### TOOT! TOOT!

The engine on the James Bay Railway has been doing considerable puffing during the week. The iron horse reached the Richmond Hill station grounds on Monday. The rails are now laid from Beaverton to this place, and should fine weather favor the workmen they will not be long in making their way to Toronto.

### AN OMISSION

We have been asked to say that by an oversight the \$3 contribution donated by Mr. J. D. Piercey, carriage builder, Teston, was omitted in the list of contributors on the plowing match bills of the King & Vaughan Plowmen's Association. The above prize was won by Mr. James McLean, the champion plowman.

### FIRE BRIGADE.

At a meeting held by the members of the R. H. F. B. on Monday evening the following officers were elected for the ensuing year: Chief, W. H. Pugrley; Lieutenant, Geo. Sims; Foreman of Hose, Fred Grainger; Foreman of Hook and Ladder, Thos. Trench; Treasurer, P. G. Savage; Secretary, D. Sloan; Steward, Chas. Hopper; Auditors, Firemen Innes and Brydon.

A very pretty wedding was celebrated at the Newton Brook parsonage when Miss Lettie Clark was united in marriage to Mr. Henry Little. The happy couple were supported by his brother, Mr. Samuel Little, and her sister, Miss Edna Clark. The nuptial knot was tied by Rev. A. P. Brace, B.D. They took the train to points in Western Ontario and Michigan. The happy pair are beginning life under the most favorable auspices, and we wish them all the good things possible for them.

We are pleased to observe by the Daily Standard that Mr. Alfred D. Wright, a former Richmond Hill boy, was not only elected an alderman for the city of Regina, but that he headed the poll on election day.

### TESTON

Mr. J. Piercey, carriage builder at Teston, is advertising a number of new and second-hand catters at right prices. Also new and second-hand buggies, factory and home-made. All kinds of plow repairs kept on hand. Mr. Piercey guarantees all work done at his shop.

### ANNUAL BANQUET

The annual banquet of King and Vaughan Plowmen's Association will be held at the Metropolitan Hotel, King City, on Thursday evening, February 8. Supper at 6.30. This will be followed by a good programme of speeches, songs and instrumental music.

### RINGING DOOR BELLS

Complaint has been made that a number of our citizens have been bothered by individuals ringing the door bells and then walking or running away. A neighbor a few nights ago, after he had retired to bed, came downstairs in answer to the door bell only to find that the ringing was meant for a joke. That would have been a poor excuse for a joke, even had it been on Hallowe'en. It is to be hoped it will not be repeated.

### LIKE OLD TIMES

Mr. Isaac Kellam of Highfield disposed of last year's crop of alsike last week. The purchaser was Mr. H. C. Bailey of Maple, and it required three teams to bring it over. We understand that Mr. Kellam received nearly \$900 for the lot. Mr. Bailey has shipped several carloads of alsike and red clover from Maple this season, buying most of the seed just as it leaves the threshing machine. So far he has been able in most instances to pay more than Toronto prices for seed. Farmers having seed to dispose of will find it to their interest to communicate with him before selling.

### MRS. KINNEE'S DEATH

We have to record this week the death of Mrs. Robert Kinnee, in her 56th year. Deceased had been a sufferer for the past thirteen years, much of the time confined to her bed. She was considerably better this winter, however, but an attack of pneumonia was more than her almost worn-out constitution could bear, and she passed away Sunday morning. The funeral took place at Maple cemetery yesterday afternoon, previous to which a service was conducted at the house by Rev. T. Campbell. The relatives, especially the husband and daughter who tenderly waited on the deceased during her long illness, have the sympathy of many friends in their bereavement.

### GORMLEY

Mr. Geo. Collard, an old and respected resident of this neighborhood, passed away at the home of his son in Stouffville. Mr. Collard had been ailing for some time, and a short time ago he made a sale of farm stock and implements and moved to Stouffville, having rented his farm to Mr. Schell. After his removal he became rapidly worse and in a little over a week he passed away. Mr. Collard was a genial, friendly man, popular with his neighbors and friends—a man of sterling character. His funeral took place on Tuesday of last week to the Tunkard cemetery at Gormley. Rev. Mr. Barber, Presbyterian minister, conducted a short service at the house, and service at the church was conducted by Rev. F. Elliott, an old friend of deceased's, before a large congregation of neighbors and friends.

### TEMPERANCE MEETING

The Temperance Hall was comfortably filled Sunday afternoon when a Gospel Temperance meeting was held under the auspices of the W. C. T. U. Mr. Isaac Crosby occupied the chair, a solo was sung by Miss Ethel Switzer, and Mr. Wm. Munns of Toronto gave an address. The speaker in referring to the Local Option campaign said it was a campaign in favor of peace, pleasure and happiness in the homes. He said that tailors, shoemakers, carriage-makers and other tradesmen were generally proud to exhibit their finished work, but it was different with the saloon-keepers, as much of the latter's finished work was found in the jails, penitentiaries, and behind prison bars. The drink bill in Canada amounts to \$40,000,000 a year, and in Great Britain more money is spent in strong drink than is expended in boots and shoes, woollens, cottons and all lines of clothing. Mr. Munns did not think that much benefit would have resulted had 30 or 40 licenses been cut off in Toronto on the 1st of January, but he believed that Local Option could be carried in that city if the temperance party were properly organized. He referred to his treatment in Aurora a short time ago when he offered himself as a tem-

perance candidate in North York, and complained that the very men who led the mob against him were from the class who years before had given him his first lessons in truth and righteousness. He recommended total abstinence and believed that Local Option would be carried here a few weeks hence. At the close the speaker received a vote of thanks, on motion of Rev. T. Campbell, seconded by Mr. J. H. Sanderson.

### THE HERBAGEUM THEORY

Some twenty years ago a certain man had a theory that the sweet, fragrant pastures of early summer could be so nearly reproduced by proper blending of pure spices of an aromatic nature as to assure to farm stock throughout the whole year that thorough assimilation of their foods which they enjoy while living on the buds, blossoms and tender grasses of a perfect June pasture. He knew that if his theory was a true theory, it meant freedom from disease, a rapid, healthy growth and great economy in the production of all animal products. He also knew that unless true economy could be assured to the feeder the venture could not possibly prove a permanent success financially.

The Herbageum proved to be a true theory, and the product was put on the market in such shape and at such a price as to give the feeder the best end of the profit. All this took place twenty years ago, and since that time there has been a steady increase in the demand for Herbageum. There have come numerous preparations of concentrated and so-called condimental stock foods, but Herbageum only has proven permanent. This is largely because in feeding Herbageum the feeder has the greatest margin of profit. For instance, 50 cents' worth of Herbageum will make one and one-quarter tons of skim milk, equal to new milk, for calves. Certainly there is substantial margin of profit there, and the fact has been proven beyond all doubt.

If fed regularly to young pigs from the first, they will be mature bacon hogs at five months instead of at seven months, and the Herbageum-fed hog always grades "firm."

It will keep milch cows right up to their highest standard of production, and at the same time keep them up in flesh, and with a coat like that which a June pasture gives. "The Herbageum Theory" excludes all injurious drugs and dopes that act directly on the system; the idea being simply to produce a substitute for those aromatic qualities that pass from the green food in the ripening and drying process.

Horses thrive when they have Herbageum added to their daily ration of dry winter feed, and there is no after ill effect from its use. The Herbageum theory is a true theory, and its truth is never questioned by those who have tested it in every-day practical feeding.
