

CURE THE MOST EXTREME CASES

STONE IN THE KIDNEYS CANNOT STAND BEFORE DODDS' KIDNEY PILLS.

Mr. S. A. Cassidy, of Ottawa, Permanently Cured After Years of Suffering by the Great Canadian Kidney Remedy

Ottawa, Ont., March 26.—(Special).—While all Canada knows that Dodds' Kidney Pills are the standard remedy for all Kidney Complaints, it may surprise some people to know they cure such extreme cases as Stone in the Kidneys. Yet this is what they have done right here in Ottawa.

Mr. A. S. Cassidy, the man cured, is the well-known proprietor of the Bijou Hotel on Metcalfe Street, and in an interview he says: "My friends all know that I have been a martyr to Stone in the Kidneys for years. They know that besides consulting the best doctors in the city and trying every medicine I could think of, I was unable to get better.

"Some time ago a friend told me Dodds' Kidney Pills would cure me. As a last resort I tried them, and they have cured me.

"I could not imagine more severe suffering than one endures who has Stone in the Kidneys, and I feel the greatest gratitude to Dodds' Kidney Pills."

If the disease is of the Kidneys or from the Kidneys, Dodds' Kidney Pills will cure it.

NATIVE RISING IN NATAL.

Trouble Feared on the Borderland of the Zulus Country.

There is much irritation and impatience at Durban, Natal, at the disposition of certain home politicians, as shown by the cablegrams, to intervene in regard to the preventive measures against a possible spread of native diffusion in the colony.

The press is voicing strenuous complaints against home interference, and a grave crisis unquestionably confronts Natal, and with Natal, South Africa, generally, unless these symptoms of rebellion are checked with a strong hand. The whites are outnumbered by ten to one in Natal, and there is no Geneva Convention among the natives, who would yield to the first savage impulse for rape, murder and wholesale destruction.

There is evidence that sedition is still active, and trouble is hourly expected at Mopomulo, on the Zululand border, where a strong column of cavalry and artillery, with Maxim and searchlights has taken up a position. The Zulus show every appearance of loyalty, and possibly recourse will be had to their assistance. Native levies are beating the forest haunts of the refractory tribes there.

All is quiet in mid-Natal, where the shooting of two natives recently had a profound effect upon the natives of the district. It is believed that if the commandant of the column there acted with more firmness, the lack of which is conjectured to be the result of comments in England, the natives would be pacified permanently. Action should be taken on the principal that by grasping the nettle tightly injury is avoided.

MANY WOMEN SAILORS.

Women sailors are employed in Denmark, Norway and Finland, and are often found to be excellent mariners. In Denmark several women are employed as State officials at sea, and particularly in the pilot service. They go out to meet the incoming ships; they climb nimbly out of their boats; they show their official diplomas, and they steer the newcomer safely into the harbor. It is the same in Finland.

FOOD HELPS.

In Management of a R. R.

Speaking of food a railroad man says: "My work puts me out in all kinds of weather, subject to irregular hours for meals and compelled to eat all kinds of food.

"For 7 years I was constantly troubled with indigestion, caused by eating heavy, fatty, starchy, greasy, poorly cooked food, such as are most accessible to men in my business. Generally each meal or lunch was followed by distressing pains and burning sensations in my stomach, which destroyed my sleep and almost unfitted me for work. My brain was so muddy and foggy that it was hard for me to discharge my duties properly.

"This lasted till about a year ago, when my attention was called to Grape-Nuts food by a newspaper ad, and I concluded to try it. Since then I have used Grape-Nuts at nearly every meal and sometimes between meals. We railroad men have little chance to prepare our food in our cabooses and I find Grape-Nuts mighty handy for it is ready cooked.

"To make a long story short, Grape-Nuts has made a new man of me. I have no more burning distress in my stomach, nor any other symptom of indigestion. I can digest anything so long as I eat Grape-Nuts, and my brain works as clearly and accurately as an engineer's watch, and my old nervous troubles have disappeared entirely." "LIVING ON AN EARTHQUAKE."

An Alarming State of Affairs in South Wales.

The Rhymney Valley is not the only part of South Wales where earth movements are creating serious alarm. At Maesteg, in the heart of the colliery district, subsidences are going on which cause increasing alarm, and which seem to threaten the destruction of a considerable portion of this populous town. Crevices have suddenly appeared in the earth, and whole rows of houses have suffered almost irreparable damage. Dwellings have been suddenly vacated because their occupants could hear the walls groaning in the night.

The street pavements are showing signs of the earth's labor, in some spots by sunken patches, and in others by buckling up. Gaping cavities suddenly appear in people's gardens, and not long ago a horse grazing in a field was swallowed up and lost.

The unfortunate feature of this alarming state of things is that many working men who have, at much self-sacrifice, acquired their own houses, are having the experience of seeing their property slowly but surely crumbling to pieces. Whether the mischief arises from the extensive colliery workings below remains to be proved.

NEEDLESS SACRIFICE.

"That's no reason you should step on my gore."

"500 People Badly Bent" have in effect used these words in speaking of the curative qualities of South American Rheumatic Cure—"My legs were crippled—"My hands were distorted—"My joints were swollen—"My back was bent double—"My pain was excruciating—"Bedridden for years." This great remedy has been the heaven-sent agent that worked a permanent cure.—130

Lord Lansdowne, the Duke of Abercorn, and Lord Verulam, are the only persons who hold at once English, Scottish, and Irish peerages.

"FERROVIN" IS A GENTLE STIMULANT to the stomach, thereby aiding digestion. As a tonic for patients recovering from fevers and all diseases lowering the vitality, it is without a rival. At all drug and general stores.

Mr. Andrew Lang once wrote to Israel Zangwill to ask him if he would take part in a certain function. He received the following reply: "If A. Lang will, I. Zangwill."

BRITISH HOUSE OF COMMONS.

The Idea of Building a New One Is Being Revived.

There is an unprecedented demand this session of the British Parliament for seats in the strangers gallery. This is an indication of the political awakening in the country, and the hopes and interest which have aroused. Never before was it needful for the Speaker's secretary to hang outside his office placards which warn members that all orders for the gallery have been already issued, and that further application will be in vain.

Neither for the public nor for the members is the House of Commons large enough, and the idea of building a new one, on the space now occupied by the Commons court, is being revived. The full and regular attendance of members makes the rooms which they occupy in common, outside the House proper, crowded and uncomfortable to a most unpleasant degree, and the First Commissioner of Works is continually being buttonholed by complaining members. He is understood to contemplate placing one of the rooms in the library at the disposal of the many members who want a place in which to write and smoke in silence, and cannot at present find one.

WHERE MAN'S INFLUENCE IS FATAL

Man is the only animal which is always accompanied by disease, except those creatures that are his companions and share his patronage. There is reason to believe that the denizens of the forests, the veld, the rivers and the ocean, so far as they escape man's influence, live, with hardly an exception, healthy lives. Chronic ailments begin with man's protection in the dairy, stable and kennel. Man has created artificial conditions with which the "thousand" that flesh is heir to are associated. It is now his supreme task to bring these conditions into harmony with the laws of his being. Sickness and debility are not to be regarded as natural and inevitable parts of our heritage, but as the fruits of rebellion against nature's laws, and therefore to be got rid of. If the human family dwelt in ventilated houses, breathed pure air, lived temperately, with little or no alcohol, and took daily exercise in the open, it would perhaps know little more of gout, rheumatism, cancer, fever, lumbago, dyspepsia, asthma, and the host of infectious troubles than do the lower animals.
