

## "COLD WATER TAVERNS."

The Daily Star of Monday has a sensible editorial in which is pointed out the lack of accommodation for the travelling public in some places where local option is in force. It is also pointed out that the citizens of the town of Tara have recently organized a joint-stock company, with shares at \$50 each, and have purchased an hotel which will be run as a public house.

"Each town or village needs a public house—a place where strangers will find board and shelter for themselves, stabling for their horses, if they have them, and rooms, if they need them, in which may be displayed samples of goods offered for sale to local dealers. There needs to be maintained a public-house—a house that people may enter without any feeling that they are guilty of an act of intrusion. In fact, society is organized on such a basis as renders a public-house a place of public resort a necessity. If such a convenience exists wherever the sale of liquor is licensed, and disappears whenever and wherever the sale of liquor is stopped, it will mean that the inconvenience of reform will be more widely felt than the advantages of it, and after disappointing experiences, villages and towns will flop back to the license system."

The article ends by saying that cold water taverns must be "under the management of men who do not want to sell liquor, but who are anxious to prove that the house can be a success without it."

## INCORRECT.

The following incorrect statement appeared in the evening papers of Monday: "Mr. J. B. McKenzie, who is seeking to secure the release from jail of Frank Miller, who is serving a four months' sentence for selling liquor without a license, is raising a peculiar technical point in the case. Mr. McKenzie's contention is that Magistrate Sanderson, who was one of the justices of the peace who tried Miller on his first arraignment, and who convicted him on the second offence, was not qualified, he being Miller's business competitor. Magistrate Sanderson is a druggist and as such may sell liquor."

Mr. Sanderson is not a druggist, and he did not convict Miller on the second offence. Miller was convicted by Magistrate Ellis.

The new school bill introduced in the Legislature by Hon. Dr. Pyne says that the first term shall begin in rural schools on the third Monday in August, and in urban schools on the first day of September. We believe it would be more satisfactory if schools always opened on a Monday following vacation. Experience shows that the great majority of pupils enter school on a Monday, and if the term opens, say on a Wednesday, few students will be found in their places till the following Monday. It is important that all pupils be in their places on the day of opening.

The Minister of Education has introduced an act respecting Public Schools, which involves several changes from the present law. Relative to the salaries for School Inspectors it is proposed that every County Inspector shall receive for the first year of his employment, after the first of January, 1910, \$1,500 a year; for the second year \$1,600; and for the third and every subsequent year \$1,700. One half of the salary of every County Inspector shall be paid by the Treasurer of Ontario, and one-half by the County

Council. The County Council shall also pay to the County Inspector his reasonable expenses for travelling, printing, postage and stationery.

The National Missionary Congress opened in Massey Hall yesterday, and will remain in session till Sunday next, the 4th of April. Addresses will be given by the leading men of the Laymen's Missionary Movement in Canada, and by eminent visitors from foreign lands. The Congress is the first held by the men of any nation with the intent of placing the evangelization of the world in the forefront of the national programme. A keen interest is being taken in the work of this great convention.

## OBITUARY.

It is with the deepest regret we this week chronicle the death of Marion, beloved wife of Mr. W. J. Tyndall (and daughter of Mr. and Mrs. A. W. Winchcombe), at the early age of 21 years. The death occurred at her home in Moosomin, and from medical evidence it appears was caused by shock following an operation, and was quite unlooked for by her many friends to whom she was endeared by her beautiful character and sweet disposition. To show her loving sympathy with others we publish a verse she composed shortly before her death:—

Yes, again we hope to meet him,  
When our days on earth are fled,  
And with joy in Heaven to greet him,  
Where no farewell tears are shed.

The body was brought from Moosomin on Friday, and Saturday was interred in the Yorkton cemetery after service in the Methodist church.

Mr. and Mrs. Winchcombe tender their heartfelt thanks to all kind friends for their expressions of sympathy given them in their bereavement.—Yorkton Times, March 18.

## WHY NOT OWN AN AUTOMOBILE?

If automobiles are needed anywhere at all they are in the country. One of the speakers of the Women's Institute, at Guelph, recently predicted that the time was near at hand when farmer's wives would run their own automobiles. Nor is the prediction a visionary one. Like the telephone and the trolley, the automobile seems destined to add to the comfort of country life, and the cost will not interfere with your buying. We can sell

## Good Second-Hand Machines

at a mere fraction of original cost. These cars are taken by us as part payment for the newest and latest models, and are such as we can thoroughly recommend. Any machine we send out is guaranteed to be in first-class condition, and beyond the fact that second-hand cars are not this year's style, there is nothing wrong with them in any way. We use them as a means of introduction to the country trade, and make the values extra special to encourage quick buying. If interested, send your name and address for fuller particulars.
