BUT DODD'S KIDNEY PILLS MADE HIM A NEW MAN.

Richard Quirk Doctored for a Dozen Years and Thought His Case Incurable-Dodd's Kidney Pills Cured Him.

Fortune Harbor, Nfld., Jan. 1 .-(Special) .- Scores of people in this neighborhood are living proofs that Dodd's Kidney Pills cure all Kidney ailments from Backache to Bright's Disease. Among the most remark able cures is that of Mr. Richard Quirk, and he gives the story of it to the public as follows:

"I suffered for over twenty years from Lumbago and Kidney Disease, and at intervals was totally unable to work. After ten or twelve years of doctor's treatment, I had made up my mind that my complaint was incurable. Reading of cures by Dodd's Kidney Pills tempted me to try them. I did so with little faith, but to my great surprise I had not taken more than half a box before I felt relief, and after the use of seven or eight boxes, I was fully cured and a new man.

"Yes, Doda's Kidney Pills cured my Lumbago and Kidney Disease, and the best of it is I have stayed cured."

"Doctor, I want to thank you for your valuable medicine." "It helped you, did It?" asked the doctor, very much pleased. many bottles did you find it necessary lo take?" "Oh, I didn't take any of it. sole heir."

PATHETIC LITTLE DOLLS.

Some of the Indian women have a very pathetic custom. When an Indian girl dies her mother often substitutes a doll for the lost little one. She fills the empty cradle with feathers arranged in the form of a child, and carries this about as she did her child, crooning to it and caressing it. Sometimes, instead of doing this, she ties the clothes, toys, and other articles belonging to the little one and, fastening them to the cradle board, carries it as she originally did her child. The Ojibways call these "unlucky dolls," because they represent the dead; but the Indian woman's idea is that the little dead child is too small to find its way to Paradise, and that by substituting the doll she will assist it to get there.
