FOR THE BOYS AND GIRLS Pharos and the Circle of Young Canada are household words among the boys, girls and young people in thousands of homes throughout Canada and the British Empire. School teachers and parents are also constant readers of the Book Club chats, nature notes, items of interest to boys, and countless letters written by the members of the Circle. The information given is interesting, while the efforts of the young correspondents in preparing their letters are helpful and inspiring.

This page of The Weekly Globe and Canada Farmer is not only entertaining, but highly beneficial, to its readers. It broadens their outlook, widens their sympathies and increases their knowledge. To get the young people in our homes to identify themselves with an effort of this kind proves a strong incentive in promoting their education and in developing their characters.
