NEW CURE FOR HAY FEVER

The latest treatment for the prevention of Hay Fever prescribes systematic and continued exercise taken in timely advance of the season for the appearance of the complaint. Specialists in the disease do not understand its nature. It is not now thought to be a form of catarrh and local applications have been largely abandoned. The theory that it is rheumatism of the mucus membrane is not accepted. A more favored idea attributes the inception of Hay Fever to sluggishness of the liver and bicycle riding is recommended to keep this organ in an active and healthy condition. After Hay Fever has arrived, the sufferer will find neither comfort or relief in bicycling, but systematic and easy wheeling during the preceding months is warranted to greatly modify the severity of an approaching attack, or to entirely prevent it.

PAGE FENCING

THE BEST IS THE CHEAPEST

When you buy a knife for instance, you consider the quality of the steel in the blade. The biggest and heaviest knife is not necessarily the best. Now there is just as much difference in the quality and strength

of steel in fence wire as there is in a knife blade or razor. The Page Co. use a high carbon steel wire, which though it costs you but little more, is fifty per cent. (50%) stronger than wire in other fences. The lightest PAGE fence is as strong as the heaviest of other makes. Notice the lock in PAGE "EMPIRE" FENCE. You may have noticed also that others are imitating it. That is a good recommendation for it. Where we lead others follow. All PAGE wire is "COILED," not crimped.

THE LOCK IN PAGE "EMPIRE" FENCES.

Besides the extra strength and superior workmanship, PAGE FENCES are dipped in a special white paint, which on top of the best of galvanizing, will lengthen the life of wire for years. And, also, this white coating makes wire much more sightly.

Owing to the great strength and elasticity of PAGE fencing, one-third less posts are required, thus reducing the cost of the fencing.

As you get in PAGE FENCES one-half more fence strength, greater protection against rust, better workmanship, better appearance, use less posts, can you afford to use other fences, even though you could buy them for one-half the price of the PAGE? But, really ours cost you little, if any more.
