**REMARKABLE WRECK-RAISING.** A somewhat unusual operation in wreck-raising has been carried out in Kiel harbor. Some time since the torpedo-boat "S 126" sank in port after collision with another war-vessel, and notwithstanding the known condition of the sunken boat, the authorities decided to have it brought to the surface. For this purpose two floating cranes of formidable dimensions were utilized, and the broken and twisted hull was fished up from the depths and swung through the air like a bale of merchandise to a lighter, on which it was laid. The boat was of steel, and it is proposed seriously to essay and turn the apparently inextricable mass to some use.

## FROM BONNIE SCOTLAND

### NOTES OF INTEREST FROM HER BANKS AND BRAES.

#### What Is Going On In the Highlands and Lowlands of Auld Scotia.

Major E. W. Blunt, the husband of the Countess of Cromartie, has assumed the name of Blunt-Mackenzie. Her surname, like that of her son, Vicount Tarbat, remains Mackenzie.

The largest quantity of fish that has ever been brought to Kirkwall during a period of four days, was landed there recently, 13 large Grimby trawlers landing 200 tons of fish.

The top stairs in a house in Walmer Crescent, Ibrox, a fashionable Glasgow suburb, collapsed the other day, and brought down the lower staircase. The tenants were rescued by means of a fire-escape.

The coming of age of Mr. John Peter Grant, jr., of Rothiemurchus, son of Sheriff Grant of Rothiemurchus, was celebrated by several functions held at the Doune House, Rothiemurchus, near Aviemore.

The death has occurred at Berwick of Mr. Thomas George Turner, a well-known townsman. Mr. Turner was 74 years of age. He had been for the past quarter of a century secretary of the Berwick and Tweedmouth Gas Company.

Sir Wm. White is a believer in the turbine for maritime propulsion purposes. In a lecture on the 26th ult in London, on "Modern Warships" he referred to the turbine machinery of the Clydebank-built Cunarder Carmania as a marvel of modern engineering. He expressed satisfaction that the turbine is to be adopted in all new British war vessels.

After six years' waiting, the Victoria cross and donation, together with the usual annuity, has been received by John Ross, who was a trooper in the Highland Mounted Infantry at Paardeberg, and at great personal risk ran to a wounded officer's aid and carried him out of the zone of fire. The incident was seen by General Lyttelton. Ross is now a gardener in the employment of an Elgin nurseryman. He is 33 years of age and a native of Aberdeen.

Information has been received at Stornoway of the death at Lucerne of Mr. William Lees, an old and well-known citizen of Stornoway. The deceased, who was 84 years of age, was in his early life a shipmaster, having served his apprenticeship with his father, who was a well-known master mariner, sailing out of Stornoway in his own vessel, in which he visited nearly all parts of the world. After his retiring from the sea, Mr. Lees was appointed harbor-master and collector at Stornoway.

Mr. George Ferguson, the oldest master joiner in Glasgow, has died at his residence in Lenzie. Born eighty-four years ago at Carstairs, deceased became a joiner on his own account as far back as 1846, and among his contracts were Coats' Spinning Mills, Paisley; Kelvingrove Art Galleries, and the Technical College. He was a widely travelled man, and was a keen curler and bowler.

The Docks and Pilotage Committee of the Aberdeen Harbor Board reported that they had under consideration the subject of providing an additional pontoon dock. They recommended that, as suggested by the harbor engineer, the dock should be 150 feet long, 42 feet wide, with draft on keel blocks 16 feet, and a lifting capacity (deadweight) of 600 tons, to cost £17,850.

There has passed away in her hundredth year Miss Macrae, who resided with her nephew, Bailie Macrae, Beechwood, Nairn. She retained all her faculties up to the last, and could tell many stories relating to stirring times of last century. Miss Macrae was present in Ferintosh Church when the joyful news of Wellington's victory at Waterloo was announced, and she could recall the rejoicings in Aberdeen on the coronation of Queen Victoria.

### HEALING PROPERTIES OF WATER.

There is no remedy so easily obtained as water, and yet nine persons out of ten will pass it by in the emergency to seek for something of less efficacy. There are but few cases of illness where water should not occupy the highest place as a remedial agent.

A strip of flannel or a napkin folded lengthwise and wrung out of hot water and applied around the neck of a child who has croup will usually bring relief in a few minutes. A towel folded several times, then quickly wrung out of hot water and immediately applied over the seat of the pain in toothache or neuralgia will afford prompt relief. This treatment in colic works like magic. Cases on record having resisted other treatment for hours have yielded to this treatment in ten minutes.

Pieces of cotton batting dipped in hot water, then applied to all sores and new cuts, bruises and sprains is the treatment now generally adopted in hospitals. Hot water taken freely half an hour before bedtime is an excellent cathartic in the case of constipation, while it has a soothing effect on the stomach and bowels. This treatment, continued for a few months, together with proper attention to diet, will alleviate mild cases of dyspepsia.

Mother—"I hear that Mr. Jones had the impudence to kiss you at the station. What did you do?" Daughter—"Oh, I kissed him too, so as to make the people think we were relatives."

### SCOURGE OF AFRICA.

#### Cure for Sleeping Sickness Said to Have Been Found.

Two Europeans are reported to have been cured of sleeping sickness in the Watermael Hospital.

The authorities decline to give details at present, but it is understood that the treatment consisted of the injection of strychnine and atoyl.

British, French and German investigations have been made in Africa to combat this strange disease, which has swept away hundreds of thousands of natives. Hitherto it has been regarded as incurable.

Its ravages have been described by Livingstone, Selous and other pioneers of exploration on the Dark Continent, and Col. David Bruce discovered that it was caused by the parasite "Trypanosoma," which is carried by the tsetse fly.

