Interesting Gossip About Some Prominent People.

A short time ago the German Empress was asked by a very rich baroness what things in the world she would like best. "I can tell you very readily," said the Empress. "There are four things I prefer to all others, and they all begin with 'K.' They are my Kaiser, my kinder, my kirche, and my kuche" (my King, my children, my church, and my kitchen).

Mr. F. C. Selous, the famous hunter of big game, was nicknamed "Zealous" by his companions at Rugby. On leaving school he went to Switzerland to learn French and German. He rather started the worthy Switzers on one occasion by jumping into the Rhine clad in top-boots and great-coat. A duck which he had shot had fallen into the river, and he wanted to get it out.

Earl Roberts, who has given up his town house in Portland Place and gone to live in the country, has transformed his large collection of curios to his residence at Englemere, near Ascot. One of the most highly prized is a piece of dirty white rag, very much the worse for wear; and many seeing it have wondered what on earth it was doing among the other curios. It is the "white flag" that General Cronje sent to Lord Roberts intimating his surrender at Paardeberg.

It is interesting to note how rapidly the members of the English Royal Family are dividing up the Royal spoils of Europe. An English Princess is on the throne of Norway; another, Princess Margaret of Connaught, will some day wear the Swedish crown. The daughter of the late Princess Alice, King Edward's sister, is now the Czarina; the son of the Duke of Albany is Duke of Saxe-Coburg-Gotha; the eldest daughter of the Duke of Edinburgh is Crown Princess of Roumania; the Crown Princess of Greece is a daughter of King Edward's eldest sister; while a daughter of Princess Henry of Battenberg is on the Spanish throne.

Easily first among lady astronomers is the gifted wife of Sir William Huggins. It is not only since her marriage that Lady Huggins has devoted herself to star science. The most treasured possessions of her early girlhood were a small telescope and star atlas. Sir William Huggins's house at Tulse Hill is splendidly fitted for the study of the stars, but Lady Huggins declares that the first requisite for a British astronomer is a broken heart. If the organ is not fractured already, the vagaries of the terrible British climate, to say nothing of London fog and smoke cutting off all observations for weeks together, will effectually break it for him.

DEADLY PARALLEL.

"You drink beer in winter to make you warm and in summer to keep you cool," sneered the maid.

Chaplain: "This is your third term in this prison. Are you not ashamed to have your friends see you here?"

Abashed Convict: "Indeed, I am. The prison is disgraceful. The reception-room smells like a tap-room, the cells are dark as caves, the governor is no gentleman, and the table is not fit to sit down to. Ashamed to have my friends come here? I am mortified every time I see them; but what can I do?"

Pe-ru-na Relieves Spring Catarrh

MISS DORA HAYDEN.

"Without hesitation I write to thank you for the great relief I have found in your valuable medicine, Peruna, and will call the attention of all my friends suffering with catarrh to that fact. Besides I cheerfully recommend it to all suffering with catarrh in any form."—Miss Dora Hayden, 819 6th St., S. W., Washington, D. C.

A CASE OF SPRING CATARRH.

Mrs. N. P. Lawler, 423½ N. Broadway, Pittsburg, Kas., writes: "Last spring I caught a severe cold, which developed into a serious case of catarrh. I felt weak and sick, and could neither eat nor sleep well.

"A member of our club who had been cured of catarrh through the use of Peruna advised me to try it, and I did so at once. I expected help, but nothing like the wonderful change for the better I observed almost as soon as I started taking it. In three days I felt much better, and within two weeks I was in fine health. Peruna is a wonderful medicine."

Do Not Delay.—When, through debilitated digestive organs, poison finds its way into the blood, the prime consideration is to get the poison out as rapidly and as thoroughly as possible. Delay may mean disaster. Parmelee's Vegetable Pills will be found a most valuable and effective medicine to assail the intruder with. They never fail. They go at once to the seat of the trouble and work a permanent cure.

They had a dispute, and agreed to leave it to the military expert. "What bullet," they asked, "do you consider the deadliest?" For several minutes he remained in a brown study. Then he looked up with the air of one who had settled the matter finally and definitely. "The one that hits," he said.

CONSUMPTION IS NOT HEREDITARY

Such is the Decision of the British Medical Association.

The old theory of Consumption being hereditary has been completely exploded by the investigations of the British Medical Association. Consumption is purely and only a germ disease. But lung weakness and contracted chest, which is commonly constitutional or inherited, form especially favorite soil and conditions for the lodgment and the development of consumption germs or tuberculosis. One of the world's most famous physicians spent his life studying this disease and finding a cure. As a result he gave to the world the most remarkable and successful cure for tuberculosis, and all the conditions that lead up to it, that has ever blessed the human race. That one word "Psychine" embraces the life work of one of the world's greatest benefactors. Thousands upon thousands owe their life to Psychine. Space permits only one testimony now:

"Several years ago my wife was so seriously ill of lung trouble as for months to be unable to walk, at which time a noted physician told me that the next dress that I would buy for her would be a shroud. She used Psychine and is now reasonably well.

"Another case that came under my notice was Mr. Galbraith.

"His was an extreme case; apparently, so far as I could judge, a hopeless case, and yet he is now so much improved as to be away on a visit. Previous to going he was gaining at the rate of 3½ pounds per week, and was again quite well and able to walk about. The doctors absolutely gave him up."

REV. C. E. BURRELL, Baptist Minister, Forest, Ont.

Psychine is a world-famed remedy for the cure of all those troubles that lead to Consumption, such as coughs, colds, La Grippe, chills, bronchitis catarrh, night sweats and all stomach and wasting diseases. PA STOOD THIRD.

"I've got a wonderful boy," said the father of five. "My oldest, I mean. He came to me the other night with a subject for composition. He asked me off-hand to write it for him. I put down my paper and wrote it. I flattered myself that I did rather well with that composition, it having been some time since I had had occasion to write one—but I hardly expected the encomium I got from him. The next day at dinner time he came rushing home, hurried up to me and slapped me on the back.

"Hurrah for you, Pop!" he cried. "You are all right. You stand third in the class."

THE REMEDY.

Tramp: "Madam, I am suffering from indigestion."

Lady: "Why, I'm sorry. What can I do to help you?"

Tramp: "Madam, you can cure me instantly by giving me something to digest."

AS TO EXTRAVAGANCE.

Spendall: "If I'd known you were so extravagant I would never have married you."

Mrs. Spendall: "If I hadn't been, papa would never have let you."

Prevent Disorder.—At the first symptoms of internal disorder, Parmelee's Vegetable Pills should be resorted to immediately. Two or three of these salutary pellets, taken before going to bed, followed by doses of one or two pills for two or three nights in succession, will serve as a preventive of attacks of dyspepsia and all the discomforts which follow in the train of that fell disorder. The means are simple when the way is known.
