THE DUCHESS' DOG.

The Duchess of Newcastle has some sixteen special canine pets, which roam about the house, and her particular favorite has a trick, when it fancies itself at all neglected, of going up to an Indian drum which hangs in the hall, and lustily drumming with its forefoot until it obtains the desired attention.

Reform must be well-heeled to stamp out an evil.

SWEDISH HANDICRAFTS.

Peasants do Much Good Hand Work—Result is Few Factories.

Sweden is the home of the handicrafts. In addition to manual training taught in schools, the most exquisite hand weaving, lace making, brass work, even pottery, is done by the peasants. Each district has its own patterns, which the peasants make and wear, deeming it unpatriotic to have aught to do with patterns of other localities. Because of the handicrafts Sweden has not many textile factories, although there are some where conditions of work are, for the most part, good. The people, however, are encouraged to continue hand weaving and to hold to their time honored industrial customs rather than to take the risk of a disturbed economic order due to a market glutted with shoddy trash. In all Sweden there are to-day only about ten thousand factories of all kinds, employing in all a little more than 265,000 workmen—not a great number out of a total population of more than 5,000,000.

WILL HAUL GRAIN NEXT SEASON.

Rapid Progress Being Made in the Construction of G. T. P.

"Canada will have a remarkable railway when the Grand Trunk Pacific is built," is the statement which was made recently by Mr. Collingwood Schreiber, chief consulting engineer to the Canadian Government.

"I have just come from the West, where I have been inspecting the portion of the line from Winnipeg to Edmonton. I drove the entire distance of the route from Portage la Prairie to Edmonton.

"The surveyors have found a splendid line. It is practically straight, and the maximum grade to the eastward is four-tenths of one per cent., and westward five-tenths.

"As the Grand Trunk Pacific people expect to do about as well through the mountains from Edmonton to the Pacific, and as the national transcontinental surveyors have practically secured these grades all the way from Winnipeg to the Atlantic, there is no doubt the line will be the best of all the transcontinental lines, and capable of the most economic administration and handling the greatest amount of traffic at a minimum cost.

"By autumn there will be over a hundred miles of the line west of Winnipeg railed, and there is little doubt the road will participate in the hauling of the crop next year. The settlers are going in with the road. Their shacks were seen dotting the prairie for the whole distance from Portage la Prairie to Edmonton.

"The company has sixteen surveying parties working to the west of Edmonton through the mountains. The contractors are encountering some difficulty in getting labor. However, there is no doubt the road will be built in a very short time."

AWFUL PREDICAMENT.

"Why were you so nervous when you were giving your evidence in the witness box?" asked Rose.

"The man who was cross-examining me was one to whom I was once engaged and threw over. Oh, it was terrible! I was afraid he would ask me my age out of spite, and I had never been on oath before."

A Pill for Generous Eaters.—There are many persons of healthy appetite and poor digestion who, after a hearty meal, are subject to much suffering. The food of which they have partaken lies like lead in their stomachs. Headache, depression, a smothering feeling follow. One so afflicted is unfit for business or work of any kind. In this condition Permelee's Vegetable Pills will bring relief. They will assist the assimilation of the ailment, and used according to direction will restore healthy digestion.

"Do you think that man who had a needle in his body for eighty years could have enjoyed anything like good health?" "No. I imagine he would feel only sew-sew."

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

CORRECT.

One day the pupils had learned that in certain regions it rains continually for six months. The teacher then put the question: "What do they raise here?" and from a little boy came the answer promptly: "Umbrellas."

CHINESE STUDENTS IN JAPAN.

Chinese students are still going to Japan in ever increasing numbers, at the rate of 500 or 600 a month. The total number has already reached over 15,000. Several schools which have been recently started in Tokio are especially for these students. The strictest measures are now being adopted by the Chinese Minister at Tokio and the Japanese authorities to control these young men, the Minister having given instructions to all that they must record their home address and their ancestry unto the third generation as well as their Japanese address, so that he may at any time be able to deal with them individually if occasion arises; and the Japanese have them closely under police surveillance.

THE GREAT NORTH COUNTRY.

Nimrod was a mighty hunter, but had he hunted in the "Highlands of Ontario," he would have been a mightier one. Nimrod hunted for glory, but those who go into the several districts of Northern Ontario hunt for game. Those Indians who made the first canoe of birch bark long ago, were our greatest benefactors. The children of those Indians know the canoe, and they know how to use it, and they know just where the moose and deer are to be found. They will be the best guides you ever had. The "The Muskoka Lakes," "Lake of Bays," "Maguelawan River," "French River," "Temagami," "Georgian Bay" and several other districts in this Great North Country abound with deer and moose. The best hunting on the American Continent is offered here. Write the undersigned for copy of "Haunts of Fish and Game," an illustrated publication issued by the Grand Trunk Railway System, giving all information, game laws, maps, etc., to G. T. Bell, General Passenger Agent, Montreal.

Youngster (triumphantly): "Father, I am not sitting on the lowest form now." Parent: "That's right! Here's ten cents for you. But tell me how you came to pass on to the higher form." Youngster: "The lowest form is being painted."

It is a Liver Pill.—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, particularly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Permelee's Vegetable Pills. Their operation though gentle is effective, and the most delicate can use them.

EUPHEMISM.

First Friend (on deck of ocean steamer, to sea-sick companion): "Have you dined, old man?"

Second Friend (famously): "On the contrary."

A NEW AMERICAN NOVEL.

A novel by Arthur Goodrich, entitled "The Balance of Power," is announced for early publication. It is the story of the loves of two friends for the same girl, with a gripping, vital struggle of every-day American life as a background, a story of high ideals and courageous optimism. The publishers of this book, The Outing Publishing Company, say that it "grips you in the beginning and sweeps you off your feet in the end," and they boldly prophesy that it will be one of the best selling books of the year.

It is only necessary to read the testimonials to be convinced that Holloway's Corn Cure is unequaled for the removal of corns, warts, etc. It is a complete extinguisher.

"Did you hear there was a skeleton in Smith's family?" asked Jones. "You don't say so!" exclaimed his wife. "Where?" "Inside of Smith," replied Jones. And then he chuckled idiotically.

"Man is Filled with Misery."—This is not true of all men. The well, sound of lung, clear of eye, alert and buoyant with health, are not miserable, whatever may be their social condition. To be well is to be happy, and we can all be well by getting and keeping our bodies in a healthful state. Dr. Thomas' Electric Oil will help to do this.

Pikes were used in days of old The boarders to repel; We have to-day a different way, The prune does just as well.

The manufacturers number of the Winnipeg "Commercial" published by the Hugh C. MacLean Company Limited, of Winnipeg, Vancouver, Toronto and Montreal, is exceptionally brilliant and reflects great credit on its publishers. Every manufacturer in Canada should see this publication.

THE CLERICAL OPTIMIST.

Bachelor: "It's my opinion that marriage is a failure."

Clergyman: "You are decidedly wrong. My last month's wedding fees will buy my wife's clothes for a year."

Nearly all infants are more or less subject to diarrhoea and such complaints while teething and as this period of their lives is the most critical, mothers should not be without a bottle of Dr. J. D. Kellogg's Dysentery Cordial. This medicine is a specific for such complaints and is highly spoken of by those who have used it. The proprietors claim it will cure any case of cholera or summer complaint.

CURIOUS BEQUESTS.

By his will a rich landowner named Bielau, who has died in Loennewitz, Saxony, leaves a large property to the military authorities, which, in case of war, is to be sold and two-thirds of the money given to the soldier who captures the first standard from the enemy, and the third part to the first soldier who captures a gun.
