

## WAS SENT HOME AS INCURABLE

THEN JOS. BOONE FOUND HEALTH IN DODD'S KIDNEY PILLS.

He was Unable to Work for Seven Years Before He Used the Great Canadian Kidney Remedy.

Cottel's Cove, Nfld., Dec. 11.—(Special).—The days of miracles are past, but the cure of Joseph Boone of this place almost ranks with sensational cures of the earlier ages. Mr. Boone had been ailing for eight years, seven of which he was unable to work from the effects of Backache and Kidney Complaint. He was all aches and pains.

He was treated by several doctors, and after seven months in the hospital was sent home as incurable. It was there that reading of cures in the newspapers led him to use Dodd's Kidney Pills. It took twenty-one boxes to cure him, but to-day he is strong and well and hard at work lobster fishing.

People here have learned that if the disease is of the Kidneys or from the Kidneys, Dodd's Kidney Pills will cure it.

## WONDROUS LAKES.

One Blows Mud Bubbles. Another Has Water Like Milk.

The "Home of the Hot Devils" is an island of fire situated in the centre of a huge lake of boiling mud and slimy in Java. Gases arise from the lower depths and form enormous bubbles in the sticky mud, which grow and increase until they attain a diameter of five or six feet. These bubbles are often carried skywards by the wind, where they finally burst with a loud explosion.

The biggest snow lake was seen by Sir Martin Conway, who explored the Karakoram range of mountains in 1892. From the summit of Hispar Pass, which he traversed for the first time on record, he looked upon a vast level lake of snow, over 300 square miles in area, surrounded by innumerable giant peaks.

The Sea of Ice, near Chamouni, in Savoy, Switzerland, is more like a lake of snow than anything else. The surface of the ice is broken up by solar heat, and this minute fissuring gives it the appearance of snow, and it is often mistaken for such by tourists.

The finest milk-white lake in the world was discovered by Herr Thoroddson in Iceland, who christened it the Langisjor. It stretches from the margin of the mighty glacier which forms the western side of the Vatria Jokull, and the glacier water of which it is composed is of a pure milky-white color.

A similar lake, but on a smaller scale, is situated about thirty miles from Tauranga, in New Zealand.

## FOR FAMILY AFFECTION.

The town of Chantilly, France, which is generally associated with charity. Mme. Mortier des Noyes gave to the town in 1878 600 francs, and decreed that the dividends from this sum when invested should be applied as a reward for filial piety. The conditions are that candidates must be Frenchwomen, maids or widows, either born or domiciled for five years in the town. The prize is awarded for high character, and for love, favor, and affection shown in the family. This year's prize has been given to Mlle. Kaufmann, a seamstress, who for twenty years has made the wants of her infirm mother her first care.

## A BRAIN WORKER.

Must Have the Kind of Food That Nourishes Brain.

"I am a literary man whose nervous energy is a great part of my stock in trade, and ordinarily I have little patience with breakfast foods and the extravagant claims made of them. But I cannot withhold my acknowledgment of the debt that I owe to Grape-Nuts food. "I discovered long ago that the very bulkiness of the ordinary diet was not calculated to give one a clear head, the power of sustained, accurate thinking. I always felt heavy and sluggish in mind as well as body after eating the ordinary meal, which diverted the blood from the brain to the digestive apparatus. "I tried foods easy of digestion, but found them usually deficient in nutriment. I experimented with many breakfast foods and they, too, proved unsatisfactory, till I reached Grape-Nuts. And then the problem was solved. "Grape-Nuts agreed with me perfectly from the beginning, satisfying my hunger and supplying the nutriment that so many other prepared foods lack. "I had not been using it very long before I found that I was turning out an unusual quantity and quality of work. Continued use has demonstrated to my entire satisfaction that Grape-Nuts food contains all the elements needed by the brain and nervous system of the hard working public writer." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in packages.

## OLD HOBBY HORSE AGAIN.

Cyclope of One Hundred years Ago to be Renewed.

The latest fashion in cycling is a "cyclopede" for ladies, says the London Daily Mirror. This takes us back to the days of the Regency, when the "first gentleman of Europe" blandly squandered millions at Brighton, and his friends amused themselves by "hobby-horsing" along the front.

The "cyclopede," indeed, is exactly the old "hobby-horse" with improvements. True, it is fitted with pneumatic tires, springs and ball-bearings and is a feather-weight compared with the hideous combination of wood and iron which our great grandfathers disported. But the main "hobby-horse" features are retained.

There are no pedals, the machine being propelled either by thrusting the feet against the ground, or by "punt-poling" with a walking stick or alpenstock. The seat is very low, so that the most clumsy rider can hardly fall off, and of course, barely any instruction is required. You can get up quite a fair speed on the machine—ten miles an hour being about the limit.

But who, it may be asked, would care to use a cyclopede when ordinary bicycles are faster and less trouble? One idea is that the new machine will give more vigorous and healthy exercise than the ordinary bicycle affords. Another is that elderly ladies may be attracted by its absolute safety. Besides, the price—four guineas—is very low.

The first lady's machine has been built to the order of a distinguished customer, and in a generation which worships health and is always looking for some new form of exercise it has a chance of becoming quite a rage. The chief obstacle is ridicule. Ladies have the art of looking graceful under most unpromising circumstances, but ten miles an hour on a cyclopede will be rather a severe test of this faculty.

Sure Regulators.—Mantrake and Dandelion are known to exert a powerful influence on the liver and kidneys, restoring them to healthful action, inducing a regular flow of the secretions and power to perform their functions. These valuable ingredients enter into the composition of Parmelee's Vegetable Pills and serve to render them the agreeable and salutary medicine they are. There are few pills so effective as they in their action.

