

FLOODS MENACE FERNIE, B.C.

Three Men Are Already Known to Have Been Drowned in Elk Lake.

A despatch from Fernie, B. C., says: The Elk River is on the rampage and small shacks, lumber, trees and bridges are being washed away in and around here. The Elk Lumber Company and Fernie Lumber Company lost much timber as a result. The railway bridge near Elk had two spans damaged and the trains could not cross. Passengers were transferred. The damage has been since repaired and trains are on the move again. Residents in the river flats have lost a large amount of cattle, gar-

den stuffs and buildings. The major portion of Fernie is in danger and families are moving out daily. Fernie Annex is also suffering. A large boom of logs in the river above the city expected to be carried away any moment. Three unknown bodies have floated past here. Two men were drowned at Waldo while attempting to cross the river. One body has since been recovered, but is not yet identified. Old timers report it is the highest flood for years. Fernie schools are all flooded.

BUSH FIRES ARE RAGING

Lumbermen and Miners at Elk Lake Trying to Save Their Property.

A despatch from Elk Lake says: Bush fires have started earlier than usual this season. For three days past men from Booth's two lumber camps up the Montreal River have been fighting fire, and they make no bones about blaming the prospectors for it. The "Big Six" Mining Co. have been fighting the same enemy during the past week. On Monday night the fire worked its way down to the outskirts of the town of Smyth, just across the river from here. The sight was impressive as night came on, even the smallest branches being sharply silhouetted against the flames. A despatch from Dauphin, Man., says: A destructive forest fire is raging for a hundred miles between Crooked River and Bowsman, and

from Hudson's Bay Junction to near the Pas. The value of the timber burned will not be less than \$75,000, so far, and probably some of the farmers remote from the railway have suffered very severely. Ruby Lake lumber mills were destroyed on Wednesday night, and considerable damage has also been done to the C. N. R. tracks. A despatch from St. John, N. B., says: A telephone message from Oak Bay, near St. Stephen, reports a forest fire which broke out on Thursday afternoon, swept through two miles of heavily timbered land, leaving a track a mile wide, and is still burning. The property is owned chiefly by Jesse Bartlett and Wm. Kierstead. Bartlett's mills at Waweig were in danger.

A HUSBAND'S DARING. He Plunged into the Niagara to Save Wife's Life.

A despatch from Niagara Falls, N. Y., says: Louis Cohen of Buffalo, saw his young wife leap into the swirling river between Second and Third Sister Islands at 5 o'clock on Sunday afternoon, only 150 feet above the brink of the cataract. Without a moment's hesitation he followed her, caught her hand and struggled desperately to save her. Mrs. Cohen probably died in her husband's arms. Before it was possible to bring efficient help, an hour had passed. When aid at last arrived, Cohen was exhausted and could not tie the rope thrown him around his own or his wife's body. He had been unable, too, in the long wait to keep his wife's head above water. He held to the rope with one hand and was drawn ashore, but lost his grip on his wife's body when within fifteen feet of the bank. The woman's body was whirled away and later in the day was found fast on a rock 100 feet above the brink. When it was rescued life was extinct.

MAD DOG AT PARIS.

Bit a Boy, Who Will be Treated for Rabies.

A despatch from Paris, Ont., says: Anticipating the development of rabies in the three-year-old son of William North, a citizen of Paris, father and son will go to New York, where the little tot will undergo treatment for the dread seizure. The expenses for the trip will be borne by the Paris Council. The child was bitten some time ago.

The father destroyed the dog at once, and sent the head to Ottawa for analysis. A telegram from the capital city brought back the information that symptoms of rabies were unmistakable. Fear is general all over the neighborhood at present, because the dog had been at large for some time. The Council has already issued a proclamation prohibiting dogs from being allowed out during this month. After that they must be muzzled or held in leash.

BLYTHE TO BE HANGED.

Cabinet Will Not Interfere With Sentence for Murder.

A despatch from Ottawa says: The last chance to escape death is gone for Walter Blythe, the Agincourt railwayman under sentence to be hanged for the murder of his wife last winter. Blythe was originally sentenced to be hanged on May 13th, but two days before he paid the penalty a reprieve was granted by order in Council until June 17th. On Thursday his case was finally considered, and his Excellency Earl Grey has concurred in the recommendation of the Cabinet that the law shall take its course.

Newfoundland ran behind \$150,000 in its finances during the fiscal year just past.

A series of experiments in sending wireless messages to balloons was conducted at Berlin on Saturday.

The fishing schooner Souris Belle was so battered by ice floes that she went down off St. John harbor. Her crew were rescued.

NOTHING TO FIGHT ABOUT

Count Bernstorff Says Jingoism Will Soon Pass Away.

A despatch from New York says: Count Von Bernstorff, the German Ambassador, who came to New York on Wednesday to receive an honorary LL.D. at the Columbia University commencement, took occasion in the course of an interview in the afternoon to pooh-pooh the talk of impending or probable war between England and Germany. "England has no need to worry about the likelihood of war with my country," he said. "The jingoism of a few easily excitable persons in England will soon pass over. Between the two Govern-

ments there is no misunderstanding or enmity, and the sentiment of the two peoples toward one another is not hostility or bitterness, but a healthy, temperate, good-natured rivalry. "Germany is very proud of the progress which Count Zeppelin and our other aeronauts have made. But the English yellow journals are of course wrong in their efforts to make war talk out of our efforts to conquer the air. We are building no secret fleet of war airships, and we have no secret balloons hovering over the English coast.

at 3 1/2 to 4 1/2 c per pound; the best cattle sold at about 5 1/2 c per pound, but they were not extra; pretty good animals sold at 4 1/2 to 5 1/2 c; common stock, 3/4 to 4 1/2 c per pound. Good lots of fat hogs 8 1/2 to 8 3/4 c per pound.

