GETTING RID OF PIRATES.

How a Band Was Quickly Disposed of in South China.

A reader who arrived at Hongkong from Wuchow informs us that on Sunday, when he left Wuchow, there was a great clanging of gongs and blowing of whistles. The people were in a most excited state of mind and crowded the streets and housetops, says the South China Post.

Inquiry as to this unusual state of affairs elicited the information that seventeen of the most notorious robbers of the district, men who had kept the inhabitants in terror for a long time past, had paid the penalty of their misdeeds. It being impossible for the authorities to effect their arrest in the ordinary way, the tatal of the district enticed the robbers to his yamen by making an offer of a free pardon and other inducements to abandon their nefarious practices.

No fewer than seventeen of the ruffians swallowed the bait. Sixteen entered the yamen and were promptly surrounded by troops and made prisoners. One man escaped from the compound into the street, and ran for dear life. Another—the seventeenth man—suspected a trap and took to his heels without entering the official residence. Meanwhile the troops were not handling the fifteen captives very gently. They were promptly stripped and without much ado were stripped and cut into a thousand pieces.

The enraged populace were not long in securing the two runaways and they met their end in the same manner in the streets. There was great rejoicing afterward and it is hoped that this lesson will have a deterrent effect on others whose haunts may be in the neighborhood.

COBALT WILL LAST.

The following is part of an article written by Alexander Dallos in "Business and Finance," a most reliable New York financial journal. It gives some idea of what the people of the United States think of the Canadian Cobalt country.

"The ores of Cobalt are justly claimed to be the richest in the world and consists mainly of Silver and Cobalt, with arsenic, nickel and, occasionally, gold. Think of shipping 100 car loads of ore averaging over \$300,000 per car, and all this ore taken from a depth of not over 50 feet! Selected car lots have gone as high as \$60,000 to \$129,000 per car and the average ore runs from \$1,000 to \$8,000 per ton. Geologists, experts and mining men generally were loath to accept Cobalt as a permanency, but to-day no class of men are more enthusiastic, for it is now proven that the deeper the shafts are sunk, the richer the ore becomes."

Captain Harris, a man of world wide experience as a mining engineer, says: "If you had asked me what I thought of Cobalt a year ago, I would have told you that it was altogether beyond precedent that such enormously rich values as we find here at Cobalt could last to any depth. To-day every indication from the entire section points to the strong probability of generally increasing values in depth throughout the field. I came here very much of a pessimist, but to-day I am an optimist—made so by close observation of actual conditions. Cobalt will last for years and make many fortunes."

Up to the present time, all the proven properties are located in Coleman Township, and, though the work has been carried on in the crudest way, many millions of ore have already been shipped and large dividends have been paid, in some cases as high as 200 per cent. To the investor, the Cobalt Mining Camp should prove particularly interesting for, so far, no mine has been sunk to a depth of 30 feet without finding shipping ore, and the Mining Laws of Ontario are so strict that no "wildcat" schemes can flourish there.

THE FAMINE IN INDIA.

Present Scourge Likely to be the Worst in Years.

The famine which is beginning in India promises to be the most severe scourge which has been visited upon the unfortunate natives. It is even invading fertile Bengal, which has hitherto been practically immune. As an instance of the fatal consequences of the scarcity of food in Bengal the following incidents are reported from the Village of Backergunj: Two men died of starvation. Another man, in despair at seeing his family suffering hunger, attempted to kill his wife, son and daughter, severely wounding them.

A BAD PLACE FOR DOGS.

Dresden Eats 2,500 of Them in Three Months.

The official statistics concerning the consumption of dog flesh at Dresden, Germany, have just been issued. They show that over 2,500 dogs have been eaten during the first three months of the year. The large amount of dog flesh consumed is believed to be due to the increased price of beef and mutton.

It is now proposed to turn the flesh of healthy dogs which are taken to the pound to account, and use them as food in the almshouses and such institutions, instead of destroying the carcasses, as is done at present.

CHIVALRY TO WOMAN.

Catholics of Australia Start Organization With Splendid Programme.

The Roman Catholics in Australia are always fertile in picturesque notions for binding their people in societies, guilds and orders. The latest device is the establishment of a new order of knighthood by Archbishop Carr, to be entitled "The Order of the Knights of Our Lady of the Southern Cross."

It is to appeal to the imagination of young Australian Romanists and to have for its objects: (1) To advance the honor due to women; (2) to promote the faithful fulfillment of the Christian duties of marriage; (3) to shield and preserve as far as might lie in their power female innocence; (4) to suppress indecency in words and actions; (5) to advance the cause of Christian chivalry by preserving women from being treated with open disrespect.

The entire scheme is warmly regarded by the Roman Catholic laity all over the Commonwealth.

AN INTERESTING BOOK BY A CANADIAN.

