butter, one and a half cups of sugar, turning. three eggs, three tablespoonfuls of milk, flour to roll, and a teaspoonful of bak- oughly dried and slightly warmed. ing powder; roll, sprinkle with granuwith a hole in centre and bake.

Rosettes.-To the yolks of three eggs beaten very light add one quart of milk, a piece of butter the size of an egg cut in little pieces into the milk and eggs, three coffee cups of flour, a little salt, three teaspoonfuls of baking powder, and, lastly, the whites of the eggs beaten very light and stirred quickly into the mixture. Bake in a quick oven.

Orange Short Cake .- One quart of flour, two tablespoonfuls of butter, two teaspoonfuls of baking powder, thoroughly mixed with the flour; mix (not very stiff) with cold water, work as little as possible, bake, split open, and lay sliced oranges between; cut in squares and serve with pudding.

Fig Pudding .- One-fourth pound of figs, chopped fine, one-fourth pound bread crumbs, one-fourth pound of brown sugar, one-fourth pound suet, one-fourth pound candied lemon peel mix them thoroughly, put in a mould and boil or steam four hours.

Bread Pudding .- One coffee cup of bread crumbs, dried and rolled fine; one teacup of sugar, one quart of milk, one teaspoonful of ginger, a little salt, three eggs (saving out the whites of two). When baked spread jelly over the top, then a frosting made of the whites of the eggs, and one tablespoonful of sugar. Return to the oven until slightly browned.

Apple Tarts.-Pare, quarter, core and boil in a half teacupful of water until very soft, ten large apples; beat till very smooth, then add the yolks of six eggs or three whole eggs, juice and grated rind of two lemons, half cup of butter, one and a half cups of sugar or more, if not sweet enough; beat all thoroughly; line little tart tins with puff paste, and fill with the mixture; bake five minutes in a hot oven.

Porcupine Cake.-One large cup of white sugar, one half cup of butter, one egg, one cup of sweet milk, one and one-half teaspoonfuls of baking powder, together as usual, and bake; when the cake is cold, and just before serving, pour the following cream over it, after having put a teaspoonful of soft almonds over the top of it: Cream two eggs, one quart of milk, one cup of sugar, two tablespoonfuls of cornstarch. the cornstarch in a little milk, add and cook as a custard.

## PACKING TRUNKS.

This is a subject upon which there is a variety of opinions among our matrons. In a recent discussion the following views were expressed by one who claims to have had some experience in the malter:

"After you are persuaded that everything has been crowded into your trunk, add something more, even if you have to sit on the lid, and you will far less confusion at your journey's end, than if no attention had been given to filling every crack and crevice so that things will not have a chance to rattle round and get acquainted with each other before you are ready to have them.

"If you wish to put in boxes, or a hand mirror, or pictures, put the in the middle

### WHAT IS EXPECED OF A MOTHER.

In thinking over what is expected of the average woman who becomes a housekeeper, wife, and mother, it occurs to a recent writer that she must be master of all the arts and sciences in order to properly fill her position. Her education, to be complete, must be perfect along many lines. She must be entertaining and accomplished, to charm her husband and her husband's friends; she must be a well-rounded housekeeper, understand cooking thoroughly, else population. how can she direct the energies of her domestic in that line? She must be well and citron, one nutmeg and five eggs; acquainted with the sanitary code, to see that her house is well ventilated, good condition; must know how to attend to the marketing and general buying, so that sufficient economy may be day and night, taking the temperature, giving the medicine.

## AH SIN IN THE KITCHEN.

Phyllis" (one wonders if Milton ever resort we began the use of Dr. Williams' the parrot, and, regardless of the great had his best china smashed) is replaced Fink Pills. She took the pills several danger she ran, made he way back to by Ah Sin, who has good points about weeks when we saw there was a the room, now filled with smoke and him, although his failings do not lean slight improvement. The improvement flames, and, seizing the bird in her arms one-half teaspoonful of vanilla; dissolve to virtue's side. ### ALWAYS HOLIDAYS.

There Will be 388 in 1906 in Different Countries.

Holidays are, of course, universal, though each nation has its own methods and times for celebrating special put in the top of a trunk will be less events. England has not the monopoly of heroes, saints, and other inducebottom. Men who handle trunks are no ments for a general abstention from work. Indeed, so far as the British cups of chopped pieplant and one of liable to land one on the top or end as Isles are concerned, a bank holiday is seeded and chopped raisins, and add on the bottom. Long experience, there- a rare event-that is, compared with the has no fewer than twenty-one general holidays in the course of twelve months and this record is very nearly equalled

It is, therefore, not a matter for surrise that the aggregate number of holidays for 1906 should amount to 338, involving 217 different days. The dif-A time for everything and everything ference in totals is accounted for by the fact that several anniversaries are Clear up as you work; it takes but a celebrated on one particular day. Thus, moment then, and saves time after- June 4th is appropriated by Australasia, Western Australia, Italy, New Or-An hour lost in the morning has to be leans, and Roumania for a holiday, each one having a distinct origin.

Republics have a weakness for celebrating Independence Day. There are A hot fire for roasting and a clear fire nineteen of these states, and each has ils special anniversary. At their head we have the United States, the minor Study to economize strength, time and lights including Hayti, Cuba, Argentina, and Peru.

China, apparently, has only one day that can be called a bank holiday. It goes by the romantic name of the

The Russian calendar is somewhat plentifully besprinkled with holidays, and it only needs the birth of a royal prince to induce the loyal Russian workmen to take a holiday. They celebrate Christmas Day on the 7th of January, and New Year's Day on the 14th of the same month. This is due to a fondness for the old style system of reckoning the passing of time.

Out of this total of 338 only six bank holidays-including Good Friday and Christmas Day-are credited to England. But Ireland, having recently decided to add St. Patrick's Day to the list, has seven, or two more than Scotland. Japan is more generous, however, and her list of sixteen holidays includes several picturesque aniversaries of dead heroes, with even more picturesque names. The early harvest has its own festival day, and the Imperial Banquet Day is rigorously observed throughout the Mikado's dominions on January 5th. Easter, Whitsun. and Christmas are, of course, duly ce-
