OSHAWA Galvanized Steel SHINGLES

The cheapest good They do shingle is the cost less "Oshawa." Good for a century's weather-wear. Guaranteed for 25 years without your even painting—"Oshawa" double-galvanized shingles need no paint to outlast any roofing there is. Make roofs fire-proof, too,—guaranteed in every way you want. Cheap in first cost as common wood shingles, yet more durable than slate. Sold under a written guarantee that really means something to the buyer.

You can't afford any other kind

Easy to put on With a hammer, a snips, and horse-sense anybody can roof buildings right with "Oshawa" Galvanized Steel Shingles. They need no cleats. They lock on all FOUR sides. Made in only one grade—of 23-gauge semi-hardened sheet steel in the patented "Oshawa" way

"Oshawa" Shingles are an investment, not an expense.

More than 100 farm buildings were destroyed by lightning. Not one of them would have been harmed if they'd been "Oshawa"-roofed. These shingles insulate a building—make it safe against every element. Let us tell you what it will cost you to roof the "Oshawa" way. Get our free book "Roofing Right" before you Roof a Thing

The Pedlar People of Oshawa

Ottawa 4-8 Sussex	Winnipeg 76 Lombard	Vancouver 615 Pender

A woman derives more satisfaction from the things she suspects than from the things she is sure of.

Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. These persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellogg's Dysentery Cordial, a medicine that will give immediate relief, and is a sure cure for all summer complaints.

WITCHCRAFT KITE.

Girl's Body Stolen From Grave, Bones Pulverized.

The Naples (Italy) Municipal Council is being prosecuted for a ghastly crime committed by unknown ghouls in a cemetery.

A little girl was buried there in July, 1905, and twelve months later it was arranged to transfer the remains to a niche in the little mortuary chapel. At the exhumation suspicion was aroused by the extraordinary light weight of the coffin, which, on being opened, was found to contain only the child's skull wrapped in straw, with the customary bottle, containing particulars of the deceased. Professors Antonelli and Fimiani, who examined the head, declared that it had been ruthlessly torn from the trunk soon after death.

The police investigations have resulted in the discovery that the girl's body was disinterred and the bones pulverized to serve for the rites of necromancy and witchcraft which are still so much in vogue among superstitious peasantry of that region.

As the actual malefactors have not been brought to justice, the parents are prosecuting the Town Council.

DIFFICULT CENSUS TAKING.

A Delicate Task in Egypt—Discovering Secrets of the Harem.

Egypt has been going through a series of questions and answers. It is the period of the decennial census. At home the taking of the census is a comparatively easy matter. Every householder has his or her sheet to fill up on a certain night and the collector fetches it on his rounds, and there the matter ends. But in Egypt there are insuperable difficulties in the way of such simple methods.

To begin with, as the illiterate class is large, it is manifestly impossible to get the forms filled in, writes a Cairo correspondent of the Pall Mall Gazette. So the Government has had to nominate an army of inspectors, who have been going from house to house and have powers to penetrate to the inner apartments in order to obtain full details.

Of course in a number of cases the natives, not understanding the cause, resent this intrusion, and some of the incidents have been most awkward. Moreover, very few of the fellaheen really know their ages, their ideas of time being fixed by events. Thus one man's reply to the questioner was that he was a boy working in his father's field when Alexandria was bombarded, and another that he remembered seeing the "malika fransawiya," evidently the Empress Eugenie, at the opening of the Suez Canal.

On the other hand, the women, unlike their Western sisters, do not consider age a thing to be ashamed of, and unblushingly admit, in some cases, quite ten years more than possibly is their age. The harems have been another obstacle to the completeness of the census, and in many instances the inspectors have had warm quarters for an hour with the surly and unwilling eunuchs who guard those portions of the Easterner's domicile.

Altogether the lot of a census inspector is by no means a happy one, and it cannot be wondered at that many of them fight shy of the job. The task requires no end of tact, patience and persuasive power, and, considering the difficulties in the way and the fact that the inspectors are empowered to hale recalcitrant inhabitants before the nearest magistrate or mamour, it speaks volumes for the able manner in which the inspectors have tackled their delicate task that very few cases have been reported.

A Cure for Costiveness.—Costiveness comes from the refusal of the excretory organs to perform their duties regularly from contributing causes usually disordered digestion. Parmelee's Vegetable Pills, prepared on scientific principles, are so compounded that certain ingredients in them pass through the stomach and act upon the bowels so as to remove their torpor and arouse them to proper action. Many thousands are prepared to bear testimony to their power in this respect.

A miner, accompanied by his mate, who was rather deaf, was walking along the railway line the other day near Ottawa. A train approached, and on hearing the men it gave forth an ear-piercing shriek. A smile broke over the deaf man's face. "Man," he said, "that's the first robin I've heard this spring."

Fever the Curse of the Tropics.—In the slow and tedious recoveries from this and all other disease "Ferrovim" is the best tonic. Remember the name, "FERROVIM."

Mrs. McDuff—"This paper says that mice are attracted by music, but I don't believe it." McDuff—"Why not?" Mrs. McDuff—"Because I never see any mice around when I play the piano." McDuff—"Well, that's no reason for doubting the paper's statement."

