THE LATEST ENTERPRISE.

Who says that this town is not up-to-date? We doubt if any town in the province can show more artistic work in post cards, with local views, done by our own artists, than Richmond Hill can. A card shown us yesterday gives a good view of the Post Office. On the ridge of the roof at the rear of the building is incidentally shown Manager Stirling putting on the finishing touch in constructing the Richmond Hill Electric-Magnetic-Telegraph-Line. The snap-shot was "taken" by Mr. Jerry Smith, also a prominent director in the above-named company. For the benefit of those who may not happen to know the termini of this new line of communication we may say that the wires connect the jewelry shop at the hub with "Friedenheim" at the North End.

THE MANSE.

The Presbyterian people are sparing no pains in the improvement and decoration of their Church and Manse property. The interior of the Manse has been thoroughly renovated, and the paving and painting throughout does credit to those who have had the work in hand. It is also proposed to paint the exterior of both Church and Manse as soon as the weather is favorable for outside work. Rev. Mr. Currie and family moved into their new home on Tuesday and expect to enjoy their new surroundings.

NOTICE.

A meeting of the directors of the Bethesda and Stouffville Telephone Company, and the provisional directors of the proposed Union Telephone Company—west of Yonge street—will be held at the Palmer House to-morrow (Friday), commencing at 2 o'clock. Interested citizens are invited to attend.

LET THEM ALONE.

We understand the Village Council has been asked to stop the fish pedlar from selling "fresh fish" in the village if he does not produce a license. A few days ago a man was around selling picture post cards. Why not stop him also? It interferes with somebody's business. We believe however, that our Village Fathers have bigger business on hand than interfering with fish pedlars and card sellers. Besides we need the fish.

A GOOD LOAD.

Mr. John Sheardown, a few days ago, drew with his team from Boyl's Pond to one of the ice houses here 61 blocks of ice, each weighing 150 pounds, making a load of about 4 1/2 tons. As a great part of the road is up a steep incline the load is considered a heavy one. But Mr. Sheardown is never afraid of heavy loads.

MACKENZIE-BREDIN.

A very pretty wedding was solemnized in the Methodist Church, West Toronto, on Wednesday of last week, when Miss Kathleen G. Bredin of Richmond Hill, grand-daughter of the late Rev. Dr. J. Bredin, was united in marriage to Mr. Walter A. Mackenzie, of the Canadian Express Company. The interesting ceremony was performed by the pastor, Rev. Dr. Hazelwood, and the Wedding March was played by Prof. Torrington. The groomsmen were Mr. Thos. E. Sheppard, the bridesmaid Miss Sadie Findley, and Miss Carrie Bredin, sister of the bride, was flower girl. The bride was given away by Mr. L. Murch. After the ceremony the immediate friends, about thirty in number, partook of a wedding breakfast at the home of Mr. and Mrs. Murch, 90 Medland street. The usual toasts were proposed, and a number of interesting and witty speeches followed. Among the many beautiful and costly presents was a solid silver cabinet from the groom's friends in Scotland, and the groom's present to the bride was an upright piano. The groom's present to the bridesmaid was a pearl sunburst, to the flower girl a ring, and to the groomsmen a stickpin. The bride was handsomely costumed in white silk mull, with picture hat to match, and carried a shower of white roses and lilies of the valley. The bridesmaid was in white, with touches of pale gold on dress, and black hat, and carried a shower of yellow roses. The flower girl was also in white, and carried a basket of pink carnations. The young couple took the 6 p.m. train for New York and other places, followed by best wishes from many friends.

SILVER WEDDING.

Last Thursday evening, March 11th, a number of friends of Mr. and Mrs. W. F. A. Clubine met at their home, 513 Church St., Toronto, to celebrate the twenty-fifth anniversary of their wedding day. All the members of their family, consisting of two sons and three daughters, were present. After luncheon a very pleasant time was spent in renewing acquaintances. A program of short speeches, recitations and songs concluded the evening's enjoyment. Before separating all joined in wishing Mr. and Mrs. Clubine many happy returns. Some of those present were:—Mr. Clubine's mother, Mrs. N. Helmky, of Richmond Hill; Mr. J. E. Clubine, Mr. and Mrs. Jas. Stewart and Miss Bernice Stewart, of Oak Ridges; Mr. and Mrs. A. Helmky and the Misses Lida and Maud Helmky, of Headford; Mr. and Mrs. D. W. Clubine, of Elgin Mills; Mr. and Mrs. W. Helmky, of Creemore; Mr. W. Helmky, Mr. and Mrs. C. Helmky, Mr. and Mrs. C. F. Vanhorn, Miss C. McCague, Mr. W. and Miss Nash and Mr. and Mrs. Robinson, of Toronto; Mr. and Mrs. E. Clubine, of Bethesda; Mr. and Mrs. W. Marsh, of Richmond Hill; Mr. and Mrs. Ed. Britnell, Mr. and Mrs. Atkinson, Mr. and Mrs. Fred. Richardson, Mr. and Mrs. H. Widdifield, Miss Shaver and Miss Appleton. Mr. and Mrs. Clubine were the recipients of many handsome presents.

POPULAR LECTURE.

It will be with pleasure that the people of Richmond Hill and surroundings will read the announcement of a lecture by Rev. Robert Knowles, B.A., of Galt, who has become so well known through his books, "St. Cuthberts," "Undertow" and "The Web of Time." Mr. Knowles has been called "the Ian MacLaren of Canada," but those who have heard him lecture attest that it is in this role he excels. On the evening of Thursday, April 1st, he will give his popular lecture, "The Secrets of Scotch Success," in the Presbyterian Church, and the same lecture in Victoria Hall, Thornhill, on the Tuesday previous. Mr. Knowles, being an Irish-Canadian, introduces enough sparkling wit to make his lecture exceedingly entertaining, while it invariably displays that saneness of context, elegance of form and brilliancy in expression which make it an intellectual treat. Remember the date and do not fail to hear the lecture.

A SAFE MACHINE.

To the Editor of THE LIBERAL: Dear Sir,—A recent issue of your paper contained an account of an accident due to the explosion of a carbide gas generator in Richmond Hill. While recognizing the dangerous and explosive character of this gas under certain conditions, I wish to state for the general benefit of your readers that its liability to explode has been practically eliminated in the "Simplex" machine as manufactured under Colwell patents. In this machine the gas production is exactly proportionate to and controlled by consumption at the burners, and there is therefore no storage and no after generation. The reader will at once see that no disastrous explosion could possibly occur owing to the fact that no amount of gas is ever present in any part of the system at any time. The machine is also equipped with an automatic safety appliance, thus rendering an explosion next to impossible, unless fire is deliberately placed in the gas bell, something which would be most difficult to do, as the generator cannot be opened until pressure has been removed from gas and the carbide feed mechanism thereby rendered inoperative. Thanking you for your valuable space, I remain, J. ROUTLEDGE, Oak Ridges, March 13, 1909. P. S.—The "Simplex" people will give a reward of one hundred dollars for the name of any person who claims that an explosion was ever caused by one of their machines, which shows the confidence they place in this invention.
