

OPPOSED TO H. S.

Correspondence in The Toronto World is an indication that there is much opposition in North Toronto to the building of a High School in that town. Petitions are in circulation in opposition to the proposed building, and many reasons are given why the work should be postponed. The article dated North Toronto, Oct. 5, says: "One or two members of the Council have given their approval, but the majority have always taken the ground that a high school at the present time would be premature, and counseled delay." The writer referred to the continuation class now doing work in North Toronto, but says:—

"It is held that not alone is the whole proceeding so far illegal, but that the ratepayers are, as a body, opposed to the school, on the ground of the largely increased cost; that they have never been consulted in the matter at all; that the action of the department is not obligatory, and that the petitions now being circulated throughout the town opposing it are meeting with general support. It is held that there are not enough residents in town, and that the added taxes would be fully four mills on the dollar, and probably more, while the accessibility of the city high schools and collegiate institutes, with their superior equipment, would militate greatly against a local institution. Finally it is urged that in the event of annexation, which is conceded to be near at hand, if a school is regarded as necessary, a building more in keeping with the beautiful northern suburb could be built and equipped by the city. In any event, there will be strong opposition to the proposal."

The Fifth Ward Toronto Conservative Association did themselves credit Monday evening in refusing the proposal to elect candidates for municipal offices on a party basis. At a previous convention of Conservatives it was proposed to introduce party politics into the civic arena, but the speakers Monday night endeavored to show that half the Conservatives in the City were against the innovation, and it would be a mistake even from a political standpoint. In political matters no scheme has yet been devised better than party government, but to elect a mayor, reeve or councillor simply because he belongs to a certain political party would in some cases be little less than a crime.

ATHLETIC WORLD.

The October number of the Athletic World, which has just reached us, is a pronounced improvement in every department over past issues, its coast to coast treatment of big things in the sphere of Canadian and universal sports is exhaustive and timely, its illustrations must be seen to be appreciated.

DANGEROUS DANDRUFF.

WILL MAKE CANADA A BALDHEADED NATION IF NOT CHECKED.

M. Pasteur, the great French Physician of Paris, once said: "I believe we shall one day rid the world of all diseases caused by germs."

Dandruff is caused by germs, a fact accepted by all physicians.

Dandruff is the root of all hair evils. If it were not for the little destructive germs working with a persistency worthy of a better cause, there would be no baldness.

Parisian Sage will kill the dandruff germs and remove dandruff in two weeks or money back.

W. A. Sanderson guarantees it. It will stop itching scalp, falling hair and make the hair grow rich and abundant.

It puts life and lustre into the hair and prevents it from turning gray.

It is the hair dressing par excellence, daintily perfumed and free from grease stickiness. It is the favorite with women of taste and culture who know the social value of fascinating hair.

A large bottle costs only 50 cents at leading druggists everywhere, and in Richmond Hill by W. A. Sanderson. The girl with the auburn hair is on every package.
