BAZAAR, TEA AND CONCERT.

The bazaar, tea and concert in Victoria Hall, Thornhill, in aid of St. Luke's Church, yesterday afternoon and evening was a success in every particular. In the evening the hall was crowded, and everybody was accorded a warm welcome. The proceeds of the day amounted to something over \$800. There were various competitions, and each created much interest. A fancy chair was won by Mrs. (Dr.) Campbell, the large doll went to Mr. James Garvin, and the Silver Tea Set was awarded to Miss Annie Pickett, who collected \$352. Her rival, Miss White also did well, having collected \$215. The pastor, Rev. Father Grant thanked the young ladies and his congregation generally, and the many patrons for their efforts in making the bazaar a success. Later in the evening a good entertainment was given by Toronto talent. Rev. E. C. Currie made a happy chairman, referred to the excellent tea, and kept the audience in the best of humor by his humorous and well chosen remarks. Rev. E. T. Douglas also made an appropriate address. Among the many prominent men in the audience was Rev. John Gibson.

RAN ON THE TRACK.

Mr. Wesley Peterman of Purpleville had an exciting experience on Tuesday. When taking a load of potatoes to the City his team became frightened, upset the load, ran on the C.P.R. tracks, crossed an unguarded railway bridge 300 feet long, 80 feet high, and was stopped about Woodbridge. The horses were little the worse after their exciting run.

THANKSGIVING DAY.

Thanksgiving Day was quietly observed by our citizens. A goodly number went away to spend the day with friends in neighboring districts, whilst others were visited by friends, and enjoyed the Thanksgiving turkey at home. And, as a medicine, preventive of biliousness and dyspepsia, many took advantage of the ideal weather and walked to far-off woods and country places. Much needed rain fell in the evening, but too late to mar the enjoyment of the day. The Metropolitan street cars were crowded, and the usual difficulty was experienced in getting the passengers home at a reasonable hour.

Polished Rangoon rice, 5c lb.; best tapioca, 4 lbs. for 25c. Atkinson & Switzer.

ENGINEERS' REPORT.

Messrs. Barber & Young, through Mr. Frank Barber, have made an investigation of a gravitation water supply for the Village of Richmond Hill, and have submitted their report on the project to the Reeve and Council. The engineers have gone into the matter carefully, but their findings are not so favorable for a supply of water for drinking purposes and for fire protection as our citizens would desire.

We gather from the report that an examination has been made of two small streams issuing from springs—one near the side line between lots 57 and 58, concession 2, Markham; the other near the same lot line in concession 1 in the same township. The elevation of the water at these two points above a point on the asphalt sidewalk in front of Trench's Carriage Works is from the first mentioned stream 61 feet, from the other 82 feet, and from Bond Lake 181 feet. The highest point on Yonge street between Bond Lake and Richmond Hill is 243 feet.

The report also shows that the distance from one of the streams to Richmond Hill is 4 1/2 miles; from the other stream 3 1/2 miles; from Bond Lake 4 1/2 miles, and from Lake Wilcox 5 miles.

The engineers say that although the elevation of one of the streams would make a fall of 88 feet, yet its elevation is not great enough to provide sufficient pressure at Richmond Hill under a gravitation system of supply alone. On account of the length of pipe line required the loss of head due to friction is considerable. Allowing for friction a hydrant pressure of only 15 pounds per square inch would be given, whereas a pressure of at least 60 pounds is required for effective fire service. . . . Thus this source of supply could not be utilized without pumping, and such being the case a source of equivalent discharge nearer the village might more profitably be selected.

From its considerable elevation, Bond Lake offers a source of supply that as far as pressure alone is concerned would be satisfactory. A serious objection to the use of Bond Lake water for drinking purposes, however, is its bad quality, caused by vegetable growth. Wilcox Lake water is of better quality, but on account of its greater distance the effective head would be smaller. It does not seem that sufficient water can be secured nearer than Bond Lake without resorting to pumping. Water from nearby springs could be collected and pumped into an elevated tank.

The wholesome, harmless green leaves and tender stems of a lung healing mountainous shrub, give to Dr. Shoop's Cough Remedy its curative properties. Tickling or dry bronchial coughs quickly and safely yield to this highly effective Cough medicine. Dr. Shoop assures mothers that they can with safety give it to even very young babes. No opium, no chloroform—absolutely nothing harsh or harmful. It calms the distressing cough, and heals the sensitive membranes. Accept no other. Demand Dr. Shoop's. Sold by W. A. Sanderson.

W. F. M. S.

The W. F. M. S. Thankoffering meeting held in the Presbyterian Church last Thursday afternoon was well attended by not only the ladies of the congregation but by many from the sister churches of the village and from Thornhill. A very interesting address was given by Mrs. Goforth, wife of Rev. Jonathan Goforth, who laid the foundations of our Canadian mission in the Province of Honan, China, and who has since 1888 stood in the forefront of missionary enterprise in the great empire. Mrs. Goforth's address was descriptive of the character of her own work among the women of Honan, and left a deep impression upon her audience. Richmond Hill was favored as few cities are in having, in one week, two of the best known and most successful foreign workers, Dr. O. L. Kilborn and Mrs. Goforth, to give an account of their work in China. Variety was given to the program by a brief address by the president of the W. F. M. S. of the Methodist Church, and by special music given by the Misses Switzer, Miss Marsh and Mrs. Currie, who also contributed a reading appropriate to the occasion. After the program was over refreshments were served in the basement to all present. The offering of the afternoon tripled that of former occasions. In the absence of the president the chair was occupied by the vice-president, Mrs. McDougall.

To quickly check a cold, druggists are dispensing everywhere, a clever Candy Cold Cure Tablet called Preventics. Preventics are also fine for feverish children. Take Preventics at the sneeze stage to head off all colds. Box of 48-25c. W. A. Sanderson.