Toronto, June 8.—Butchers' cattle were in strong demand and fully 15 cents dearer, with prices firm. Exporters likewise, and many animals that under ordinary conditions would not be looked upon as in this class were bought for shipping. Stockers and feeders wanted. Milkers and springers in firm demand for good milkers and near springers. Sheep and lambs unchanged. Calves unchanged. Hogs weakening. Selects quoted \$7.70 fed and watered, and \$7.40 to \$7.50 f.o.b.

ATTACKED BY DOGS.

Little Montreal Boy Bitten in Face and Neck.

A despatch from Montreal says: An eighteen-month-old child of M. Grant of St. Lambert was badly bitten on Friday by two English bulldogs in a neighbor's yard. The child wandered into the yard and the dogs flew at his throat and face. The child's screams brought his mother and a couple of men to his assistance, and the dogs were beaten off, but only with the greatest difficulty. One of the men had to use a hammer before they could be made to loosen their hold. A doctor was summoned and was obliged to put in nineteen stitches in the little chap's face and neck. His nose was almost bitten off, and the other injuries were very painful. His recovery is doubtful.

SMOTHERED IN SAWDUST BIN.

Peculiar Accident to Son of a London Man.

A despatch from London, Ont., says: While playing in a bin of sawdust, Gordon, the year and ten months' old son of Mr. and Mrs. A. Knokles, of 1 High Street, was smothered to death at about 1 o'clock on Thursday. When Hedley Weaverly, an employe of Mr. Knowles, returned after dinner and went to the bin of sawdust, which is used as fuel for the engine, to put on more fire he saw the hand of the child sticking out. The boy was covered only about four or five inches and at the place where he was buried the sawdust was only about 18 inches deep.

CLOUDBURST IN OXFORD.

Boy and Cows Had to Swim for Their Lives.

A despatch from Ingersoll says: Although Ingersoll is outside of the cloudburst zone, Saturday night's terrific storm was the worst within the recollection of the oldest inhabitant. Every street was a river while the storm was at its height, and heavy damage was caused in all parts of the town. Cellars in different sections were flooded and much damage caused to private property, particularly to gardens. To the south of the town, where the full effect of the cloudburst was felt, one lad who was in the field after the cows was compelled to swim. The land was low and the water rose at an alarming rate. Finally, after wading for some distance, the lad, as well as the cows, were compelled to swim.

THREE MEN DROWNED.

Boat Carried Over Little Grand Mere Falls.

A despatch from Montreal says: Three young men of Grand Mere, working for the Laurentine Paper Company, on the Mattawin River drive, were drowned a couple of days ago. F. Boisvert, P. Juneau and M. Desrosiers were trying to cross the river between the two falls in a boat, but the current was too strong, and carried them over Little Grand Mere Falls. An inquest will be held.

ATTACKED THE GUARD.

William Duff's Desperate Effort to Escape From Moose Jaw Jail.

A despatch from Moose Jaw, Sask., says: William Duff, under trial here for horse-stealing, made a desperate effort to escape on Thursday morning. He succeeded in breaking the lock from his door, and securing the iron bar he attacked the guard fiercely, and it was only after assistance had been rushed in that he was overpowered.

Nine Moslems and six Armenians were hanged at Adana, on Wednesday.

ALL IS BRIGHT OUT WEST

Ideal Growing Weather Is General Over the Prairie Provinces.

A despatch from Winnipeg says: "Optimistic to the highest point of satisfaction," just about describes the crop report issued by the C. P. R. on Wednesday. It combines reports from every section of the prairie country clear through to the Rockies, and, in its essence, tells that all the wheat has been sown, while the percentage of oats, barley and flax which remains to be put in is small. Ideal growing

weather, with light rains and plenty of warmth, has been general over the entire northwest, and in some places the growth has been exceptional for the first of June. At Balcarres the grain is reported to be up eight inches; at Arcola, from four to seven inches; at Waskada, four inches; on the Portal section, from two to five inches, and on the Lacombe branch in the far west, the same height. All over the west the acreage in grains has increased.

CZAR AND KAISER TO MEET

European Situation Promises to Enter Upon a Decidedly Peaceful Stage.

A despatch from St. Petersburg says: A meeting between Emperor William and Emperor Nicholas has been arranged and will take place in the waters of the Finnish Gulf. The exact date of the meeting will be decided upon later, but it will probably be June 17. The German Emperor will arrive on the Imperial yacht Hohenzollern, while Nicholas will be aboard the Standart, accompanied by M. Iswolsky, the Foreign Minister, and Admiral Voevodsky, the Minister of Marine. The news of the proposed interview between the Sovereigns, coming so soon after the settlement of the Balkan crisis, has aroused eager speculation among the diplomats

at St. Petersburg. It was supposed in some quarters that German mediation, which had ended the crisis, had left an inheritance of bitterness which would estrange the two Monarchs and lead Russia to identify herself more closely with Great Britain's continental policy. The meeting, which, according to some reports, has been arranged by the initiative of Emperor Nicholas, is taken to mean that Russia prefers an amicable arrangement with Germany to the doubtful issue of an antagonistic policy. If Emperor William also meets President Fallieres, as reported from Berlin, the European situation may be regarded as entering upon a decidedly peaceful phase.
