

The Liberal.

RICHMOND HILL, ONT., May 17, 1906

By a vote of 167 to 9 the Dominion Parliament last week adhered to the Indemnity Bill passed last session, and showed by their votes and speeches they considered \$2,500 not too much for the members' sessional allowance. The measure is not popular throughout the Dominion, probably not so much on account of the extra money voted, but because there is a feeling that the question should have been discussed before the last General Election. However, as both sides of the House—Liberals and Conservatives voted almost solidly for the bill, it may be just as well to let the matter drop. Even W. F. Maclean, Judging from the speeches of Grits and Tories, must have felt "sorry that he spoke."

A BULLETIN ON THE BACON HOG.

An exhaustive bulletin on the production of hogs in Canada for the British bacon trade is ready for distribution from the office of the Live Stock Commissioner at Ottawa. It is divided into fourteen parts each dealing with a section of the bacon industry under the following heads: Introduction; The Standard Bacon Type; Undesirable Hogs for Bacon Production; Breeds and Breeding; Care of Breeding Animals; Rearing and Finishing; Cost of Gain at Different Stages of Growth: Soft Bacon; Foods; Preparation of Food; Composition of Foods used in Swine Feeding; Gestation Table; The present and future of the Canadian Bacon Industry.

Besides the personal experience of the Live Stock Commissioner and members of his staff, every reliable source of information within reach was drawn upon in securing data for the bulletin. After describing the type and breeds of hog suitable for the bacon trade and discussing the best and most economical methods of rearing and feeding, the bulletin points out that the bacon industry of Canada worth some thirteen million dollars per year is worthy of the earnest support of the farmers of Canada. In order to encourage and assist this valuable trade this bulletin has been prepared with great care and exactness as to teaching. It is helpfully illustrated by half tone cuts of swine of different pure breeds, correct and incorrect types of hogs, ideal and faulty sides of bacon, besides plans and description of the movable pen which is becoming very popular. The bulletin is No. 10 of the Live Stock Branch. Copies may be secured free by application to the Live Stock Commissioners, Ottawa.

Heavy Lateral Wire
Half Size
Frost Fences
Are Strong All Around

The laterals of a Frost Fence are High Carbon No. 9 Hard Steel Coiled Wire, thoroughly galvanized—that can't be broken until the strain reaches from 1900 to 2200 pounds.

The stays are No. 7 or this same No. 9 wire. And the two wires are locked with the Frost Locks. That braces the fence in all directions—up down and diagonally.

We are so sure that Frost Fences are the strongest and best that we guarantee to repair, free of charge, any fence that goes wrong. That's fair, isn't it? Frost Wire Fences are for sale by
