

BLOOD-STAINED THRONE.

Great Popular Upheaval May Sweep It Away.

Are the days of Peter I. of Serbia as King of that country numbered? It is believed so in Austria, and the fact explains the attitude of the Imperial Government to the proposed tariff union between Serbia and Bulgaria.

The Austrian authorities have learned that the days of Peter I. as King of Serbia are not to be long. The Karageorgievich dynasty's day in Serbia is gone, and before another year is over the King and his family will be driven out.

It is well known in Serbia that it is owing to the dynasty alone that Serbia has lost position and influence all over Europe. In the courts of Europe the opinion prevails that Peter I. knew of the plan for the murder of King Alexander, if he was not himself actually its instigator. All the courts of Europe have refused to receive a visit from King Peter or to have any direct dealings with him. Serbia is thus, so to speak, blotted out from among the States of Europe.

The King, moreover, and in a greater measure, the Crown Prince, his son, have made themselves remarkably unpopular all over the country.

Serbia, according to information received by the Austrian Government, is for these reasons advancing in the direction of a new revolution. There is already formed a strong party, whose desire it is to see a German prince on the throne of Serbia. This party has its eyes on Prince Francis Joseph of Battenberg, who was married in May, 1897, to a Montenegrin princess, but has no children.

The difficulties of the Serbian Government in obtaining money have become so acute that a crisis may be expected any moment.

The regicides, knowing the extreme danger, are running things with a high hand, and King Peter is little more than a prisoner in his own palace.

THE POSTMASTER TELLS HIS SECRET

HIS HEALTH MAINLY DUE TO THE USE OF DODD'S KIDNEY PILLS.

Postmaster Lee Looks Ten Years Younger Than His Seventy-Six Years and He Gives the Credit to the Great Canadian Kidney Remedy.

Tabucintac, Cumberland Co., N. B., Feby. 19—(Special).—Horatio J. Lee, postmaster here, is now in his seventy-sixth year, but so bright and healthy does he look and so energetic is he in his movements that he would easily pass for ten years younger.

"How do I keep young looking," the postmaster says. "Well I attribute it largely to my good health and my health is mainly due to the use of Dodd's Kidney Pills.

"I first learned the value of this Kidney Remedy some years ago. I was then suffering from Kidney Disease. My feet and legs swelled and I had to rise eight or ten times in the night because of urinary troubles. Six boxes of Dodd's Kidney Pills restored my health at that time and I have used them at intervals since.

"To anyone afflicted with Kidney Trouble I say 'Dodd's Kidney Pills are all right.' Try them and you will be sure to find a benefit."

LOVERS DIE TOGETHER.

A sad love tragedy was enacted the other day at the Village of Dasio, in the Canton of Tessin, Switzerland. The belle of the village, a girl of 18, had been secretly engaged to a farmer, but her father refused his consent to the marriage. Finding that entreaties had no effect, the young couple decided to commit suicide. The farmer bought a revolver, and during a walk through the woods he fired four shots at his sweetheart, killing her on the spot. He then carried the body to the cemetery, a mile off, placed it on a grave, and shot himself through the heart. The bodies were discovered by a grave-digger.

BOASTERS.

For boasters the world has no use; but it is always on the lookout for men who do things. Solomon said: "Let another man praise thee, and not thine own lips." The world says to-day: We have no time to listen to what you are going to do; let us see something you have done, or are doing.

BETTER PLAN.

Mamie kissed me—such a smack But I did not kiss her back; On my part are no such slips—So instead I kissed her lips.

It Cures all Creeds.—Here are a few names of clergymen of different creeds who are firm believers in Dr. Agnew's Catarrhal Powder to "live up to the preaching" in all it claims. Bishop Sweatman, Rev. Dr. Langtry (Episcopalian); Rev. Dr. Withrow and Rev. Dr. Chambers (Methodist); and Dr. Newman, all of Toronto, Canada. Copies of their personal letters for the asking, 50 cents.—105

Schoolmaster—"Now, Rogers, what are you doing? Learning something?" Rogers—"No, sir; I'm listening to you, sir."

"The D & L" Menthol Plasters are marvels in their quick action when applied to lame backs or stiff rheumatic muscles or joints. They give immediate relief.

The average woman is willing to patch up a quarrel with her neighbor because of the pleasure it affords her to rip the patch off again.

They are Carefully Prepared.—Pills which dissipate themselves in the stomach cannot be expected to have much effect upon the intestines, and to overcome costiveness the medicine administered must influence the action of these canals. Parmelee's Vegetable Pills are so made, under the supervision of experts, that the substance in them intended to operate on the intestines is retarded in action until they pass through the stomach to the bowels.

The girl who screams when her young man tries to kiss her usually cries if he doesn't.

Dropsy and Heart Disease.—"For ten years I suffered greatly from Heart Disease. Fluttering of the Heart and Smothering Spells made my life a torment. Dropsy set in. My physician told me to prepare for the worst. I tried Dr. Agnew's Cure for the heart. One dose gave relief, one bottle cured me completely."—Mrs. James Adams, Syracuse, N.Y.—107

MAN LOVES MEDICINE.

Some Remarks of Dr. Osler Arent His Profession.

Dr. William Osler writes:—"Man has an inborn craving for medicine. Heroic dosing for several generations has given the tissues a thirst for drugs. As I once before remarked, the desire to take medicine is one feature which distinguishes man, the animal, from his fellow creatures. It is really one of the most serious difficulties with which we have to contend. Even in minor ailments, which would yield to dieting or to simple home remedies, the doctor's visit is not thought to be complete without the prescription."

