

BABY'S OWN TABLETS
CURE SUMMER COMPLAINTS

Baby's Own Tablets should be kept in every home where there are infants and young children, and at first sign of illness during the hot summer months they should be given to the little one. At no time of the year is baby in such danger as in summer. Summer complaints come on so quickly that unless prompt aid is at hand the little one may be beyond help in a few hours. The Tablets never fail to relieve the sick child, and if occasionally given to the well child they will keep him well. Mrs. P. Laroche, Les Fonds, Que., says:—"Last summer my baby suffered severely from stomach and bowel troubles but the prompt use of Baby's Own Tablets saved his life." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WISE WORDS.

Nothing works harder than idle curiosity.
Many a man marries for love—of money.
The spark of love is usually kindled before there is a match.
Things don't turn up in this world until somebody turns them up.
It is better to take things as they come than miss them as they go.
If you must take sides in a quarrel, take the outside—of the house.
The lot of the peacemaker may be blessed; but he usually gets more hard knocks than the combatants.

Worms derange the whole system. Mother Graves' Worm Exterminator deranges worms and gives rest to the sufferer. It only costs 25 cents to try it and be convinced.

It's as important to know when to let go of an opportunity as it is to know when to grasp it.

Minard's Liniment Cures Carget in Cows.

She—"I'm going to cook dinner to-day myself. What would you like, dear?"
He—"Er—cold beef and pickles."

When a man lets his whiskers grow after marriage his wife suspects that he doesn't love her any more.

A lady writes: "I was enabled to remove the corns, root and branch, by the use of Holloway's Corn Cure." Others who have tried it have the same experience.

ACCOUNTED FOR.

Knicker—It must be fine to stand where no foot has trod before.
Henpeck—Perhaps that is why Maria likes to put hers down on me

Minard's Liniment Cures Diphtheria.

WHERE THE FAULT LAY.

"Tommy, that is the last helping of plum-pudding I shall give you!" So spoke Tommy's mother. Tommy grunted. Why? Because he was a little hog.
"Once upon a time, Tommy," continued his mother, "there was a little boy who kept on eating more and more plum-pudding till he burst! He died, Tommy, from eating too much plum-pudding."
Tommy finished his helping.
"Ain't such a thing as too much plum-pudding!" he murmured, tightly.
"Well, then," said his mother, "why did the little boy burst?"
"Not enuff boy!" remarked Tommy, and he passed his plate over again.

Beware of good intentions that kick over the traces.

People who lead the simple life are not necessarily simple-minded.

FATHER'S SOFT SPOT.

"You mustn't touch the top of the baby's head," said a mother to her five-year-old son, "because she has a soft spot there that is very tender."

The youngster gazed at it curiously for a moment, and then asked:—"Have all babies got soft spots on the top of their heads?"

"Yes," replied his mother.
"Did papa have a soft spot on his head when he was a baby?"

"Yes, and he has got it still."
And the old man, who happened to hear the above conversation, sang out:—"Yes, indeed he has, my dear or he would have been a single man to-day."

NOT FOR HIM.

Johnson—That girl is a jewel.
Morrison—Why don't you marry her?

Johnson—I can't furnish the setting.

In Fields Far Off.—Dr. Thomas' Electric Oil is known in Australia, South and Central America as well as in Canada and the United States, and its consumption increases each year. It has made its own way, and all that needs to be done is to keep its name before the public. Everyone knows that it is to be had at any store, for all merchants keep it.

Some people would accomplish a lot more if they didn't waste so much time telling others what they are going to do.

PAINKILLER IS JUST THE REMEDY needed in every household. For cuts, burns and bruises, strains and sprains dampen a cloth with it, apply to the wound and the pain leaves. Avoid substitutes, there is but one "Painkiller"—Perry Davis—25c. and 50c.

THE INEVITABLE.

Briggs—"I don't think much of Under-blossom. He's a scoundrel. He lies in his teeth."
Griggs—"Why shouldn't he? His teeth are false."

