**A TRIUMPHAL TOUR.**

Visit of South Lancashire's Band to Calais and Lille.

If the band of the 2nd South Lancashire Regiment had been a company of victorious soldiers it could not have had a more triumphant welcome than it had on its recent trip from Calais to Lille, France, where it was to play at a charity concert.

In the black hours of night Calais citizens stormed the gangway to the mail-boat, and a Lille committee, in evening dress, welcomed Colonel Adam and his sixty-one khaki-clad bandmen. To the accompaniment of songs they marched to supper in the Grand Hotel at 2 a.m., and were astrif again in full dress at 6. The municipal band escorted them to the Town Hall for the Mayoral welcome before the station was reached.

At the rampart at Lille the artillery fired a salute of twenty-one guns; for a mile out the railways was lined with a flag-waving crowd, and as the train entered the station five massed military bands struck up "God Save the King." The Lancashires gave three tremendous cheers for the French, and then began a triumphal march through crowded and beflagged streets. Thousands of holiday-attired people cheered again and again. At the City Hall the Mayor offered champagne, and reminded his hearers that red coats and red trousers had not fraternized since the Crimea. Then to the Prefecture, another welcome, and more champagne. Then to the official residence of the General Commanding the district, who drank to the "noble British army."

A bevy of ladies invaded the General's saloons to chat with the British officers. After serenading them the band was taken off in flag-bedecked tramway cars to lunch, and at 4 o'clock twelve thousand people—everybody in the district is more or less of a musical critic—assembled in the Hippodrome to applaud enthusiastically, so well did the Lancashire play, notwithstanding their fatigue. The President of the committee went up on the platform and kissed blushing Bandmaster Harris on both cheeks, before handing him a great gold laurel leaf.

The General Commanding and all the officers of rank were present in uniform at night at the banquet in Hotel de l'Europe.

**BETTING BY "TOTALIZATOR."**

In New Zealand all horse-racing betting is done on the pari-mutuel system. With a population of only 70,000 a profit of \$400,000 per annum is made by the Government, and this is applied to the encouragement of agriculture and horse-breeding. Sir Walter Gilbey advocates the placing of a totalizator on every racecourse in England. The system would bring in several millions a year to the Chancellor of the Exchequer.

**A Wide Sphere of Usefulness.**—The consumption of Dr. Thomas' Electric Oil, has grown to great proportions. Notwithstanding the fact that it has now been on the market for over thirty-one years, its prosperity is as great as ever, and the demand for it in that period has very greatly increased. It is beneficial in all countries, and wherever introduced fresh supplies are constantly asked for.

**AN ENGLISH GIRL'S PLUCK.**

Saved Herself From a Would-be Robber in Paris.

Miss Nellie McCarthy, an English girl of nineteen, who had gone to Paris to take a situation as a governess, had an exciting adventure with a would-be robber in the Rue Rambuteau.

She lost her way among the Paris streets, and asked a woman named Bassett to direct her to her hotel in the Rue St. Honore. The woman offered to show her the way, and led her instead to her own apartments.

The woman induced her to enter, and then locked the door and demanded Miss McCarthy's jewels and money. The English girl answered by producing a revolver and shooting the woman in the shoulder.

The police were called by the neighbors and explanations at the police station led to the release of Miss McCarthy. The woman Bassett is in the hospital and will be charged with attempted robbery.

**KIDNEY TROUBLE**

Suffered Two Years—Relieved in Three Months.

C. B. FIZER.

M. R. C. B. FIZER, Mt. Sterling, Ky., writes:

"I have suffered with kidney and bladder trouble for ten years past. Last March I commenced using Peruna and continued for three months. I have not used it since, nor have I felt a pain.

"I believe that I am well and I therefore give my highest commendation to the curative qualities of Peruna."

**Per-na For Kidney Trouble.**

Mrs. Geo. H. Simser, Grant, Ontario, Can., writes:

"I had not been well for about four years. I had kidney trouble, and, in fact, felt badly nearly all the time.

"This summer I got so very bad I thought I would try Peruna, so I wrote to you and began at once to take Peruna and Manalin.

"I took only two bottles of Peruna and one of Manalin, and now I feel better than I have for some time.

"I feel that Peruna and Manalin cured me and made a different woman of me altogether. I bless the day I picked up the little book and read of your Peruna."

**It is the business of the kidneys to remove from the blood all poisonous materials.** They must be active all the time, else the system suffers. There are times when they need a little assistance.

Peruna is exactly this sort of a remedy. It has saved many people from disaster by rendering the kidneys service at a time when they were not able to bear their own burdens.

**VERY INJURIOUS.**

"What is there about betting at horse races that is so bad for the health?" said young Mrs. Tokins.

"I never heard of anything," answered the visitor.

"Didn't you? Every time Charlie makes a bet he comes home and says there is something wrong with his system."

A Small Pill, but Powerful.—They that judge of the powers of a pill by its size, would consider Parmelee's Vegetable Pills to be lacking. It is a little wonder among pills. What it lacks in size it makes up in potency.

The remedies which it carries are put up in these small doses, because they are so powerful that only small doses are required. The full strength of the extracts is secured in this form and do their work thoroughly.

"Has young Dudleigh any occupation?" asked the dear girl's mother. "Indeed he has," replied the dear girl. "He's raising a moustache."

They are Carefully Prepared.—Pills which dissipate themselves in the stomach cannot be expected to have much effect upon the intestines, and to overcome costiveness the medicine administered must influence the action of these canals. Parmelee's Vegetable Pills are so made, under the supervision of experts, that the substance in them intended to operate on the intestines is retarded in action until they pass through the stomach to the bowels.

Definitions.

1. All boarding houses are the same boarding house.
2. Boarders in the same boarding house on the same floor are equal to one another.
3. A single room is one which has no parts and no magnitude.
4. The landlady of a boarding house is a parallelogram, that is an oblong angular figure that cannot be described, but which is equal to anything.

Postulates and Propositions.

1. A pie may be produced any number of times.
2. The landlady may be reduced to her lowest terms by a series of propositions.
3. A bee line may be made from any boarding house to any other boarding house.
4. The clothes of a boarding house bed though produced ever so far will never meet.
5. Any two meals at a boarding house are together less than one square meal.
6. If a line be drawn through the opposite ends of a boarding house passing through all the rooms in turn, the stove pipe which warms the boarders will be within that line.
7. On the same bill and on the same side of it there shall not be two charges for the same thing.
8. If there be two boarders on the same floor, and the amount of side of the one be equal to the amount of side of the other, each to each, and the wrangle between the landlady and the one boarder be equal to the wrangle between the landlady and the other boarder, then shall the weekly bills of the two boarders be equal, each to each. For if not, one will be the greater, then the other bill is less than it might have been, which is absurd.
