

The Liberal.

RICHMOND HILL, ONT., Apr. 12, 1906.

In the Legislature on Wednesday of last week Mr. W. K. McNaught's anti-treating bill came up for its second reading. After a sympathetic discussion the measure was withdrawn at the suggestion of Mr. Whitney, who doubted the practicability of the measure.

The Honorary Degree of Doctor of Divinity was conferred on Rev. C. W. Gordon ("Ralph Connor,") pastor of St. Stephen's Church, Winnipeg, by Knox College, Toronto, on Thursday evening. The presentation was made by Hon. G. W. Ross.

On the last Friday in March a local option by-law was carried in the township of Mountain, county of Dundas, by a majority of 139. The figures were as follows:—For the by-law 434, against the by-law 295. The result is looked upon as an encouraging victory for the temperance party, but if the new law as proposed, comes into force, a by-law carried by the same figures would be beaten. The Whitney government may claim to be in sympathy with those who are working for temperance and moral reform, but any person can see that the new law requiring a three-fifths majority will be a death blow to local option.

**Frost Fences
Are Strong All Around**

The interiors of a Frost Fence are High Carbon No. 9 Hard Steel Coiled Wire, thoroughly galvanized—that can't be broken until the strain reaches from 1900 to 2200 pounds.

The stays are No. 7 or this same No. 9 wire. And the two wires are locked with the Frost Locks. That braces the fence in all directions—up down and diagonally.

We are so sure that Frost Fences are the strongest and best that we guarantee to repair, free of charge, any fence that goes wrong. That's fair, isn't it? Frost Wire Fences are for sale by

**EARN CASH
In Your Leisure Time**

If you could start at once in a business which would add a good round sum to your present earnings—WITHOUT INVESTING A DOLLAR—wouldn't you do it?

Well, we are willing to start you in a profitable business and we don't ask you to put up any kind of a dollar.

Our proposition is this: We will ship you the Chatham Incubator and Brooder, freight prepaid, and

**You Pay No Cash Until
After 1906 Harvest.**

Poultry raising pays. People who tell you that there is no money in raising chicks may have tried to make money in the business by using setting hens as hatchers, and they might as well have tried to locate a gold mine in the cabbage patch. The business of a hen is—to lay eggs. As a hatcher and brooder she is out-clasped. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully.

The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested.

Thousands of poultry-raisers—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the

AND BROODER.**

No. 1—60 Eggs
No. 2—120 Eggs
No. 3—240 Eggs

"Yours is the first incubator I have used, and I wish to state I had 52 chicks out of 52 eggs. This was my first lot; truly a 100 per cent. hatch. I am well pleased with my incubator and brooder. THOS. McNAUGHTON, Chilliwack, B.C."

"My first hatch came off. I got 170 fine chicks from 190 eggs. Who can beat that for the first trial, and so early in the spring. I am well pleased with incubator, and if I could not get another money could not buy it from me. Every farmer should have a No. 3 Chatham Incubator.—F. W. RAMSAY, Duquoinville, Ont."

"The incubator you furnished me works exceedingly well. It is easily operated, and only needs about 10 minutes attention every day. R. McGUIRE, Moose Jaw, Assa."

The Chatham Incubator and Brooder is honestly constructed. There is no humbug about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship the best.

The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments. You pay us no cash until after 1906 harvest.

PAGE FENCING
THE BEST IS THE CHEAPEST

When you buy a knife for instance, you consider the quality of the steel in the blade. The biggest and heaviest knife is not necessarily the best. Now there is just as much difference in the quality and strength of steel in fence wire as there is in a knife blade or razor. The Page Co. use a **high carbon steel wire**, which though it costs you but little more, is fifty per cent. (50%) stronger than wire in other fences. The lightest PAGE fence is as strong as the heaviest of other makes.

Notice the lock in PAGE "EMPIRE" FENCE. You may have noticed also that others are imitating it. That is a good recommend for it. Where we lead others follow.

All PAGE wire is "COILED," not crimped.

Besides the extra strength and superior workmanship, PAGE FENCES are dipped in a special white paint, which on top of the best of galvanizing, will lengthen the life of wire for years. And, also, this white coating makes wire much more sightly.

Owing to the great strength and elasticity of PAGE fencing, one-third less posts are required, thus reducing the cost of the fencing.

As you get in PAGE FENCES one-half more fence strength, greater protection against rust, better workmanship, better appearance, use less posts, can you afford to use other fences, even though you could buy them for one-half the price of the PAGE? But, really ours cost you little, if any more.
