

RICHMOND HILL, ONT., Mar. 15, 1906

The Ontario Government did a commendable act in refusing to grant liquor licenses in Algonquin Park and the new mining town of Cobalt. The Grand Trunk Railway Company propose building hotels in Algonquin Park, along the line of the C. P. R., and they have asked the privilege of selling liquor at those places. At present the statutes forbid the selling of liquor at the Government Park, and within five miles of any mining town or village, and it certainly would be a mistake to loosen the liquor laws in the northern part of Ontario. It has always been found difficult enough to maintain order in sections where there are lumber camps, railway construction companies or mining operations, but infinitely more difficult when the workmen have free access to intoxicating liquor. It is satisfactory to know that the present Government purpose carrying out the policy of their predecessors in keeping liquor out of New Ontario.

The last number of Saturday Night contains a sharp criticism of the Board of Directors elected for the Toronto Exhibition. The editor points out that while the Exhibition is supposed to be national in character nearly all the directors, twenty-four in number, are residents of Toronto. The only non-resident elected to this year's board is Mr. W. H. Pugsley of Richmond Hill. By the new method of electing the directors eight are appointed by the City Council, and sixteen are elected at the annual meeting of the Exhibition Association. Of the last sixteen eight are from the Manufacturers' Section, and eight from the Agricultural Section. What Saturday Night draws attention to is the fact that for the last named section Mr. Pugsley is the only active farmer selected. To elect a farmer for the Manufacturers' Section would not look much more absurd than to elect a King street tailor as a representative in the Agricultural Section.

Mr. T. Herbert Lennox, M.P.P. for North York, has given notice that he will introduce a bill in the Local Legislature which will enlarge the jurisdiction of the Division Court. At present suit can be entered in Division Courts for \$60 for damages, \$100 for open accounts, and up to \$200 for notes or other signed documents. Mr. Lennox proposes to extend the jurisdiction up to \$100 in suits for damages, \$200 in open accounts, and \$400 where the amount is ascertained. Whether the suits are entered in the County Court or the Division Court, both classes of cases are tried by the same judges, or by a jury if desired. Mr. Lennox's bill will certainly be popular outside of cities in all parts of the county. In many cases the costs of a suit tried in a Division Court are not more than quarter as much as a similar suit in the County Court. Heretofore the question of extending the jurisdiction has been opposed by city lawyers, but in the hands of the member for North York such a reasonable bill will be likely to pass.

## FROST LOCKS

Make a Fence of Strength

The heaviest, strongest wires made can't make a strong fence unless the locks are as strong as the wires. A fence, like a chain, is only as strong as its weakest spot.

The New Frost Lock and Frost Wedge Lock are the most unyielding parts of a Frost Fence. They make the whole fence as strong as the strongest wire.

And remember—should Frost Fences go wrong, from mechanical defects or workmanship in building, they are repaired, free of charge.

### Vellore

Mr. A. McNaughton went to Toronto General Hospital on Monday, March 5, to be operated on for appendicitis. The operation was performed successfully, and he is doing as well as could be expected.  
 Elmer Darker, youngest son of Mr. John Darker, was taken to St. Michael's Hospital, Toronto, with a swelling on his left arm. The doctors pronounced it tarcoma. That is consumption of the bone. He had his arm amputated on Monday of this week and is doing well.  
 Our school concert comes off Thursday evening, when a large crowd is expected. It is believed the little ones will acquit themselves with the usual success.

### Carrville

### LETTER FROM NIPISSING

The following information in a private letter dated March 8 from Mr. Jos. S. Burnham, who removed from Victoria Square to Charlton, near New Liskeard, in December, will be interesting to many of our readers:—  
 We arrived at Charlton about the middle of December. There was good sleighing here then, and we have been getting a little more now and then ever since until we have at present two feet on the level. Have not seen any bare ground since we came here—have had a nice winter. The thermometer has registered forty below zero for a day or two at a time, but the air is very dry. We do not feel the cold any more here when it is forty than we did in Markham when at zero. Charlton is a nice little village about forty miles northwest of Liskeard, with a population of about two hundred, situated at the foot of Long Lake, which is about thirty-five miles long and a mile wide. There are three grocery stores, a hardware store, blacksmith shop, bake shop. We also have a free library, a Conservative Association, also a Liberal Association. Our post office is a money order office, and we have mail three times a week. We are only six miles from a railway at present, but expect to have one right into Charlton inside of three years. There are also going to be two or three pleasure boats on Long Lake next summer. We have been working in the bush ever since we came here. Have taken out a fine lot of timber. Wood is so plentiful here that they almost try to see how much they can burn. Hay is \$14 per ton, oats 60c. per bushel, apples \$5 a barrel, butter 30c. per pound, and you can have all the moose meat you want for the shooting of it. We have three hundred and twenty acres, only half a mile from Charlton. The land is good clay soil, etc., etc.

### Are Your Lungs Worth 25c?

Then why do you cough all day? White Pine and Tar will relieve you the first day. It will stop that cough in a few days more. We know all about it because we have sold it for years, and we know just what is in it. It is not a cure-all; it's just a Cough Cure, and a good one at that. Its made to cure. That is why we sell so much of it. It's not a patent medicine either. We keep patent medicines, but we do not recommend them. We do recommend White Pine and Tar, and we believe in it so much that we say

"Your Money Back if You Want It!"

After you use it once you will believe in it too. It will cost you 25 cents to try it. Are your lungs worth 25 cents?
