48 HOURS AT PIANO.

Napoleon Bird Establishes a New Record Thumping "Dominoes."

Napoleon Bird, of Stockport, England, has established a record for a non-stop run on the piano. For 48 hours he hammered away at the keys without a stop.

But this forty-eight hours' flow of melody was not achieved without physical discomfort. Mr. Napoleon Bird is fifty-one years old, and his muscles are not so limber as they used to be, but Mrs. Napoleon Bird sat by his side for all the forty-eight hours, and her presence revived him in moments when his task appeared monotonous.

In the latter stages of this struggle between melody and time Mr. Napoleon Bird showed signs of excusable exhaustion and pardonable drowsiness. He was rescued from both by gentle showers of eau de cologne, which were sprayed on him. In the course of the last day also a barber shaved him to slow music.

As the hands of the clock approached the hour of ten the enthusiasm of the audience knew no bounds, and when the clock struck and Mr. Napoleon Bird lifted his hands from the keyboard he was seized and carried in triumph through the streets to his home.

During the forty-eight hours he performed 1,500 separate compositions, accompanied three concerts, and played twice for dancing. A slight swelling of the fingers and cramp in the legs were the only ill-effects of his strenuous exertions.

A change of piano became necessary owing to the stiffness of the keys, but a skillful manoeuvre enabled Mr. Bird to change instruments without losing a note of the song he was playing.

Catarrh for twenty years and cured in a few days.—Hon. George James, of Scranton, Pa., says: "I have been a martyr to Catarrh for twenty years, constant hawking, dropping in the throat and pain in the head, very offensive breath. I tried Dr. Agnew's Catarrhal Powder. The first application gave instant relief. After using a few bottles I was cured. 50 cents.—1

"Why on earth are they encoring this woman?" "Perhaps they see that she wants practice."

A Time for Everything.—The time for Dr. Thomas' Electric Oil is when croupy symptoms appear in the children; when rheumatic pains beset the old; when lumbago, asthma, coughs, colds, catarrh or earache attack either young or old; when burns, scalds, abrasions, contusions or sprains come to any member of the family. In any of these ailments it will give relief and work a cure.

A small boy's idea of a good time includes all the things his parents forbid him to do.

"Thought it meant death sure."—Mrs. James McKim, of Dunnville, Ont., says of her almost miraculous cure from heart disease by Dr. Agnew's Cure for the Heart: "Until I began taking this remedy I despaired of my life. I had heart failure and extreme prostration. One dose gave me quick relief and one bottle cured me. The sufferings of years were dispelled like magic."—3

"Bridget, did you make that chicken broth?" "O' did, mum." "I can't find it anywhere about; what did you do with it?" "Sure an phwat ilse would I do wid it but fade the chickens wid it, mum?"

ITCH, Mingo, Prairie Scratches and every form of contagious Itch on human or animals cured in 30 minutes by Wolford's Sanitary Lotion. It never fails.

You can doubtless name a number of people who talk too much—including yourself.

The Most Popular Pill.—The pill is the most popular of all forms of medicine, and of pills the most popular are Parmelee's Vegetable Pills, because they do what it is asserted they can do, and are not put forward on any fictitious claims to excellence. They are compact and portable, they are easily taken, they do not nauseate nor gripe, and they give relief in the most stubborn cases.

It's a fortunate thing for some office-holders that killing time isn't punishable by hanging.

SCALD HEAD is a disgusting and obstinate disease, frequent in children. Treatment: Perfect cleanliness and a generous application of Weaver's Cerate. Mothers will be glad to learn this.

THE ZULU WAR CRY.

The Zulu war cry, used whenever they take the field by the South African footballers now in London, has puzzled our newspapers, not one of which seems able to spell it correctly. The Daily Express gives it as "Igamilzho," and the Daily Mail as "Gammillo." The cry really consists of two words, and should be written "Igama layo." "Igama" is Zulu for "name," and "layo" is a possessive pronoun, meaning either "his" or "their." Thus the Daily Mail, although quite wrong in its orthography of the cry, is right in saying that it merely means "That is his name." The explanation is that Zulu etiquette does not allow warriors, when they rush into battle, to mention the names of their enemies, but the leaders shout out, "That is his name," pointing to the victims with their spears.

NO TROUBLE.

Flannery: "What rind do they charge for a house like yours?" Finnegan: "Twelve dollars." Flannery: "My, that's high. Don't ye have trouble gettin' it together?" Finnegan: "Faith, O' don't, but the agent does."

