## HAMAN'S GALLOWES.

"I would make the tariff as high as Haman's gallows if it is to keep the Yankees out." Thus spoke Mr. Edward Gurney to the Canadian Manufacturers' Association a few days ago in Toronto. Those who have been looked upon as golden words by some well-fed manufacturers, but the practical farmer is more concerned about getting binders, mowers, etc., at fair prices than he is in "keeping the Yankees out."

The Globe of Friday last demolished Mr. Gurney's anti-Yankee tariff in a few selected extracts from scripture, by which he appears to be placed on the elevation he proposes to erect for "Yankee" Mordecai.

The Canadian Manufacturers have never suffered from bashfulness, and their recent addresses indicate that they yet retain their nerve. President Cocksbutt apparently sees no difference between loyalty to the old flag, and loyalty to Canadian manufacturers. In his annual address on Tuesday of last week he advocated "firmly entrenching ourselves against foreign competition." His motto was "If you cannot get what you want at home buy within the British Empire." It is idle to endeavor to induce men to buy in the British market or in any other market if they can do better elsewhere. As long as the world stands men will buy in what they believe to be the cheapest market.

Mr. J. W. Curry is making a number of stirring addresses in support of his candidature for East York in the interest of the Liberal party. At Balmly Beach Saturday evening he advocated Government Ownership of the telegraph and telephone lines, and favored an export duty on pulpwood. Mr. Curry reiterated his expressed desire to have the campaign conducted on strictly honorable lines. Mr. Curry was prepared to give the Whitney Government credit for their efforts along the lines of cheap power for Ontario but he condemned the Government for shifting the settlement of many important matters upon the shoulders of a commission instead of grappling with these questions themselves. The Liberal candidate before closing his address paid warm tributes to Hon. A. G. McKay and Sir Wilfrid Laurier.

## BE KIND IN LITTLE THINGS.

The sunshine of life is made up of very little beams that are bright all the time. In the nursery, on the playground and in the school room, there is room all the time for little acts of kindness that cost nothing but are worth more than gold and silver. To give up something when giving up will prevent unhappiness; to yield when persisting will chafe and fret others; to go a little way around rather than come against another; to take an ill word or a cross look rather than to resent it; these are the ways in which clouds and storms are kept off and a pleasant, smiling sunshine secured even in a humble home, among very poor people, as well as in families in higher station. Much that we term the miseries of life would be avoided by adopting this rule of conduct.

## OCTOBER CANADIAN PICTORIAL.

A brown October maid, matching the tints of the waning season, looks out from the cover of the current issue of the Canadian Pictorial (142 St. Peter street, Montreal.) She is a truly Canadian, healthy, out-of-doors girl, and leaning on her rifle is proud of the trophies of the hunt which she has secured. The Canadian public man of the month is the Hon. G. P. Graham, the new Minister of Railways. As promised last month there are two pages of gems from the recent photographic competition. The terrible disaster near Quebec in which more than three score and ten men lost their lives, is strikingly illustrated. The distorted ruins of the massive steel of which the bridge was composed are shown with wonderful clearness. There is an intimate picture of the King as he is now and another taken in Canada forty-seven years ago. The riots in Belfast, the great pageants in England, and other current events are depicted. The woman's department includes seasonal furs, autumn millinery, rainy day dresses, and many other interesting features. The magazine has been enlarged considerably this month. Ten cents a copy, one dollar a year post-paid to any part of the world.
