H. A. NICHOLLS NOTARY PUBLIC Commissioner, Conveyancer, etc. Insurance: Fire and Life. **Richmond Hill**

THE MILK CAN STANDARD. Provisions of the New Law to be Enforced.

At the last session of Parliament an act was passed to make it imperative that all cans used for the purchase or sale of milk by dealers or others should be verified and stamped by a Dominion Inspector of weights and measures and under the weights and measures act. The bill was introduced by Mr. Arch. Campbell, M. P., who represented to Parliament that the farmers who supplied the milk to the dealers were in some cases being defrauded by being required to fill cans nominally of eight gallons capacity, when in reality they frequently contained more than eight gallons. It seems that in respect to the use of cans as measures of capacity the law for many years has been distinctly violated. It always has been the law that such cans should be inspected and their correct measurements verified by a government official, but this provision, if ever enforced, long ago fell into disuse, and it has been the custom for many years for milk dealers in the larger cities especially, to use cans in their business which were unverified. It was a clear and distinct violation of the weights and measures act, which in all other matters of purchase and sale is rigidly enforced; but in the milk business apparently a practice had grown up, not only in Toronto, but in Montreal and in all other cities, of using unstamped cans of all sizes for the purchase from the farmers, the conveyance to the city and the sale of milk to consumers. It was to put a stop to this condition of things that Mr. Campbell introduced an amendment to the weights and measures act of last session. The act as passed requires that when milk is sold by measure all cans or other vessels used for the purpose of such sale shall contain a standard gallon or some multiple of a standard gallon, and that all such cans shall be subject to verification under the general provisions of the weights and measures act, the capacity thereof and the name of the maker being engraved or stamped thereon. The owners of cans now in use which have not been verified and stamped by an inspector or assistant inspector of weights and measures are required, within three months from July 13, 1906 (when the new act was assented to by the Governor General), to present them to the local inspector of measures for verification, when each can will be stamped with its capacity to the nearest quart thereof, and will be branded or stamped "milk can." After the three months have expired any person using cans which have not been inspected and stamped shall incur a penalty not exceeding \$50, the cans being forfeited. Under this act the Department of Inland Revenue is authorized to make regulations and prescribe a tariff of fees for inspection. This has been done by the department, and circulars have been sent to each inspector. The tariff of charges is as follows:—

When of a capacity of two gallons or under, a fee of 10 cents each. When of a capacity exceeding two gallons and not exceeding five gallons, a fee of 20 cents each. When of a capacity exceeding five gallons and not exceeding ten gallons, a fee of 30 cents each. When of a capacity exceeding ten gallons, a fee of 50 cents each. But in order to meet the conditions imposed by the new act, and for the purpose of bringing about an inspection of the old cans in use during the three months' grace extended to their owners under the amended law, the fees until October 13 next will be one-half those above given. After the 13th day of October the fees as above will be exacted for the inspection of old cans as well as of new cans, and will be the fees thereafter charged on inspection of any can, old or new. Dealers in milk who are the owners of uninspected cans will be wise, therefore, to take advantage of the reduced rates for inspection. As some of them may be the owners of a large number of cans, the reduction of one-half in the charge of inspection will be a considerable item, and as it is clearly the duty of the officials of the Inland Revenue Department to strictly enforce the law it would be a mistake on the part of anyone to continue the use after the 13th day of October of cans which have been uninspected and therefore unstamped. The department will afford every facility for verification of milk cans, and will if necessary to insure prompt inspection, strengthen the staff of officials, especially in Toronto and Montreal, in order that the work may be done expeditiously and without subjecting anyone to needless delay.

This store is headquarters for all sizes of crocks and fruit jars. Atkinson & Switzer.

Headford Harvest is well under way in this neighborhood. Mr. E. A. Stone started a week ago to cut his 90 day oats. He has an excellent yield, but it is something unusual to harvest the oat crop in the month of July. Several of the farmers have finished cutting barley, but the recent heavy rains have added much to the labor of harvesting.

The Medal Farm, owned by Mr. Comisky, never looked better at this season of the year, and that is saying a great deal. His grain, hay and root crops are excellent and his vegetable garden is a credit to this section of country. The garden is kept free from weeds, and a large onion bed is probably as good as can be seen anywhere in the province.

The barn raising at Dairytown last week was the social function of the season. But that event may be eclipsed by the formal opening which it is hoped will follow when the floors need polishing up. Owing to Quarterly Services in Victoria Square Methodist Church next Sunday, the morning service will be withdrawn at Headford, but Rev. Mr. Irwin will preach in the evening at 7 o'clock.

Miss Florence James of Newton Brook spent over Sunday with Misses Maud and Lida Helmky. Miss E. Gunn of Buffalo is visiting at the home of her aunt, Mrs. E. A. Stone, of this place. We wish her a most enjoyable holiday while under the Union Jack.

Nellie Stone has just arrived home after spending a month visiting friends in Lunenburg township. The heavy rain storm Sunday evening accompanied by thunder and lightning did much harm to the growing crops in this vicinity. Many trees were broken down and a number of telephone poles on the 4th concession were struck by lightning.

Maple Our village is pretty quiet these days. The farmers are too busy at their harvest to leave home, and others are away enjoying their holidays in various parts.

Miss L. Kumble has just returned from a visit with friends at Shanty Bay. Miss Ethel Richardson of Toronto, is making a visit with Mr. L. Richardson and family. Miss Mildred Schaum and Miss Bertha Brown, of McKeesport, Pa., are visiting at Mr. H. C. Bailey's.

Miss Irene Kaiser of Toronto, is spending a few days at Mr. Jackson's. Mr. Everton Lloyd who recently graduated at the Ontario Normal College at Hamilton has been appointed and has accepted the position of principal of the Public School at Islington.

A very pleasant time was held at the home of Mr. and Mrs. Saigeon last evening when a social assembly was held on the 21st birthday of their daughter Daisy Ethel Saigeon. About 50 guests were in attendance from Maple and surrounding villages. The lawn and the verandah were illuminated with Chinese lanterns, various games and amusements were indulged in both inside and outside, and later in the evening tempting refreshments were served in the Masonic Hall a few steps distant. Miss Saigeon was the recipient of many beautiful presents including a mahogany music cabinet, with bevelled glass mirror from her friends at Maple, Hope and Teston.

After refreshments were served, and before the guests left the table, a toast was proposed to Miss Saigeon, Mr. T. McCormack acting as toast master. Mr. Saigeon responded on behalf of his daughter, and extended a warm welcome to all present. The Parents were afterwards toasted, and short speeches were made by many of those present all referring to the kind hospitality of the host and hostess, and expressing a wish for the future happiness of Miss Daisy Saigeon. The party then repaired to the house where music and games were continued for a time.

News Notes.

The population of Winnipeg is given as 90,216.

Miss Martha Ann Peters, daughter of the late Henry Peters, died at Woodbridge on Sunday, 29th of July, in her 23rd year.

Thirty-nine more Justices of the Peace have been appointed by the Ontario Government for York County. All are resident in Toronto.

Mayor Smith and the members of the council from Toronto Junction took a trip one day last week to see Neighorn's series of artesian wells, situated some 23 miles from Toronto Junction in the centre of the township of Whitchurch, near the village of Stouffville, on what is known as Cook's farm. According to newspaper reports the Council seemed to favor the scheme.

Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects in any condition of the system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

AGENT FOR Deering Farm Implements

and for London Mutual and British America Fire Insurance Companies and Home Life Assurance Co.
