#### Tornados Sweep Illinois, Indiana and Kentucky.

A despatch from Chicago says: Twenty-nine known dead and forty persons injured constitute the list of casualties resulting from storms of wind and rain which crept over southern Illinois and Indiana and central Kentucky on Friday night and Saturday. The fatal visitations came in the shape of cloudbursts, high winds and electrical disturbances. The property damage is many thousands of acres of growing crops destroyed.

Gradyville, Kentucky, was the worst sufferer. A cloudburst caused Big Creek to deluge that valage of 175 persons on Saturday night, and 21 persons were drowned or crushed by falling houses. The disaster was due to the erratic behavior of Big Creek, which was already swollen by recent rains. When the cloudburst precipitated 6 inches of rain in an hour on Gradyville and vicinity, the creek took a new course with the force of a tidal wave. Inhabitants of Gradyville were nearly all in bed when the foaming waters struck the town, carrying away six residences, a mill and

a number of small houses. At New Minden, Ill., a tornado Saturday morning killed five persons and in-

jured six others. At York, Ill., three persons were killed and thirty injured by a tornado which descended on the town Friday, night.

At Duquoin, Ill., many houses were blown down around the outskirts of the . town, and four persons were injured.

# BIG WALL FELL DOWN.

#### Crashed Through the Roof of a Livery Stable.

A despatch from Calgary says: On Saturday the whole side of the wall of the large wholesale building of the Cockshutt Plough Company fell with a crash, and crushed in the roof of the Alberta livery stable next to it. It made a hole about fifteen feet square through the roof of the stable, and crashed through the floor of the loft and came down in a stall in which two horses were tied. They were unhurt, but one horse that was loose in the corral at the rear of the stable was buried under the debris. It was a new building and an addition to the main building, facing the lane at the rear end, and was about fifty feet long, with two stories. The damage will likely be about \$10,000.

# NINE MONTHS' REVENUE.

# Amount Collected Up to March 31 Totals

\$67,701,005. A despatch from Ottawa says: The financial statement issued by the Department of Finance on Saturday shows that the revenue collected for the nine months fiscal period, ending March 31 last, now amounts to \$67,701,-005, and the expenditure on ordinary account \$51.182,056, leaving a surplus of revenue over expenditure of \$16,518,-949. The expenditure on capital account is \$14,238,490, or a surplus over all expenditures of \$2,280,458. A few accounts of the fiscal period have not yet been settled.