On Common Ground by Sydney H. Preston is a book of which one can speak with unstinted praise. It is not often that one finds oneself longing to get back any book, but one has this sensation with regard to this volume. It is a book difficult to drop from the first moment it is taken in hand and one to which the reader returns with real delight. It is partly, one must admit, because there is such fascination in the subject, but it is also because the narrative is so simple, lucid, satisfying. The book is full of pure, spontaneous, hearty humor, with no trace of coarseness or boisterousness. Every page is unpretentious, lively, racy. It is the most pleasant book of its kind we have seen for many a day.

Mr. Preston is a Canadian, almost a Torontonian, living as he does near Oakville. "On Common Ground" is his second lengthy work. His first book, "The Abandoned Farmer," received high praise from all sources. Canadians should be proud of this successful Canadian author. Both these books are published by the Copp, Clarke Company, Toronto.

"Did you show that account to Ardup again to-day?" "Yes, sir." "Did you tell him it had been on the slate long enough, and I'd like to rub it out?" "Yes, sir." "What did he say?" "He said it looked as if you were trying to rub it in."

A Cure for Fever and Ague.—Parlee's Vegetable Pills are compounded for use in any climate and they will be found to preserve their powers in any latitude. In fever and ague they act upon the secretions and neutralize the poison which has found its way into the blood. They correct the impurities which find entrance into the system through drinking water or food and if used as a preventive fevers are avoided.

SILENT CRITICISM.

A young minister who did not scruple to fish for compliments was once invited to take dinner with a reticent old elder.

Manipulate the conversation as he would, the young man could not get his host to say "sermon," and at last he boldly introduced the important subject by remarking directly:

"That was a fine text I had to-day." But the elder knew his man.

"Ou, ay," he replied, cautiously,

ROYAL MUSKOKA HOTEL.

This new, modern, up-to-date hotel was opened for the reception of guests in 1901. It is situated in the centre of the finest summer resort region in America, known as the Muskoka Lakes, within easy reach of the principal points in Canada and the United States. The interior of the hotel is planned to the best advantage for comfort, and convenience, special attention being given to ventilation and sanitary arrangements. Its spacious suites, with handsome bathrooms attached, are especially adapted to either large or small families. Cuisine and service are the best. Open for guests about middle of June. For further particulars, descriptive matter and all information write J. D. McDonald, Union Station, Toronto, Ont.

In the course of life we shake many hands—and many people.

Useful at All Times.—In winter or in summer Parlee's Vegetable Pills will cope with and overcome any irregularities of the digestive organs, which change of diet, change of residence, or variation of temperature may bring about. They should be always kept at hand, and once their beneficial action becomes known, no one will be without them. There is nothing nauseating in their structure, and the most delicate can use them confidently.

Only a mercerized religion needs to wear a label.

Do not give up in despair, you who suffer from obstinate disfigurements of the skin. Anoint the sore spots with Weaver's Cerate and purify the blood with Weaver's Syrup. All druggists keep them.

CURIOUS COSSACK CUSTOMS.

Many queer customs and usages are prevalent among the Cossacks of the Don. No man changes his clothing on a Monday. If he did it is believed that he would suffer from a severe skin disease. On Thursday no fat or flesh must be pickled or corned. If anyone neglects this the meat would be full of worms in a fortnight. Wool is not spun on a holiday, else the cattle will sicken and die. A hen is always given an uneven number of eggs to hatch, never an even number. Bones left from a dinner at a funeral are thrown into the river, else the dead will appear to the living in fearful shape; and at the same meal no one dare cut bread—it must always be broken.

It is better to right wrongs than to revenge them.

Some persons have periodical attacks of Canadian cholera, dysentery or diarrhoea, and have to use great precautions to avoid the disease. Change of water, cooking, and green fruit, is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

A HEAVY RESPONSIBILITY.

"Ain't you rather young to be left in charge of a drug store?"

"Perhaps so, ma'am. What can I do for you?"

"Do your employers know that it is dangerous to leave a mere boy like you in charge of such a place?"

"I am competent to serve you, madam, if you will state your wants."

"I think that I had better go to the store down the street."

"I can serve you just as well as they can and as cheaply."

"Well, you may give me a two-cent stamp, but it don't look right."

"Then this," asked the rejected suitor, "is absolutely final?" "Quite!" was the calm reply. "Shall I return your letters?" "Yes, please," answered the young man. "There's some very good material in them I can use again!"

Fred: "So you are really going to marry that young widow, eh?" Joe: "Yes." Fred: "She tells me you have promised to give up smoking." Joe: "Yes, sort of mutual sacrifice, as it were. She agreed to give up her weeds if I would give up mine."

MARTYRDOM DESCRIBED

Kingston Man Tells How He Suffered and How He Was Released.

"For years a martyr," is how Chas. H. Powell, of 105 Raglan Street, Kingston, begins his story. "A martyr to chronic constipation, but now I am free from it and all through the use of Dr. Leonhard's Anti-Pill.

"I was induced to try Anti-Pill by reading the testimony of some one who had been cured of constipation by it. I had suffered for eighteen years and had taken tons of stuff recommended as cures but which made me worse rather than better. Doctors told me there was no cure for me. Dr. Leonhard's Anti-Pill cured me."