Of the cultured physician he says:—"In no profession does culture count for so much as in medicine, and no man needs it more than the general practitioner, working among all sorts and conditions of men, many of whom are influenced quite as much by his general ability, which they can appreciate, as by his learning, of which they have no measure."

Dr. Osler advises physicians to "walk with the young."—"I would urge the clinical physician, as he travels farther from the east, to look well to his companions—to see that they are of his own age and generation. He must walk with the 'boys,' he must travel with the men who are doing the work of the world, the men between the ages of 25 and 40."

"Woman's crowning glory is her hair," he quoted. "Not now," returned his pessimistic friend. "What do you mean?" he demanded. "In many cases now woman's crowning glory is some other woman's hair."

Farmers Wanted as Land Agents.

Farmers wanted all over Canada as agents for Western Canada lands; all selected lands; liberal commission. Address "Farm Lands," P. O. Box 528, Winnipeg, Man.

"My goodness!" exclaimed an anxious mother, "what in the world made your face so dirty, Willie?" "Johnny Jones and me had a fight," explained Willie, "an' he throwed more dirt in my face than I could swallow."

A Small Pill, but Powerful.—They that judge of the powers of a pill by its size, would consider Parmelee's Vegetable Pills to be lacking. It is a little wonder among pills. What it lacks in size it makes up in potency. The remedies which it carries are put up in these small doses, because they are so powerful that only small doses are required. The full strength of the extracts is secured in this form and do their work thoroughly.

Old Fossil—"I suppose you get any amount of silly questions asked during the day?" Porter—"Yes, sir, any amount; yours is the twenty-third I've had asked me to-day."

Nurse's Good Words.—"I am a professional nurse," writes Mrs. Eisner, Halifax, N.S. "I was a great sufferer from rheumatism—almost constant association with best physicians I had every chance of a cure if it were in their power—but they failed. South American Rheumatic Cure was recommended—to-day my six years of pain seem as a dream. Two bottles cured me.—106

A MIGHTY RAILWAY.

The average income of the Canadian Pacific Railway per week is \$1,250,000. Out of this sum they have to pay salaries to 30,000, which amounts up in a year to \$25,000,000. The president of the company has a salary of \$50,000 a year. The coal bill for a year is \$5,000,000, for two and a half million tons of coal. The number of cars possessed by the railway is 45,000; locomotives, 1,200; railway stations, 1,400. Since 1900 the Canadian Pacific have doubled their earnings; the total for the last six months is \$31,381,977, an increase of \$19,194,578 over the same period last year.

AUSTRALIAN WHEAT CROP.

The wheat crop of Victoria for this season is estimated at 23,000,000 bushels, being an increase over last year's return of 1,456,850 bushels. The amount required for home consumption is 6,500,000, and for seed 1,900,000, leaving about 14,000,000 bushels available for export. With present market prices at about 32s. per quarter—equal to 4s. per bushel—3s. 6d. per bushel would be realized after defraying freight, commission, and exchange, making the value of the wheat available for export £2,275,000.

TAILORING AND PHOTOGRAPHY.

Perhaps the latest application of photography is in tailoring. This appears to be a Parisian invention. The person to be measured is photographed in several positions while standing behind a network, which is photographed on the same plate, and serves as a standard of reference. By means of a kind of harness, indicating the location of armpits and other concealed points of the figure, the necessary accuracy is obtained.

UNDER WHICH KING.

"The More Postum the More Food—the More Coffee the More Poison."

The Pres. of the W. C. T. U. in a young giant state in the Northwest says:

"I did not realize that I was a slave to coffee till I left off drinking it. For three or four years I was obliged to take a nerve tonic every day. Now I am free, thanks to Postum Food Coffee.

"After finding out what coffee will do to its victims, I could hardly stand to have my husband drink it; but he was not willing to quit. I studied for months to find a way to induce him to leave it off. Finally I told him I would make no more coffee.

"I got Postum Food Coffee, and made it strong—boiled it the required time, and had him read the little book 'The Road to Wellville,' that comes in every pkg.

"Today Postum has no stronger advocate than my husband! He tells our friends how to make it, and that he got through the winter without a spell of the grip and has not had a headache for months—he used to be subject to frequent nervous headaches.

"The stronger you drink Postum the more food you get; the stronger you drink coffee the more poison you get." Name given by Postum Co., Battle Creek, Mich.

The Preacher—"I was surprised to see your husband walk out of the church while I was preaching. The Wife—"Oh, don't mind that! You know he's troubled with somnambulism!"

It is easier to prevent than it is to cure. Inflammation of the lungs is the companion of neglected colds, and once it finds a lodgment in the system it is difficult to deal with. Treatment with Bickel's Anti-Consumptive Syrup will eradicate the cold and prevent inflammation from setting in. It costs little, and is as satisfactory as it is surprising in its results.

NELSON'S KEY TO SUCCESS.

Be a Quarter of an Hour Ahead of Time.

Nelson was always beforehand with every appointment. When he was leaving London on his last expedition against the enemy a quantity of cabin furniture was ordered to be sent on board the ship. Nelson had given a little farewell dinner at his house.

An upholsterer called with an account and to report the completion of the goods. His Lordship had him shown into the dining-room, and spoke to him in a corner apart from the guests.

"Everything is packed, my Lord," he said, "and will go in the wagon from the inn at six o'clock."

"And you will go to the inn and see them off?"

"I shall, my Lord; I shall be there punctually at six o'clock."

A quarter before six," said Nelson, "be there a quarter before; to that quarter of an hour I owe everything in life."

"You don't even know how to make a lemon tart," remarked the cooking school girl, with fine scorn. "It isn't necessary to make a lemon tart," replied the other. "All the lemons I've ever seen were pretty tart already."
