

It will be seen by a communication in another column that the management of the Toronto and York Radial Railway purpose putting an end to rowdiness on their cars. As stated in the letter patrons of the railway are often forced to listen to disgusting language and improper conduct. Passengers should give the management every assistance in their efforts to punish the rowdy element.

Hope.

A NATIONAL NEWSPAPER.

The Globe has tried during all its history not to lose sight of the fact that a newspaper can play an important part in nation and empire building. One way in which this has been effectively practised is by keeping trained members of its staff constantly "on the wing" in search of useful and interesting information. Wherever important national work or world events in which Canadians were concerned were taking place, or where pioneer development was in progress, there The Globe commissioners have been reporting with intelligent discernment for the benefit of this country.

This policy has rarely, if ever, been more generally practised than at present. To-day the Managing Editor of The Globe, Dr. J. A. Macdonald, is in Mexico, where a three weeks' celebration of republican government is being held, and upon his return he will contribute a series of sketches on that interesting country—a country whose relations to Canada are becoming very close.

Mr. W. J. Jeffers, another member of the staff of The Globe, is at present on a pioneering trip in the Gowganda, Elk Lake, and the far north country. Mr. Jeffers is exceptionally equipped for such an expedition, having spent several years in the mining camps, America and South Africa.

Mr. M. O. Hammond, Editor of the Illustrated Magazine Section of The Globe, is contributing letters on the political situation in the United States. These will be continued during the next few weeks. Mr. Hammond's instructions being to travel wherever good "copy" from a Canadian viewpoint can be secured. It goes without saying that not in fifty years has so much interest been taken by Canadians in United States politics as is the case at the present time.

The Globe is trying to live up to its record in the matter of keeping its readers posted, aside altogether from the ordinary sources of local and telegraphic news.
