

A NATIONAL LIVE STOCK CONVENTION.

A meeting of the Executive Committee of the National Live Stock Association was held on Thursday, November 7th, at the office of the Live Stock Commissioner, Ottawa, to consider the calling of the next convention of that body. The meeting was attended by President Hon. John Dryden, Toronto, Ont., the Vice-President Mr. Robert Ness, Howick, Quebec, Messrs. G. A. Gigault, Quebec, Que., Arthur Johnson, Greenwood, Ont., and J. G. Rutherford, Live Stock Commissioner. Owing to illness the Secretary, Mr. Westervelt, was unable to be present. The Hon. Sidney Fisher attended the meeting during the meeting during the early part of the day.

Arrangements were made for the holding of the next convention at Ottawa, on February 5th, 6th, and 7th, next. These dates were selected so as to permit the breeders from Western Canada and also from the Maritime Provinces to attend the meeting of the cattle, sheep and swine associations, most of which will be held at the end of January and during the first few days in February, as also the Horse Show and meetings of the Horse Breeder's Association which are arranged for the week following.

A programme for the convention was informally discussed but not definitely arranged. A number of subjects will probably be dealt with, but it is likely that the principal discussion will be on the advisability of amending the regulations governing the admission to Canada of pure bred stock. It is also proposed to take up and discuss the best means of retaining for our Canadian breeders the Canadian market for pure bred stock and it is probable that a number of specially prepared papers on this subject will be submitted. The future of our export trade in pure bred stock will also be discussed, while it is expected that considerable light will be thrown on our export trade in meats and meat food products.

The fact that a majority of the live stock meetings are to be held immediately prior to the convention will render it possible for these bodies to definitely instruct their delegates as to the stand they are to take on the various subjects likely to come up for discussion. While this advantage will not be shared by a number of the horse breeders' association, it is to be hoped that the latter will hold special executive meetings for the purpose of instructing their delegates to the convention.

News Notes.

The 29th Annual Meeting of the Ontario Agricultural and Experimental Union will be held at the Ontario Agricultural College, Guelph, on Monday, Tuesday, and Wednesday, Dec. 9, 10, and 11.

The Ontario Provincial Winter Fair will be held in Guelph on December 9th to 13th, inclusive. Reports received would indicate that the exhibits of Beef and Dairy Cattle, Sheep, Swine, Poultry and Seeds will be larger than ever before. Lectures will be delivered in the Lecture Room of the Fair Building each day during the Fair, starting on Tuesday evening. The topics dealt with will relate to questions of interest to breeders and feeders of the various kinds of Live Stock, Poultry and Seeds, and will be discussed by practical experts.

In 1907, co-operative experiments were conducted on upwards of seven thousand nine hundred farms throughout Ontario in the departments of Agriculture, Horticulture, Forestry, Poultry Raising, Apiculture, and Agricultural Chemistry. The number of co-operative experiments in the Department of Agriculture for the twenty-two years, from 1888 to 1907, has reached 45,065, and for Horticulture for the fourteen years, from 1894 to 1907, it has reached 8,136. Not only does the Experimental Union furnish financial aid to the experimenters themselves, and to the country as a whole, but it also encourages neatness and method in work, close observation, accurate calculation, thoughtful inquiry, and other important agencies which help so much in the education of the people.

TEN DOLLARS AND COSTS.

James Hunt of Carville laid an information against W. H. Smith of Toronto, before J. H. Sanderson, J. P., for unlawfully and carelessly running his automobile into complainant's road wagon, about half a mile south of Richmond Hill, on the 20th inst. The case was heard in the Council Chamber yesterday forenoon. Mr. Hunt gave evidence on his own behalf, and had as witnesses Wm. Munshaw, Thomas Prentice, and H. H. Hopper. Mr. Hunt, being sworn, said that he was driving north when he heard a horn blow, probably sixty yards behind. He turned his head and saw an auto coming. He was driving only a few feet from the car track, and at once pulled his horse a little closer. In a few seconds afterwards he was struck. The rig was overturned, he was thrown out on the car track and had his collar bone fractured. The rig was damaged, and he was stunned for a time. He demanded damages, but Mr. Smith refused. Both Mr. Hunt and his witnesses claimed that the road where the accident occurred was in good condition, about 30 feet wide between the car rails and the west ditch, and that there was plenty of room for the auto to pass.

The defendant stated that he was taking a man, his wife and four children to Barrie. He blew his horn and expected Hunt would give him half of the smooth road. When he came close Hunt's horse stopped to a walk, and then he (Smith) had not time to turn out, fearing he would endanger the lives of the occupants of the auto as the road was slippery. He disagreed with Mr. Hunt and his witnesses as to the distances Hunt was driving from the car track when the accident took place. He did not think Hunt kept the road on purpose, but laid the accident to the awkwardness of the latter's horse. His auto was damaged to the extent of \$40 or \$50. Mr. E. Frisby, County Constable, who was called said he had always found Mr. Smith fair as an automobilist.

The magistrate, in reviewing the evidence, said that he was satisfied the defendant had not taken proper precaution, but that owing to his good character and to the straightforward manner he had given his evidence, he would inflict the lowest penalty that the law would allow, \$10 and costs.

Mr. J. O'Connor appeared for Mr. Hunt.

WANTED
 At EDGELEY CIDER and JELLY MILLS
 20,000 bushels of Cider and Peeling Apples

As I have just received an order for Forty Tons of Apple Butter aside from my regular trade, I will need about twenty thousand bushels of cider and peeling apples.
 I will pay 25c. per bushel for peeling apples, of which I need about 5,000 bushels. Peeling apples may be wind-falls, and either sweet or sour apples, but they must be firm and free from rot, and at least about 2 inches in diameter.

I will need about 15,000 bushels of cider apples for which I will also pay an advance over former years. I will pay from 20c. to 25c. per bag according to quality. If you have any apples that will not sell in the City, bring them along and tell your friends and neighbors.

The factory will be open every day for the purpose of buying apples up to Nov. 28, but will do custom work only as advertised.
