nothing but soap.

Equally good with hard or soft water.

YOUR MONEY REFUNDED by the dealer from whom you buy Sunlight Soap if you find any cause for complaint. LEVER BROTHERS LIMITED, TORONTO

**ATTACKED IN PADDED ROOM.**

Looking through a peep-hole into the padded room at Westminster Workhouse, England, and failing to see a lunatic who has been placed there, an attendant named Lewis entered, and was immediately seized by the madman, who had been crouching below the peep-hole. Lewis was caught by the legs, lifted up, and thrown down with great force. A fierce struggle ensued, and the attendant had the greater part of his clothes torn from his body. As a consequence of the incident, the guardians decided to obtain tenders for lighting the room by electricity.

**DODD'S KIDNEY PILLS CURED MRS. JAMES KINSELLA.**

She Sends a Message of Hope to Other Suffering Women in Canada.

St. Malachie, Que., Nov. 13.—(Special)—To those women who suffer in silence—and there are thousands in Canada—Mrs. James Kinsella of this place sends a message that tells of a cure as silent as their suffering. As the result of her own experience, Mrs. Kinsella says, "Take Dodd's Kidney Pills."

"When I sent for Dodd's Kidney Pills," Mrs. Kinsella says in relating that experience, "I had a pain in my right hip and in the small of the back. I was swollen all down the right side of the abdomen and had to pass water every fifteen minutes in a burning, itching, sort of way. I could not sleep at nights and was obliged to sit in a chair for two summers!"

"After taking the first box of Dodd's Kidney Pills I felt much better so I got more. They have done me a world of good and I have never slept in a chair since."

**RELIEVING THE BRAIN.**

The persistent use of the muscular system is well calculated to relieve the brain and nervous system of the tension. It is also true that manual work pleases and satisfies the mind when its results are good. All this becomes clearer when we realize how vainly we may seek relief from nervous fatigue in physical rest or even in recreations of the ordinary sort. The quiet room or the quiet hillside, so suggestive of rest and peace, these are too often impotent in the presence of carking care. One reason for this failure is that the brain and the body are commonly not tired in what is called nervous exhaustion, but are only irritated, while the sense of fatigue which is so misleading is merely the result of that irritation and may be termed a psychic fatigue. Under these circumstances it is easy to understand that it is change, not necessarily physical rest, which is so sorely needed.

**MEN GROWING SMALLER.**

Striking evidence of the physical deterioration of the race has been supplied by a large quantity of human bones discovered in an ancient charnel house at Dover, England. Dr. F. G. Parsons, F.R.C.S., who examined the bones, states that they represented 500 bodies, and were more than four hundred years old. He had never seen a large collection of skulls with such perfect teeth. The bones were those of a sturdy race of people, with an average height greater than that of the persons buried in the London plague pits which he had examined.

They Advertise Themselves.—Immediately they were offered to the Parnelle's Vegetable Pills became popular because of the good reputation made for themselves. That reputation has grown, and they now rank among the first medicines for use in attacks of dyspepsia and biliousness, complaints of the liver and kidneys, rheumatism, fever and ague, and the innumerable complications to which these ailments give rise.

"Oh, just down to the store for a bottle of Dr. Thomas' Electric Oil," and Mrs. Surface, who hates puns, walked on. But she remembered, and when she contracted a week back there was another customer for Electric Oil.

**KILLED THE PARROT.**

Enraged Elephant Charged a Restaurant After a Boy.

To take part in the performance at the Lisbon (Portugal) circus three elephants arrived from France at the railway station recently, but the journey had upset their tempers, and they became troublesome after they left the train. There was a large crowd waiting to see the huge beasts pass, and the usual collection of small boys surrounded the animals. Suddenly one of the leading elephants rushed at one of the boys, who fled screaming into a restaurant. The angry animal followed, and caused much alarm among the customers who were at lunch. Tables were overturned and dishes and plates smashed, while the customers jumped over the counter and made hasty barricades of chairs.

The only victim was a parrot, whose terrified screams so exasperated the elephant that he encircled it with his trunk and silenced it forever. After much persuasion on the part of its keepers the elephant returned to the street, and with its companions was safely put in custody at the circus.

It is so very puzzling; there are so many sorts." "Well, Mr. Sweet, one, you know, don't like to make a choice in these matters—a little delicate, you understand; but, really, if you insist upon it—why, I should like an engagement ring!" was the innocent reply.
