

The Liberal.

RICHMOND HILL, ONT., Apr. 26, 1906

At a meeting of the Justices of the Peace for York County on Monday, Judge Winchester who presided drew the attention of the magistrates present to their duty in protecting the various kinds of birds in our gardens, lawns and parks. The law against shooting is strict, and it is hoped that Judge Winchester's warning will be heeded by those who handle either fire-arms or air-guns. By all means protect the birds.

The principal topic of conversation during the past week has been the San Francisco catastrophe, with its hundreds of lives swept into eternity, and the appalling loss of wealth. A conservative estimate places the loss at \$350,000,000 and taken altogether the earthquake followed by conflagration has probably been the greatest disaster this continent has ever experienced. The fire is now apparently under control, but it will be many years before the sufferers can even partially forget the awful experience through which they passed.

Prince Arthur of Connaught, who is spending the greater part of this week in Toronto, has received a warm welcome. He is on his return journey from Japan where he delivered an important message to the Emperor of that Island, from his illustrious uncle, Edward, the Peacemaker. The Prince will be honored wherever he lands in Canada, not only for his own manly qualities, but because his father, the Duke of Connaught, his uncle, the King; and his grandmother, the late beloved Victoria the Good, hold a warm place in the hearts of the people of this country.

TWO GOOD ONES

Only Two Square-Gear Machines Made
MELOTTE SEPARATOR

Over 125,000 in daily use.

Only machine with self-balancing bowl. Freer action and few ball-bearings than any other machine on the market. Melotte bowl is shallow and wide and opens in the centre so that every part of it can be easily cleaned.

MAGNET SEPARATOR

Easiest running. Simplest in construction for strength and durability. Cleanest skimmer. It is a spur-gear machine mechanically perfect, and not a worm gear contraption. It has a low-down supply can. Machines placed on one week's trial free.

FROST STEEL GATES

The strong features of Frost Fence are combined in the Gates. A special feature is the frame of continuous steel tubing. This is vastly stronger than a frame with elbow corners and malleable castings. The heavy wire filling insures against sagging.

The public is a patent as per patent is pure!

PAGE FENCING

THE BEST IS THE CHEAPEST

When you buy a knife for instance, you consider the quality of the steel in the blade. The biggest and heaviest knife is not necessarily the best. Now there is just as much difference in the quality and strength of steel in fence wire as there is in a knife blade or razor. The Page Co. use a high carbon steel wire, which though it costs you but little more, is fifty per cent. (50%) stronger than wire in other fences. The lightest PAGE fence is as strong as the heaviest of other makes.

Notice the lock in PAGE "EMPIRE" FENCE. You may have noticed also that others are imitating it. That is a good recommendation for it. Where we lead others follow. All PAGE wire is "COILED," not crimped.

THE LOCK IN PAGE "EMPIRE" FENCES.

Besides the extra strength and superior workmanship, PAGE FENCES are dipped in a special white paint, which on top of the best of galvanizing, will lengthen the life of wire for years. And, also, this white coating makes wire much more sightly.

Owing to the great strength and elasticity of PAGE fencing, one-third less posts are required, thus reducing the cost of the fencing.

As you get in PAGE FENCES one-half more fence strength, greater protection against rust, better workmanship, better appearance, use less posts, can you afford to use other fences, even though you could buy them for one-half the price of the PAGE? But, really ours cost you little, if any more.