Small but Potent.—Parmelee's Vegetable Pills are small, but they are effective in action. Their fine qualities as a corrector of stomach troubles are known to thousands and they are in constant demand everywhere by those who know what a safe and simple remedy they are. They need no introduction to those acquainted with them, but to those who may not know them they are presented as the best preparation on the market for disorders of the stomach.

HYPENATED.

When a woman answers "N-no!" It is quite easy to guess The little hyphen is to show Her answer should be "Yes."

PEARL DIVERS OF JAPAN.

Girls of 14 Often Engaged in Work—Clothes and Equipment.

The pearl divers of Japan are the women. Along the coast of the Bay of Ago and the Bay of Gokasho the 13 and 14-year-old girls after they have finished their primary school work, go to sea and learn to dive. They are in the water and learn to swim almost from babyhood and they spend most of their time in the water except in the coldest season, from the end of December to the beginning of February.

Even during the most inclement of seasons they sometimes dive for pearls. They wear a special dress, white underwear, and the hair twisted up into a hard knot. The eyes are protected by glasses to prevent the entrance of water. Tubs are suspended from the waist.

A boat in command of a man is assigned to every five to ten women divers to carry them to and from the fishing grounds. When the divers arrive on the grounds they leap into the water at once and begin to gather oysters at the bottom. The oysters are dropped into the tubs suspended from their waists.

When these vessels are filled the divers are raised to the surface and jump into the boats. They dive to a depth of from five to thirty fathoms without any special apparatus and retain their breath while remaining under water from one to three minutes. Their ages vary from 13 to 40 years, and between 25 and 35 they are at their prime.

Some men enjoy a show only when there is fifteen minutes' intermission between the acts.

"Is your husband an optimist or a pessimist, Mrs. Weakhedde?"
"Neither; he's a chemist."

PUSHING A POPULAR LINE.

A number of commercial men were sitting in an hotel, when one of them began to boast that his firm had the largest number of people pushing its goods.

There was a little argument, and then a commercial traveller, who had not had much to say before, suddenly rose and said, "I'll bet any man in the house that my firm has the biggest number of people pushing its goods."

"Done!" exclaimed the boastful one. The money was accordingly put up with a stakeholder, and the boasting commercial traveller asked, "Now, what is your firm's line of goods?"

"Baby carriages," murmured the quiet man, as he took the money and made for the side door.

Attacks of cholera and dysentery come quickly, there seldom being any warning of the visit. Remedial action must be taken just as quickly if the patient is to be spared great suffering and permanent injury to the lining membranes of the bowels. The readiest preparation for the purpose is Dr. J. D. Kellogg's Dysentery Cordial. It can be got at small cost at any drug store or general dealer's, and it will afford relief before a doctor can be called.

TIT FOR TAT.

"I wonder," ejaculated the provoked husband, waiting for his wife to put the last dab with the puff on her nose, "if the world will ever see faceless powder."
"Or," put in his spouse, "smokeless husbands."

PITY IS AKIN TO LOVE.

He was poor, but otherwise honest, and he had just proposed to the heiress.

"Are you sure," she queried, after the manner of her kind, "that you do not want to marry me for my money?"

"Of course I don't," he replied. "I am anxious to marry you because I haven't the heart to let you become an old maid merely because you happen to have a paltry half-million."

Canadian Appreciation
Langham Hotel, London.

Gentlemen,—I wish to express my appreciation of the 38 h.p. Daimler which you have delivered to me. Before shipping the car to Canada I made a three weeks' trial of it, covering some 1,200 miles. The car ran perfectly, and I never had the slightest trouble of any kind, and I think it quite lives up to the many claims you make for it. The silence, smoothness of running, and power of acceleration on hills is really remarkable.

My petrol consumption was 16 miles to the gallon, including a great deal of driving in traffic. The tyres show no appreciable signs of wear, and I think it will prove light on tyres.

I am really delighted with the car.—Yours sincerely,
(Signed) C. A. BOONE, of Toronto, Canada.
