## AN ACT RESPECTING THE SAVING OF DAYLIGHT.

The following are the sections of the Act respecting the Saving of Daylight, recently introduced in the House of Commons:—

Whereas it is desirable to adopt a standard time in advance of the standard time now in use, with the object of promoting a more extended use and enjoyment of daylight during the summer months: Therefore His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacted as follows:—

1. This Act may be cited as *The Daylight Saving Act*.

2. This Act shall not apply to the Yukon Territory.

3. From and after two o'clock in the morning of the first Sunday in April in each year until two o'clock in the morning of the first Sunday in November in each year the standard time shall be one hour in advance of the standard time now in use.

4. The time hereby established shall be known as standard time, and when any period of time is mentioned in any Act of Parliament, deed or other legal instrument, the time mentioned or referred to shall, unless it is otherwise specifically stated, be held to be standard time under this Act.

5. Greenwich mean time, as used for the purposes of astronomy and navigation, shall not be affected by this Act.

6. This act shall come into force on the first day January, one thousand nine hundred and ten.

Capt. T. G. Wallace, M.P. for Centre York, was one of the speakers in the House of Commons when the budget of the Minister of Finance was being discussed on Monday night of last week. Mr. Wallace claimed that the Government should have manifested greater care in the expenditure of public money, and that had a different system of book-keeping been adopted a deficit might have been shown instead of a surplus. He advocated higher protection to farmers, market gardeners and laborers, and would place a higher duty on hogs and hog products entering Canada. Referring to the Newmarket Canal, Mr. Wallace characterized that project as a useless waste of public money.

There have recently been so many cases of stabbing, especially by the foreign element, that the Dominion Parliament have thought it well to amend the Criminal Code, increasing the punishment of those carrying concealed weapons. A bill has been introduced by Hon. A. B. Aylesworth, Minister of Justice, which will doubtless be welcomed by every citizen who has at heart the moral uplift of the community. At present a fine may be inflicted for having in one's possession a dagger or dirk, but is proposed to make the punishment imprisonment. It is also proposed to add a clause to the Criminal Code making it an offence to manufacture or circulate indecent or immoral post-cards or pictures. According to the proposed law it will be an offence not only to manufacture immoral publications or pictures, but to distribute, circulate, or to have them in one's possession. Post cards sometimes intended as jokes have a very demoralizing tendency.

## HYSLOP BICYCLES

Bicycles are rapidly coming back into popular favor, the demand this year being five times what it was five years ago. We have planned for it in two ways—by getting the very best English wheel we can for popular selling, and saving to our customers all intermediate profits by filling orders direct by mail instead of through agents. In this way we can offer

### \$50 Wheels for \$25

and give better satisfaction all round. The quality of the wheels is all right—only the best materials used and only skilled mechanics employed in construction. The equipment is right up-to-date and the machines throughout are such as we can thoroughly recommend. We sell automobiles as well as bicycles and our plan is to make wheels serve as a good advertisement to the entire business. Send for illustrated folder.
