THE DELINEATOR

The Delineator for September is packed with good reading matter for everyone. AN EXCELLENT SHOWING.

It will be seen by a report elsewhere in this paper that our High School has again done well at the Departmental examinations. The report a year ago was most satisfactory, but this year is even better than last. Two or three of the strongest candidates failed by a few marks, but on the whole the standing of the school is excellent. Both teachers and students are to be congratulated on the good showing.

TOO NEAR THE CANAL.

It is said that trouble has arisen in connection with the extension of the Metropolitan Railway north from Newmarket. For a considerable distance north the track runs in the valley of the Holland River. It seems that in running the new canal it will be necessary to dam the water up in places which would cause it to overflow the Metropolitan tracks as at present located. The tracks will therefore have to be removed to higher ground, or the present grade elevated.

ANCIENT HISTORY

The following paragraph, which appeared in last Saturday's Globe, is taken from the Globe of August 12th, 1856:—"Ruffians visited the home of a Mr. Simpson, Vaughan township, and after smashing the windows, bound Mrs. Simpson, and stripping Mr. Simpson, covered him with a coating of tar and feathers. On the previous Thursday Mr. MacNair, a respectable farmer, received a threatening letter from the same gang, threatening to burn his barns. No efforts will be spared by the authorities."

WAYLAIED BY TRAMPS

Mr. Pearl Marsh when returning home from the village on Monday night about 10 o'clock was waylaid at Palmer's Corner by three husky individuals, one of whom as if by magic placed the cold steel of a revolver to his head, and as in days of old demanded his money or his life. Pearl with great presence of mind struck the arm of the revolver tramp which sent it spinning into the ditch and there made several detonations which undoubtedly frightened both tramps and waylaid. Pearl did the mile stunt home in about 8 minutes and never even waited to see what became of the tramps. Moral: Travel in couples in future.

THE MEN WE NEED.

The best man we have in our midst for the general good of the town is the one you will always see on the front seat in the progressive "band wagon." He is the first one to extend an open and warm hand to greet the stranger and welcome him to the prettiest town in the province. He will resent an insult to our town as quickly as he would a slur at a member of his family. He very politely invites the chronic croaker to "move on." He is ever ready to give his just proposition to every public enterprise. He talks up our town at home and abroad and believes it the best place in which to live, and desires to be buried here when he dies. Let us all try and be like this man for one year and our little town will take on new life and improve as never before in its history.

TENT MEETINGS CLOSED

The series of evangelistic meetings held in the park for two weeks closed Monday evening. The last service was a missionary meeting, when a large number were present from Toronto. The meeting was conducted by Mr. H. L. Stephens. Several young ladies from the city told about their "call" as missionaries, and Miss Young and Miss Morgan gave interesting accounts of their work in foreign fields. Mr. Geo. Stephens and Mr. W. Leishman also give interesting talks along missionary lines. The former is now preparing himself for the work in China, and the latter for India. The meetings during the fortnight were well attended and a lot of good earnest work was done, about 40 people testifying to a change of heart. Mr. Stephens who presided Monday evening announced that it was Rev. Mr. Bruce's intention, on his return from his holidays, to start a young people's class to which all young converts are invited.

FIRST H. S. ASSISTANT.

The Board of Education met Friday to select a first assistant teacher for the High School in place of Mr. Andrews, resigned. There were nine or ten applicants for the position recently advertised in the daily papers, all except one being females. After reading the applications and testimonials the Board selected two names which seemed to meet the requirements—Miss Frances Morden, B. A., Niagara Falls; and Miss Mabel Armstrong, B. A., of Whitby. Miss Morden was communicated with and has accepted the position. The young lady has taken an excellent standing at the University, and furnished the best of testimonials from her inspector and from the school in which she taught. Miss Morden has had two years' experience in teaching, she afterwards attended the Ontario Normal College where she obtained a teacher's certificate and graduated this year at Toronto University. At the last-named institution she took honors all through the course in the General Proficiency department. She also took the Classical option and also French, taking honors each year in those departments. In his testimonial Mr. J. H. Ball, M. A., Inspector of Schools for Welland Co., states that "Miss Morden is an excellent disciplinarian," the first qualification for a teacher in any school.
