

LOCAL OPTION

Editor LIBERAL:

Referring to the vote about to be taken under the Local Option by-law, there are some aspects of the proposal which in the public interest should receive full consideration on the part of the ratepayers. Fortunately no question arises in our case regarding either an excessive number of licenses or improper conduct on the part of the license-holders. We have but one licensed house which is admittedly carried on as a bona fide hotel in a careful and strictly legal way. On this ground no reason can be found for removing the license except on general liquor principles.

A matter of great importance to the community is now under consideration in the shape of a proposal to erect a grain elevator. If it is carried out it will necessarily bring many farmers and buyers into our district who must have reasonable hotel facilities. These are withdrawn, as will certainly occur should the license be cancelled, this proposal will fall to the ground and the village will suffer. Farmers are tired of teaching down to Toronto, where they cannot get a commutation for their rigs and horses, and are prepared to come to our district instead. This opportunity should not be lost, as it will be if this by-law passes.

Now, again, by the closing of the hotel the ratepayers will not only lose the proportion of the license fee coming to the local authorities, but also part of the assessment on the present valuation of \$6,000.

This is a serious matter for the village, and I would respectfully ask our liquid friends how they intend to make it up to the community. Were it a question between drunkenness and disorder and pecuniary benefit I should be quite prepared to admit the validity of the arguments, but there is no element of this kind—nothing indeed but an attempt to interfere with the satisfaction of a reasonable and moderate demand. Of course it is of no use attempting to argue with extreme fanatics on this issue, but to the more moderate temperance supporters an appeal can well be made on public grounds. To those who have the future of our village at heart I put the question of whether for the sake of being known as a Local Option district it is worth while sacrificing important sources of revenue and increasing the taxes of the community, not to speak of missing the opening afforded to become a grain centre for this part of the county. I trust the ratepayers will look at the matter in a reasonable and dispassionate way and decide on prudent and sensible lines.

I appreciate your decision, sir, to open up your columns to the discussion of this question, and would like to know how our extreme temperance friends intend to supply the place of our one hotel if they close this down.

Poultry raising pays. People who tell you that there is no money in raising chicks may have tried to make money in the business by using setting hens as hatchers, and they might as well have tried to locate a gold mine in the cabbage patch. The business of a hen is—to lay eggs. As a hatcher and brooder she is out-classed. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully.

The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested.

Thousands of poultry-raisers—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the

CHATHAM INCUBATOR AND BROODER.

"Yours is the first incubator I have used, and I wish to state I had 52 chicks out of 52 eggs. This was my first lot; truly a 100 per cent. hatch. I am well pleased with my incubator and brooder. THOS. McNAUGHTON, Chilliwack, B.C."

"My first hatch came off. I got 170 fine chicks from 350 eggs. Who can beat that for the first trial, and so early in the spring. I am well pleased with incubator, and if I could not get another money could not buy it from me. Every farmer should have a No. 3 Chatham Incubator.—F. W. RAMSAY, Danville, Ont."

"The incubator you furnished me works exceedingly well. It is easily operated, and only needs about 15 minutes attention every day." R. McGUIFFE, MOOSE JAW, Assa.

The Chatham Incubator and Brooder is honestly constructed. There is no humbug about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship the best.

The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments.

Then why do you cough all day? White Pine and Tar will relieve you the first day. It will stop that cough in a few days more.

We know all about it because we have sold it for years, and we know just what is in it. It is not a cure-all; it's just a Cough Cure, and a good one at that. It's made to cure. That is why we sell so much of it. It's not a patent medicine either. We keep patent medicines, but we do not recommend them. We do recommend White Pine and Tar, and we believe in it so much that we say