AN ENGLISH MISER.

John Camden Neild, whose magnificent bequest to Queen Victoria supplied the funds out of which the Prince Consort built the present Balmoral Castle, deserves a place among the great misers and was as remarkable a man as any of them. He was educated at Eton and Trinity College, Cambridge, and was a barrister at Lincoln's Inn. At the age of 34 his father's death placed him in possession of a fortune of £250,000, and from that moment he became a confirmed miser. Neild lived at 5 Cheyne walk, Chelsea. His big house was so meanly furnished that it did not even boast of a bed. Two old women, who did his stoves, and a black cat were his sole companions. When he visited his large estates in the Midlands, which he did frequently, he generally walked, unless he could get a lift for nothing, and he was not even above taking a gratuitous seat on a dung cart. Sometimes he was compelled by the weather to take a seat on the stage coach. And there he would sit outside, shivering and dripping—for he never wore a greatcoat—an object of commiseration to his fellow passengers.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell.

SHILOH
This remedy should be in every household.

Rich Heiress (scornfully): "So you're still on earth? I understood you to say, when I rejected you last season, that you could not possibly live without me." Jack Ardupp (cheerfully): "I'm not living. Merely managing to exist by means of the most rigid economy, that's all."

Signals of Danger.—Have you lost your appetite? Have you a coated tongue? Have you an unpleasant taste in the mouth? Does your head ache, and have you dizziness? If so, your stomach is out of order and you need medicine. But you do not like medicine. He that prefers sickness to medicine must suffer, but under the circumstances the wise man would procure a box of Parmelee's Vegetable Pills and speedily get himself in health, and strive to keep so.

Often on the green leaves of trees there are little black spots which do not seem to arise from any disease, as the plant looks otherwise healthy enough. As a matter of fact, these are caused by burning, through the rays of the sun getting focussed by the drops of morning dew.

Two Years Aged.—"For eight years I suffered as no one ever did with rheumatism; for two years I lay in bed; could not so much as feed myself. A friend recommended South American Rheumatic Cure. After three doses I could sit up."—Today I am as strong as ever I was."—Mrs. John Cook, 237 Clinton street, Toronto.—2

Perambulating barbers, shaving customers in the street, are no unusual sight in the side streets of Manila.

BY BRIBING THE NERVES with opium you may stop a cough but the inflammation goes from bad to worse. Allen's Lung Balsam, containing no opium, goes to the root of the trouble and cures deep-seated affections of throat and lungs.

Newlywed: "Why, I never thought of saving until I got married." Bachelor: "And do you now?" Newlywed: "Oh, yes, indeed! I am continually thinking how much I might save if I wasn't married."

Bickle's Anti-Consumptive Syrup is agreeable to the taste, and is a certain relief for irritation of the throat that causes hacking coughs. If used according to directions it will break the most persistent cold, and restore the air passages to their normal condition. There is no need to recommend it to those familiar with it, but to those who seek a sure remedy and are in doubt what to use, the advice is—try Bickle's Syrup.

NEEDED NO HELP.

Waiter: "H'm! So you object to the butter? Why didn't you ask me to remove it?"

Diner: "I supposed it was strong enough to get away without assistance."

THE PRICE OF SUCCESS.

Eternal vigilance is the price of success, and it is in this way that the success of the Starr Mfg. Co.'s hockey skates and sticks has been bought. The makers are ever on the alert to know what the hockey-ists' requirements are and in this way incorporate these features which make their line the most popular in the market. They are also alert to see that their goods cannot be excelled in quality of materials and workmanship. This policy, which will always be maintained, has made the firm and its goods famous thousands of miles away from the little Nova Scotian town where the factory is situated.

The license of the Castle Hotel, Preston, which has been in existence since 1623, has now elapsed. The property has been purchased by a local newspaper firm for business purposes.

The healthy glow disappearing from the cheek and moaning and restlessness at night are sure symptoms of worms in children. Do not fail to get a bottle of Mother Graves' Worm Exterminator; it is an effectual medicine.

WHY SEA-SHELLS MURMUR.

The reason why one can hear sounds like the roaring of the sea when certain shells picked up on the beach are placed to the ear is quite simple. The hollow form of the shell and its polished surface enable it to receive and return the beatings of all sounds that chance to be trembling in the air around the shell.