It is the Farmer's Friend.—The farmer will find in Dr. Thomas' Electric Oil a potent remedy for wounds or pains in the body or for affections of the respiratory organs and for household use generally. He will also find it a convenient friend in treating injured horses, cattle, etc., or relieving them when attacked by colds, coughs or any kindred ailments to which they are subject.

A young man who had a silent admiration for a young lady went with the intention of proposing to her one night. He sat gazing into her face for a long while, but at last, looking down suddenly, he exclaimed:—"There's a feather on your dress, Mary!" "No wonder," she said; "I've been sitting next a goose all night!"

SAVES MONEY.
"Do you find it more economical to do your own cooking?"
"Oh, yes. My husband doesn't eat half so much as he used to!"

Thos. Sabin, of Elington, says: "I have removed ten corns from my feet with Holloway's Corn Cure." Reader, go thou and do likewise.

Mr. Nurich (engaging valet): "I warn you that I am frequently ill-tempered and gruff." Valet (cheerfully): "That's all right, sir; so am I!"

In Nature's Storehouse There are Cures.—Medical experiments have shown conclusively that there are medicinal virtues in even ordinary plants growing up around us which give them a value that cannot be estimated. It is held by some that Nature provides a cure for every disease which neglect and ignorance have visited upon man. However, this may be, it is well known that Parmelee's Vegetable Pills, distilled from roots and herbs, are a sovereign remedy in curing all disorders of the digestion.

Bystander: "Should you say that picture was taken from life?" Critic: "I don't know; but the world wouldn't suffer if the artist was."

Mirrors are a nuisance in the house of a man whose face is branded with eczema. His own reflection shames him. Let him anoint his skin with Weaver's Corate and purify his blood with Weaver's Syrup.

Bertie—"Father, what is an egotist?" Father—"He is a man who thinks he is smarter than anyone else." Mother—"My dear, you are scarcely right. The egotist is the man who says that he is smarter than anyone else—all men think they are!"

ITCH, Mange, Prairie Scratches and every form of contagious Itch on human or animals cured in 30 minutes by Wolford's Sanitary Lotion. It never fails. Sold by all druggists.

He: "I am glad you have taken off that horrid veil." She: "Why, Henry?" He: "It was like a piece of paper around a lump of sugar."

Mother Graves' Worm Exterminator has no equal for destroying worms in children and adults. See that you get the genuine when purchasing.

Wife—"Percy, if a man were to sit on your hat, what would you say?" Husband—"I should call him a confounded silly ass." Wife—"Then don't sit on it any longer, there's a dear."

THE ROAD TO FORTUNE.

Here Pointed Out More Especially to Boys, but the Road is Open to All.

"It's hard work," said the boss, "to get anybody to do even the simplest things really well and to keep on doing them so; and I do love to meet people who do the work they have to do, no matter what it may be, thoroughly, and who have, besides, the sense and nerve to keep at it that way steadily."

"It is a positive delight to me to find a boy that makes a good job of sweeping out the store, who is not satisfied with giving it a lick and a promise—sweeping out the thick of it from the middle of the floor—but who digs into the corners and sweeps clean along the edges and makes a good, thorough, workmanlike job of it all through."

"Now, that sort of job of sweeping is a positive help to the business; it makes the store attractive, it actually gets into the atmosphere of the place and helps to draw people who would as surely be repelled if not driven away, by a store slacker kept. And now suppose this boy keeps right on so, unflinchingly; suppose he shows that he's really got the stuff in him; why, he gets the first chance there is for a step up, for the demand for men who can do things is greater than the supply, and then if he will only keep on doing things the way he began, he's got his future in his own hands."

"What is true of the boy sweeping the store is equally true of every other boy, in whatever work he may be doing, absolutely; for the whole secret of success lies in doing whatever your hands find to do well and faithfully."

"This is an old, old, oft-told story I know, but there's a fresh crop of boys coming into the field daily, to whom, ever, it must be new, and if but one of each day's crop would take the old story to heart, the world in general would be better off and the boy himself would profit by it greatly."

MAGNET IN EYE OPERATIONS.

In twenty-seven years Dr. J. Hirschberg, a German oculist, has used the magnet in 347 operations for removing particles from the eye. In the eight years ending 1903 he performed the operation 64 times, securing good and permanent vision in 36 cases. In nine of the 36 cases the bit of iron was removed from the vitreous, in 27 from the retina; 22 were fresh cases, and 14 were old. In 22 of the 64 cases the injured eye had to be taken out, the iron pieces being large or blood-poisoning following the injury. In four cases the magnet failed to remove the particles.

Husband: "My colleague is the most insalubrious man I ever saw. He wants everything he sees." Wife: "Can't you introduce our daughter to him?"

GIVE ME STRENGTH

This is the cry in these strenuous days, when business makes such demands upon us.

Exercise and fresh air are necessary if we would be strong, but the tendency of life to-day is towards conveniences and modes of living that deprive us of the very means of keeping our strength and health unimpaired.

We sit more, we sleep less, we eat richer and more artificial foods than formerly.

The natural remedy—the practical means of withstanding these inroads upon our safety—

Take the fresh air and sunshine when possible, that is—when going to and from work—
