RICHMOND HILL, ONT., May 29, 1906

LOCAL OPTION AND THE TRAVELLING PUBLIC.

We are in full sympathy with an editorial in last Week's Christian Guardian which points out that a responsibility rests upon the shoulders of temperance advocates where bars are to be closed on the first of May by the passing of local option by-laws. We quote the article in full:—

"The resolution of the Commercial Travellers' Club of the City of London calls attention to a matter that must be faced, seriously and promptly, by temperance advocates and organizations throughout the country. The cutting off of over one hundred and fifty licenses at the first of May within the bounds of this province gives cause for thankfulness, but such a reform brings with it a responsibility that temperance people should be ready and willing to meet. In many of the smaller places the hotels hitherto received most of their support from the sale of liquor. They gave accommodation to travellers somewhat as a side line, but in the main such accommodation was fairly satisfactory. With the cutting off of the revenue from liquor sales many of these houses cannot live, and yet the travelling public must be fed and housed. The problem may not be as serious as some would have us believe, and we doubt not that the liquor interests will throw as many obstacles in the way as possible. But in all these localities where local option is coming into force the temperance people have a duty to see that the wants of the travelling public are provided for, even though it may take a sacrifice to do it. And the entertainment should not only be as good as, but better than, under the old conditions. This means thoroughly organized and well-planned work in some localities, but it will pay many times over."

The members of the Ontario Agricultural and Experimental Union are pleased to state that for 1905 they are prepared to distribute into every township of Ontario material for experiments with fodder crops, roots, grains, grasses, clovers, and fertilizers. Upwards of 1,600 varieties of farm crops have been tested in the Experimental Department of the Ontario Agricultural College, Guelph, for at least five years in succession. These consist of nearly all the Canadian sorts and several hundred new varieties, some of which have done exceedingly well in the carefully conducted experiments at the College, and are now being distributed free of charge for cooperative experiments throughout Ontario. The Government gives a list of thirty experiments of grain, grasses, etc., for the present year.

Each person in Ontario who wishes to join in the work may choose any ONE of the experiments for 1906, and apply for the same. The material will be furnished in the order in which the applications are received until the supply is exhausted. It might be well for each applicant to make a second choice, for fear the first could not be granted. All material will be furnished entirely free of charge to each applicant, and the produce of the plots will, of course, become the property of the person who conducts the experiment.

Banwell who pleaded guilty to the theft of \$40,000 from the Crown Bank has been sent to Kingston for four years, and his young wife who acknowledged receiving the goods, knowing that they were stolen, is allowed her liberty on suspended sentence. The case is a sad one, but no friend of young men need say that Banwell's sentence is too severe. And yet there are people who offer excuses for the erring bank clerk, and express regret that the detective was successful in capturing the object of his research. They say he was so very young—only 23 years

1905 TO 1914—FOR \$40
1906 TO 1931—FOR \$50

FROST FENCE
is the cheapest you can buy

The first cost may be more—but the first cost is the only cost. Suppose one fence costs \$40, and lasts, say, for 8 years. That fence costs you \$5 a year. Suppose the same length of Frost Fence costs \$55. But the Frost Fence—made of High Carbon Steel Wire and locked with the Frost Lock—lasts for 25 years—at a cost of only \$2 a year.

Isn't the Frost the cheapest you can buy? Frost Fences are for sale by
CLUBINE & PEARSON, - Thornhill
C. A. SINCLAIR, - - Laskay
JAMES WOODARD, - Aurora

of age—his salary was only \$650 a year, and the desire of his heart was to marry the girl he loved. If the people who talk such nonsense should lose \$4—not \$40,000—by the dishonesty of a servant they would in all probability say that the judge should impose a sentence of at least 10 years. Away with such sympathy. It will do Banwell no good; it may do others harm.

Hon. John Dryden, former Minister of Agriculture for Ontario, has been appointed a member of a commission to inquire into the agricultural condition of Ireland, and has accepted the appointment. The appointment was made by the Imperial Government through Lord Strathcona, High Commissioner for Canada in London. The commission will likely be expected to make a study of agricultural conditions in Ireland, and report to the Imperial authorities. Mr. Dryden is one of the most progressive farmers in Canada, and has been prominently connected with agricultural societies for many years, and we are sure no better appointment could be made.

We are pleased to notice that Mr. Arch. Campbell, M. P. for Centre York, has been elected Chairman of the Committee on Railways, Canals and Telegraph Lines. This committee consists of 170 members, the largest and most important of the whole House.

The Guelph Municipal Council and the Guelph Board of Trade have passed resolutions calling upon the Ontario Government to establish a power plant at Niagara Falls, or to secure power from existing franchises for distribution to the reachable municipalities of the Province.

We observe by an evening paper that Mr. A. E. Keffer of Lethbridge, Alberta, was a few days ago made the choice of the Conservative convention to contest the constituency, rendered vacant by the appointment of Mr. Deverber to the Senate. The nominee is well known in York County, having for many years been a prominent and progressive farmer near Concord, Vaughan Township.

Farmers Take Notice

Have just arranged with the Veterinary Specialty Co. to sell the following remedies: Stock Tonic and Blood Purifier, Indigestion and Colic Cure, Spavin Cure, Worm Powders, Cough Remedy, Poultry Tonic, Louse Death Antiseptic Healing Oil, Sprain Emulsion, Black Oil, Heave Relief, Lump Jaw Cure, Aphoridiasis and Anti-Sterile Powders, Diarrhoea Cure for Colts and Calves, Leaking Naval & Joint Disease.

Trent Canal
HOLLAND RIVER TO NEW-MARKET

Notice to Contractors

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this office until 16 o'clock on Monday, the 2nd day of April, 1906, for deepening and improving of a channel way from a point in Cook's Bay—Lake Simcoe, Ontario, to the mouth of and up the Holland River, and the East Branch thereof to the Bradford Road at Holland Landing.

Plans and Specifications of the work can be seen on and after Monday, the 26th February, 1906, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at which place forms of tender may be obtained.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and further, an accepted bank cheque for the sum of \$1,000, must accompany the tender for the work; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, 22nd February 1906.

TWO GOOD ONES

Only Two Square-Gear Machines Made
MELOTTE SEPARATOR

Only machine with self-balancing bowl. Freer action and few ball-bearings than any other machine on the market. Melotte bowl is shallow and wide and opens in the centre so that every part of it can be easily cleaned.

Over 125,000 in daily use.

MAGNET SEPARATOR

Easiest running. Simplest in construction for strength and durability. Clearest skimmer. It is a spun-gear machine mechanically perfect, and not a worm gear contraption. It has a low-down supply can. Machines placed on one week's trial free.

W. C. PETHICK, Agent
RICHMOND HILL.
Also agent for Gramophones and New Williams' Sewing Machines.
