Speaking from the standpoint of health alone, if there is one thing, perhaps more than any other, on which the residents of this village can pride themselves, it is the abundant supply and rare quality of their drinking water. This week, while sinking a well on Mr. Durham's property on Centre St. East, Mr. W. Gibbs struck an unusually rapid rise of pure spring water at a depth of about 11 feet. Mr. Gibbs, who is an authority on the science of well-digging, says that the nature of such a well is never to run dry.

SYMPATHY AND CONDOLENCE.

The following resolution of sympathy and condolence, and appreciation of character and work, at the death of Joseph A. E. Switzer was unanimously carried at the annual session of the Toronto Central District, Toronto Conference, Methodist Church, on the 21st of May, 1909:—

Moved by R. C. Hamilton, Esq., seconded by Rev. H. S. Matthews, supported by several, and unanimously carried amid profound silence,

That this Toronto Central District place on record its deep sense of the great loss sustained in the death of our late brother, J. A. E. Switzer.

His character was strong and unblemished, he was of the most sterling integrity, and whatever work he undertook he endeavored to do it to the glory of God.

He was an ardent temperance worker, and devoted a good deal of his time to the advancement of that important cause.

He was a familiar figure through his faithful attendance at District meeting, Conference, and General Conference. He was a member of this District meeting of this year, but he was called to the Palace of the King before we opened our Sessions.

His life was a noble and good one, and worthy of emulation.

We request the widow and children to accept the tenderest sympathy of this District meeting, and earnestly pray that the Divine consolation and presence may sustain them in these hours of sorrow and death.

Broadway, Tabernacle, Toronto, May 21st, 1909.

Signed on behalf of the District,
THOMAS E. BARTLEY,
President of Conference,
GEORGE W. ROBINSON,
Secretary of District.
