RICHMOND HILL, ONT., July 25, 1907

LOWER THE RATES.

We understand the Metropolitan Railway management have under consideration a new commutation ticket to be known as the working man's ticket. This looks like a move in the right direction. A few weeks ago the price of commutation tickets between Richmond Hill and Toronto was raised from \$4.50 to \$6.00 for 15 round trips. In raising the rates the company acted within their legal rights, but that they showed wisdom is open to doubt. From a newspaper view it would seem that in order to make money—the desire of the Railway Company should be to induce people to move out of the city into the various villages and towns along the route of the railway. Country people are sure to make frequent trips to the city, but only occasionally do Toronto citizens find their way into the country. To build up the outside places, therefore, is to put money into the pockets of the Railway.

It is safe to say that a large number of commercial travellers and others came out from the city and bought homes in Richmond Hill and other places who would not be here to-day if the present rates for commutation tickets had been anticipated. To those who go to Toronto only a few times in the year it matters little whether the rate is two cents a mile or three cents a mile, but those who travel up and down nearly every day in the week are the men from whom the company gets the most money. It is to be hoped the Metropolitan management will make a rate which will induce travellers and workmen to move their families out of the crowded city.

Sir Wilfred Laurier has returned to Canada, and is being greeted on all sides by admiring citizens. While in Britain he was one of the prominent premiers at the Colonial Conference, and now that he is again on Canadian soil the various cities through which he has passed have vied with one another in their expressions of honor and good-will. It is gratifying to know that Canada's first citizen returns to his labors in the best of health and spirits.

The World of yesterday gave a two-column article bearing on Sir Wilfrid Laurier's Welcome Home. The World points out that the demonstrations everywhere in Quebec were magnificent, and after asking the question "What does it all mean?", that journal frankly answers in these words: "It means unmistakably that Sir Wilfrid Laurier still has the Province."

Recent dispatches say that Hon. Edward Blake has resigned his seat in the British House of Commons because of ill health. Mr. Blake has been member of Parliament for South Longford for the past fifteen years, the main object of his crossing the ocean being to assist in securing an Irish Parliament in Ireland. Doubtless he feels disappointed that his efforts have not been altogether successful although much has been done since Mr. Blake left Canada, to bring the English and the Irish people closer together. Mr. Blake has always been a gentleman of high ideals, clean in politics and private life, and while many will regret that the task of securing Home Rule for Ireland has not been accomplished they are pleased to welcome him back to the land of his birth. Mr. Blake, like other good and great men, will get credit by the historian, if not for what they accomplished, then for what they honestly endeavored to do.

There seems to be a movement all over the country against automobiles, or, more strictly speaking, against the drivers of automobiles. The law allows a speed of fifteen miles an hour on country roads, ten miles an hour in towns and villages, the speed to be lessened when meeting vehicles. The spirit of the law is not so much opposed to fast driving on country roads when no other vehicles are in sight as it is against carelessness in passing horses which may be frightened by the motors. It is said that owing to so much carelessness drastic legislation will be asked for at the next session of the Legislature. For this, chaffeurs have themselves to blame. It is a common practice with some horsemen to drive their horses slowly when no person is in sight, but to "touch them up" on entering a town or village in order to show their speeding propensities. With many of the automobilists it is much the same. They prefer to do their "scorching" in front of the grand stand.

MUSIC AT TORONTO EXHIBITION.

The Canadian National Exhibition will this year be strong in the matter of music. Among the Bands favored with an engagement outside those of Toronto are: The 27th Battalion Band, Peterboro; the 91st and 13th bands of Hamilton; the 19th of St. Catharines; Preston Silver Band and the Band of the Waterloo Musical Society.

Five members of the counterfeiting band under arrest at Lindsay, pleaded guilty before Magistrate Jackson and Moore on Monday, and were remanded until Friday for sentence. Their names are Charles Burke, Robert Logie, John Eveleigh, Richard Wynn, and Archibald Boyean.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, billowness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by W. A. Sanderson.