The disease is at first often put down to laziness, but develops until the victim cannot keep himself awake, and may fall asleep at any time, even while eating. He wastes to a skeleton, and in eight months at the outside is a dead man.

DO NOT ALLOW yourself to become alarmed because you have lost your appetite and are losing flesh, but commence taking "Ferrovin" the best tonic. It will build you up quickly.

Ethel: "I rather like that young Doubleday. He has a good firm mouth and chin." Myrtle: "Goodness! Has he been kissing you, too?"

There can be a difference of opinion on most subjects, but there is only one opinion as to the reliability of Mother Graves' Worm Extirminator. It is safe, sure and effectual.

Mistress: "Bridget, I don't suppose you mind having dear little Fido in the kitchen with you when we go out?" Bridget: "No, mum; Oi loike t' have him here. Ysee, whin things go wrong an' Oi gits me dander up it's a moighty big relief to have something to kick round."

Be There a Will Wisdom Points the Way.—The sick man pines for relief, but he dislikes sending for the doctor, which means bottles of drugs never consumed. He has not the resolution to load his stomach with compounds which smell villainous and taste worse. But if he have the will to deal himself with his ailment, wisdom will direct his attention to Parmelee's Vegetable Pills, which, as a specific for indigestion and disorders of the digestive organs, have no equal.

### NEW ZEALAND'S PROSPERITY.

The general prosperity of New Zealand is remarkable. Out of a population of a little less than 1,000,000 one-third have money in the savings banks. The wealth per head is nearly £300, which is the largest of any country in the world. Statistics show for New Zealand the highest health and the lowest death rate of any country.

### Dear Mother

### A CLOUD OF HAY.

At Sprimont, in Belgium, on June 7th, an hour before noon, people at work in offices were surprised by a sudden darkness which obscured their rooms. Going outdoors, they saw above the centre of the town a dense cloud, like a great mattress, which hid the sun. Here and there the extraordinary cloud was gathered into thick flocculent masses, from which filaments were seen falling to the earth. These filaments turned out to be sprays of hay, and in a short time they lay thick in the market-place. The cloud was composed of a great quantity of hay, which had been carried up into the sky by a whirlwind, and then transported to a great distance by the wind. The cloud drove from north to south, and occupied nearly 10 minutes in passing over the town.

### SEEMINGLY.

"Life," moralized the doctor, "is not what it seems."  
"Perhaps," suggested the professor, "you have never looked on the seamy side of it."

It Needs no Testimonial.—It is a guarantee in itself. If testimonials were required they could be furnished in thousands from all sorts and conditions of men in widely different places. Many medicines are put forth every year which have but an ephemeral existence and then are heard of no more. Dr. Thomas' Electric Oil has grown in reputation every day since it first made its appearance.

Harry: "Blanche says she has insuperable reasons for remaining single." Horace: "Yes, I know what they are." Harry: "Then she has told you?" Horace: "No; but I have seen her."

MONTH AFTER MONTH a cold sticks, and seems to tear holes in your throat. Are you aware that even a stubborn and long-neglected cold is cured with Allen's Lung Balm? Cough and worry no longer.

Ferdinand: "And do you really love me?" Penelope: "Love you, Ferdinand? Why, only yesterday papa asked me if I wouldn't sooner have a pug dog, and I refused!"

Are you a sufferer with corns? If you are, get a bottle of Holloway's Corn Cure. It has never been known to fail.

"Madam," said the master of the house, authoritatively, "when I put my foot down it stays there!" But the little tuck on which he brought it down took all the point out of his illustration.

THE JAPS did it. They applied the Menthol found in the "D & L" Menthol Plaster, which relieves instantly headache, neuralgia, rheumatism and sciatica.

Mrs. Hastymatch: "I had a dozen proposals before yours. And from smaller men than you, too." Mr. Hastymatch: "They must have been. How did they manage to crawl out of it?"

Some persons have periodical attacks of Canadian cholera, dysentery or diarrhoea, and have to use great precautions to avoid the disease. Change of water, cooking, and green fruit, is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

### NO COLORS IN ACTION.

Some people may not know that colors are now taken into action. Before a regiment proceeds on service, the colors are placed in safe custody as suits such honorable insignia, and "when Tommy comes marching home again" they will be all the fresher for not being carried through dusty lands and trying rivers. The men whose duty it would have been to carry them and stand by them to the last are nowadays employed in less sentimental, if more useful, duties.

"His wife is very accomplished. She can cook or play a piano with equal facility." "That is an accomplishment. I have never before heard of anyone cooking a piano."

A Clear Healthy Skin.—Eruptions of the skin and the blotches which blemish beauty are the result of impure blood caused by unhealthy action of the liver and kidneys. In correcting this unhealthy action and restoring the organs to their normal condition, Parmelee's Vegetable Pills will at the same time cleanse the blood, and the blotches and eruptions will disappear without leaving any trace.

Passer-by: "I thought you were blind?" Mendicant: "Well, mister, times is so hard and competition is so great, that even a blind man has to keep his eyes open if he wants to do any business at all."

A SKIN THAT BURNS with eczema, and is covered with eruptions that discharge a thin fluid, may be made smooth and slightly with Weaver's Ointment. But this external remedy should be used in conjunction with Weaver's Syrup.

A gentleman who was on a visit to Niagara (when the car raised and lowered by steam-power was in use) went into the starting-house to witness the descent, being too timid to go down himself. After the car started, fully impressed with the danger, he turned to the man in charge, and said, "Suppose the rope should break?" "Oh," replied the man, who had no eye for anything but business, "they all paid before they went!"