Miss Prism—"Don't let your dog bite me, little boy." Little Boy—"He won't bite, ma'am." Miss Prism—"But he is showing his teeth." Boy (with pride)—"Certainly he is, ma'am; and if you had as good teeth as he has you'd show 'em too."

One Short Puff Clears the Head.—Does your head ache? Have you pains over your eyes? Is the breath offensive? These are certain symptoms of Catarrh. Dr. Agnew's Catarrhal Powder will cure most stubborn cases in a marvelously short time. If you've had Catarrh a week it's a sure cure. If it's of fifty years' standing it's just as effective. 50 cents.—57

"The discord was something fierce," said Borem, in speaking of an amateur concert. "Why, the music was so loud that I actually could not hear myself talk." "How delightful!" exclaimed Miss Cutting.

It is Good for Man and Beast.—Not only is Dr. Thomas' Electric Oil of incomparable value in the household, but the farmer and stockman will find it very serviceable in the farm yard and on the cattle range, often saving the services of a veterinary surgeon. In injuries to stock and in cases of colds and pains it can be used with good effect.

## HEALTH HINTS.

Get plenty of sunlight. Nothing beautiful or sweet grows or ripens in the darkness.

Avoid excesses of all kinds. They injure the mind and body.

The long and beautiful and wholesome life is qualified by constant temperance.

Don't live to eat. Eat to live. This is old and threadbare advice. But it is just as good to follow today as it was a century ago.

Many physical ills and blurs and blemishes on the countenance are due to over-eating, to eating damaging food, or eating irregularly.

Don't hunt for dark sides of your life. Remain on the sunny side wherever you can do so without neglecting those who are dear to you.

Be as happy as you can while making others happy.

These simple rules are helps in perpetuating health and beauty.

## THE WIFE AS MANAGER.

"You can rely upon it," said a keen business man, that the man whose wife is managing his salary for him is prosperous. When I see a man that I happen to know hand all his earnings over to his wife, I set him down as getting along well. He has started on the right road to get rich, for in nine cases out of ten he is saving something. And a fact which he is apt to overlook is that if he only spends a little less than he makes, he is bound to get rich. A woman who manages her husband's salary will help him to do this nearly every time, as women are meaner than men. Some men find it impossible to save money, and a man has got to spend less than he makes before he can begin to get along. The man whose wife is enough of a manager to help him get to this point by taking care of his money for him may consider himself fortunate."

A debt of gratitude is generally the hardest kind to collect.

## MORNING TALE.

Bobby—"Mother, tell me a fairy story." Mother—"I can't. Go ask your father what detained him downtown so late last night; that will be one."

Hard and soft corns cannot withstand Holloway's Corn Cure; it is effective every time. Get a bottle at once and be happy.

Hicks—"My wife is very methodical. She's always got a place for everything and everything in its place." Wicks—"So has mine, but I can never find the place."

Where Doctors do Agree!—Physicians no longer consider it catering to "quackery" in recommending in practice so meritorious a remedy for indigestion, Dyspepsia and Nervousness as South American Nervine. They realize that it is a step in advance in medical science and a sure and permanent cure for diseases of the stomach. It will cure you.—60

The aggressive man who always wants to take things into his own hands is never satisfied unless he is taking the things that don't belong to him.

Husband (newly married)—"Don't you think, love, if I were to smoke, it would spoil the curtains?" Wife—"Ah! you are really the most unselfish and thoughtful husband to be found anywhere—certainly it would." Husband—"Well, then, take the curtains down."

Success In Life is dependent upon good health. You are out of sorts, ill or feeble, take "Ferrovin." It's the best tonic. \$1 bottles. All medicine dealers.

## SNAPPISH.

"You men complain at every little pain," she was saying, "but we women, we suffer in silence." "I suppose you do suffer in silence, you take so much pleasure in talk," he replied.

Bed-ridden 15 Years.—"If anybody wants a written guarantee from me personally as to my wonderful cure from rheumatism by South American Rheumatic Cure I will be the gladdest woman in the world to give it," says Mrs. John Beaumont, of Elora. "I had despaired of recovery up to the time of taking this wonderful remedy. It cured completely."—58

Gratified Hostess—"So glad you like my tarts; I always think that small cakes taste better than large ones. It is the size that makes these little tarts seem so appetizing." Horrified Epicure—"Good gracious! You don't say you put size into them?"

They Wake the Torpid Energies.—Machinery not properly supervised and left to run itself, very soon shows fault in its working. It is the same with the digestive organs. Unregulated from time to time they are likely to become torpid and throw the whole system out of gear. Parmelee's Vegetable Pills were made to meet such cases. They restore to the full the flagging faculties, and bring into order all parts of the mechanism.

Mrs. McDuff—"This paper says that mice are attracted by music; but I don't believe it." McDuff—"Why not?" Mrs. McDuff—"Because I never see any mice around when I play the piano." McDuff—"Well, that's no excuse for doubting the paper's statement."

Avoiding Winter colds is difficult; curing them is not hard if you take Allen's Lung Balm. Begin when the cold is young and not wait until it settles on the lungs, for then, even with Allen's Lung Balm, complete relief will be slower.

## \$10,000 A YEAR FOR ONE ROOM.

The widening of Piccadilly, London, has been the means of showing the enormous value of land in the centre of London, the sum paid by the London County Council for a small area, which, of course, was built upon, working out at £34 a square foot. This is believed to be the record, but as it included compensation for disturbance it cannot be compared with the prices paid in Cornhill, which is the highest-tenanted spot on earth, a single room having been let recently for \$10,000 a year.
